SELECTION AND AWARD CRITERIA

16. Selection criteria

The following selection criteria will be applied to the tenderers. In the case of tenders submitted by a consortium, these selection criteria will be applied to the consortium as a whole. If not specified otherwise. The selection criteria will not be applied to natural persons and single-member companies when they are sub-contractors.

1) Economic and financial capacity of the tenderer (based on item 3 of the tender form). In case of tenderer being a public body, equivalent information should be provided. The reference period which will be taken into account will be the last three financial years for which accounts have been closed.

financial reference criteria for legal persons:

- annual turnover of the tenderer must be in at least one year (in the last 3 years) equal or exceed the 100% of annualised maximum budget of the contract (the budget stated in the financial offer of the bidder);
- lack of debts to local and national budgets 9 (certificate or other proof)

2) Professional capacity of the tenderer (based on items 4 and 5 of the tender form).

professional criteria for legal persons:

- At least 6 experts with information technology background. The proposed team must possess the general and specific skills and experience necessary to fully perform the tasks set out in the Terms of Reference. (CV to be provided).

3) Technical capacity of tenderer (based on items 6 of the tender form). The reference period which will be taken into account will be the last 3 years preceding the submission deadline.

technical criterion for legal persons:

- The tenderer has provided at least 1 contracts/projects of developing systems for local or governmental authority.
- At least two (2) contracts with the development phase finalised in the last three (3) years for developing web applications of similar size and complexity.

This means that the service contract the tenderer refers to could have been started at any time during the indicated period but it does not necessarily have to be completed during that period, nor implemented during the entire period. Tenderers are allowed to refer either to service contracts completed within the reference period (although started earlier) or to service contracts not yet completed. Only the portion satisfactorily completed during the reference period will be taken into consideration. This portion will have to be supported by documentary evidence (- statement or certificate from the entity which awarded the contract, proof of payment) also detailing its value. If a tenderer has implemented the service contract in a consortium, the percentage that the tenderer has successfully completed must be clear from the documentary evidence, together with a description of the nature of the services provided if the selection criteria relating to the pertinence of the experience have been used.

Previous experience which would have led to breach of contract and termination by a contracting authority shall not be used as reference. This is also applicable concerning the previous experience of experts required under a fee-based service contract.

An economic operator may, where appropriate and for a particular contract, rely on the capacities of other entities, regardless of the legal nature of the links which it has with them. It must in that case prove to the contracting authority that it will have at its disposal the resources necessary for

the performance of the contract by producing a commitment by those entities to place those resources at its disposal. Such entities, for instance the parent company of the economic operator, must respect the same rules of eligibility - notably that of nationality - and must comply with the selection criteria for which the economic operator relies on them. Furthermore, the data for this third entity for the relevant selection criterion should be included in the tender in a separate document. Proof of the capacity will also have to be provided when requested by the contracting authority. With regard to technical and professional criteria, an economic operator may only rely on the capacities of other entities where the latter will perform the services for which these capacities are required. With regard to economic and financial criteria the entities upon whose capacity the tenderer relies become jointly and severally liable for the performance of the contract.

17. Award criteria

Best price-quality ratio. (80 quality and 20 price)

TENDERING

18. Deadline for submission of tenders

The deadline for submission of tenders is specified in point 8 of the instruction to tenderers.
