**M/s. Synnat Pharma Private Limited,  
Plot No. 60A, Jawaharlal Nehru Pharma City,  
Parawada Mandal, Anakapalli District -531019,  
Andhra Pradesh, India**

**SUB:-** Written Confirmation of **M/s. Synnat Pharma Private Limited, Plot No. 60A, Jawaharlal Nehru Pharma City, Parawada Mandal, Anakapalli District -531019, Andhra Pradesh India**, as per requirement of EU for import of active substances imported into the European Union (EU) for medicinal products for human use, in accordance with Article 46b(2)(b) of Directive 2001/83/EC from India-Reg.

Sir,

Please refer to your online application no. WC/FR/2023/6723 dated 12.03.2023 submitted to CDSCO, ADC(I), Visakhapatnam Sub-Zone, and the recommendation received from ADC(I), Visakhapatnam Sub-Zone, on the above noted subject.

Written Confirmation as required for active substances imported into the European Union (EU) for medicinal products for human use, in accordance with Article 46b(2)(b) of Directive 2001/83/EC from India is herewith granted subject to the following conditions:-

1. The Active Pharmaceutical Ingredients shall confirm to Good Manufacturing Practices mentioned in the EU directives or other equivalent (GMP of WHO/ICH Q7).
2. The manufacturer is subject to regular, strict and transparent controls and to the effective enforcement of Good Manufacturing Practice, including repeated and unannounced inspections, so as to ensure a protection of public health equivalent to that in the EU.
3. The manufacturer is required to follow the Guidance document for Issue of Written Confirmation as issued by CDSCO.
4. Written Confirmation shall be produced by the Authorized Exporter as and when required by the Drug Regulatory Authority.

5. The Written Confirmation will be withdrawn in the events of non compliance of Standards.
6. This Written Confirmation, unless it is sooner suspended or cancelled, shall be valid for a period of three years.
7. In the event of any Non Compliance observed during inspections conducted by Local or International Drug Authorities, the same shall be forwarded to this office within 7 days of receipt of report.
8. In the event of any drug found not of standard quality, the same shall be reported to this office within 7 days of receipt of report.
9. The manufacturer is required to comply with the provisions of GSR 20(E), dated 18.01.2022.

Please note that Written Confirmation issued is liable to be suspended / cancelled, if any of the conditions stipulated above are not complied with or in case of violation of the provisions of the Drugs & Cosmetics Act, 1940 and the Rules thereunder as the case may be.

Please acknowledge the receipt.

## Product specification

**Name of product:** Glycerin 99,5 % Pharma

**Description:** Glycerin 99,5 % obtained from vegetable sources

Product's quality corresponds to European Pharmacopoeia 10 ed.. It is allowed to use in food, pharmaceutical, cosmetic and food industry. The product is listed in the following regulations or adheres to such regulations respectively the COMMISSION REGULATION (EU) No 231/2012 of 9 March 2012 laying down specifications for food additives listed in Annexes II and III to Regulation (EC) No 1333/2008 of the European Parliament and of the Council, as food additive E422.

### Typical parameters:

Parameter	Unit	Quality	Method
Appearance of solution in water			Ph. Eur. 10
Sulphated ash	%	0,00 – 0,01	Ph. Eur. 10
Glycerol contents	%	98,0 – 101,0	Ph. Eur. 10
Colour APHA/HAZEN		0 – 10	EN ISO 6271-2
Index of refraction by 20°C		1,470 – 1,475	Ph. Eur. 10
Identity test		Correspond	Ph. Eur. 10, A+B
Sugar		Correspond	Ph. Eur. 10
Impurity an related substances		max. 0,1	Ph. Eur. 10
Content of any other impurities with a retention time less than the retention time of glycerol	% (m/m)	max. 0,1	Ph. Eur. 10
Content of impurities with a retention times greater than the retention time of glycerol	% (m/m)	max. 0,5	Ph. Eur. 10
Aldehydes	ppm	max. 10	Ph. Eur. 10
Acidity or alkalinity	ml 0,1 M NaOH	max. 0,2	Ph. Eur. 10
Halogenate compounds	ppm	max. 35	Ph. Eur. 10
Esters	ml 0,1 M HCl	min. 8,0	Ph. Eur. 10
Chlorides	ppm	max. 10	Ph. Eur. 10
Water content	%	0,0 – 0,5	Ph. Eur. 10
Heavy metals	ppm	max. 5	Ph. Eur. 10
Diethylene glycol content	% (m/m)	max. 0,1	Ph. Eur. 10
Appearance		color APHA less than 10	Ph. Eur. 10
Density at 20°C	g/cm <sup>3</sup>	min. 1,262	Ph. Eur. 10

<b>Microbiology</b>	Value	Complies
Salmonella (cfu/25g)	Negative	Yes
Escherichia coli (cfu/g)	<10 <sup>2</sup>	Yes

**Allergen info:**

Allergen	Present in product? (Yes / No)	Cross contamination possible? (Yes / No)
Cereals containing gluten (i.e. wheat, rye, barley, oats, spelt, kamut or their hybridised strains) and products thereof	No	No
Crustaceans and products thereof	No	No
Eggs and products thereof	No	No
Fish and products thereof	No	No
Peanuts and products thereof	No	No
Soybeans and products thereof	No	No
Milk and products thereof (including lactose)	No	No
Nuts (i.e. Almond, Hazelnuts, Walnut, Cashew, Pecan nut, Brazil nut, Pistachio nut, Macadamia nut and Queensland nut, and products thereof)	No	No
Celery and products thereof	No	No
Mustard and products thereof	No	No
Sesame seeds and products thereof	No	No
Sulphur dioxide and sulphides at concentrations of more than 10 mg/kg or 10 mg/litre, expressed as SO <sub>2</sub>	No	No
Lupin and products thereof	No	No
Molluscs and products thereof	No	No

**Nutritional data:**

Nutrients	Values
Energy (kJ/100g)	1800
Fat (g/100g)	0
Saturated fatty acids (g/100g)	0
Carbohydrates (g/100g)	0
Sugars (g/100g)	0
Protein (g/100g)	0
Salt (g/100g)	0

**Genetical Modified Organisms (GMO):** the material does not require labelling as a genetically modified product, as per EU Regulations 1829/2003 and 1830/2003.

**The material do not contain allergens and is according REGULATION (EC) No 1223/2009.**

**Storage, handling, shelf life:** store in cool, dry warehouse, in original containers, away from contamination. Shelf life is packaging in bulk: one year, packaging in drums: one year, packaging in IBC: two years, (in original packing, closed, without air and light acces, quality and product composition like Czech pharmacopoeia)after the date of production, if stored under the right conditions.

## Gobierno De Aragon

CERTIFICATE NUMBER: 30/06/25 ARA

# CERTIFICATE OF GMP COMPLIANCE OF A MANUFACTURER<sup>1,2</sup>

### Part 1

Issued following an inspection in accordance with  
Art. 94(1) of Regulation (EU) 2019/6 as amended  
Art. 111(5) of Directive 2001/83/EC as amended

The competent authority of Spain confirms the following:

The manufacturer: **Tereos Starch & Sweeteners Iberia S.A.U.**

Site address: **Avenida Allende, Salvador 76-78, Zaragoza, 50015, Spain**

OMS Organisation Id. / OMS Location Id.: **ORG-100025705 / LOC-100054350**

Is an active substance manufacturer that has been inspected in accordance with Art. 123(6) of Regulation (EU) 2019/6 and Art. 111(1) of Directive 2001/83/EC.

Other

(Human) artículo 108, Real Decreto Legislativo 1/2015, de 24 de julio, artículo 64, Real Decreto Legislativo 1/2015, de 24 de julio, Real Decreto 824/2010, de 25 de junio, artículo 47 de la Directiva 2001/83/CE

From the knowledge gained during inspection of this manufacturer, the latest of which was conducted on **2025-05-13**, it is considered that it complies with:

- The principles and guidelines of Good Manufacturing Practice laid down in Directive (EU) 2017/1572.<sup>3</sup>
- The principles and guidelines of Good Manufacturing Practice laid down in Directive 91/412/EEC.<sup>3</sup>
- The principles of GMP for active substances referred to in and Article 47 of Directive 2001/83/EC and an appropriate level of GMP as referred to in Article 46(f) of Directive 2001/83/EC.

This certificate reflects the status of the manufacturing site at the time of the inspection noted above and should not be relied upon to reflect the compliance status if more than three years have elapsed since the date of that inspection. However, this period of validity may be reduced or extended using regulatory risk management principles by an entry in the Restrictions or Clarifying remarks field. Updates to restrictions or clarifying remarks can be identified through the EudraGMDP website (<http://eudragmdp.ema.europa.eu/>). This certificate is valid only when presented with all pages and both Parts 1 and 2.

The authenticity of this certificate may be verified in EudraGMDP. If it does not appear, please contact the issuing authority.

<sup>1</sup>The certificate referred to in paragraph Art. 80(5) of Directive 2001/82/EC and Art. 111(5) of Directive 2001/83/EC is also applicable to importers.

<sup>2</sup>Guidance on the interpretation of this template can be found in the Interpretation of the Union format for GMP certificate.

<sup>3</sup>These requirements fulfil the GMP recommendations of WHO.

Certification of Substances Department

**Certificate of suitability**  
**No. R1-CEP 2004-016-Rev 03**

1 *Name of the substance:*

2 **METAMIZOLE SODIUM MONOHYDRATE**

3 *Name of holder:*

4 **ZHEJIANG HAISEN PHARMACEUTICAL CO., LTD.**

5 Liushi Street

6 Dongyang City

7 China-322 104 Xiangtan Village, Zhejiang Province

8 *Site(s) of production:*

9 **SEE ANNEX 1**

10 **THIS CERTIFICATE SUPERSEDES THE PREVIOUS CERTIFICATE**  
11 **R1-CEP 2004-016-REV 02**

12 After examination of the information provided on the manufacturing method and subsequent  
13 processes (including purification) for this substance on the site(s) of production listed in annex, we  
14 certify that the quality of the substance is suitably controlled by the current version of the  
15 monograph **METAMIZOLE SODIUM MONOHYDRATE** no. 1346 of the European  
16 Pharmacopoeia, current edition including supplements, only if it is supplemented by the test(s)  
17 mentioned below, based on the analytical procedure(s) given in annex.

18 – Test for residual solvents by gas chromatography (Annex 2)  
19 Ethanol not more than 0.5%

20 No elemental impurity classified in ICH Q3D is intentionally introduced in the manufacture of  
21 the substance.

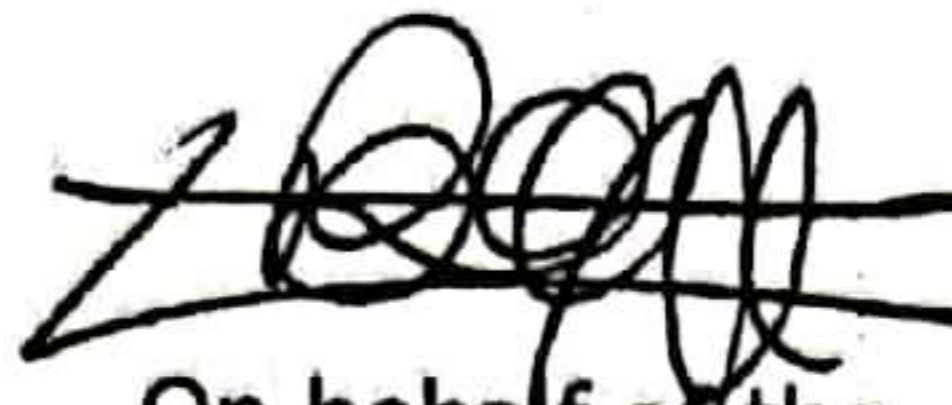

22 The re-test period of the substance is 3 years if stored double polyethylene bags, placed in a  
23 fibre drum.

24 The holder of the certificate has declared the absence of use of material of human or animal  
25 origin in the manufacture of the substance.

26 The submitted dossier must be updated after any significant change that may alter the quality,  
27 safety or efficacy of the substance.

28 Manufacture of the substance shall take place in accordance with the Good Manufacturing Practice  
29 and in accordance with the dossier submitted.

- 30 Failure to comply with these provisions will render this certificate void.
- 31 This certificate is renewed from **29 March 2011** according to the provisions of Resolution AP-CSP  
32 (07) 1, and of Directive 2001/83/EC and Directive 2001/82/EC and any subsequent amendment,  
33 and the related guidelines.
- 34 This certificate has two annexes, the first of 1 page and the second of 2 pages.
- 35 This certificate has:
- 36 lines.

## *Agenzia Italiana del Farmaco*

CERTIFICATE NUMBER: *IT-API/158/H/2021*

# **CERTIFICATE OF GMP COMPLIANCE OF A MANUFACTURER** <sup>1, 2</sup>

### **Part 1**

Issued following an inspection in accordance with

The competent authority of Italy confirms the following:

The manufacturer: **FARMALABOR S.R.L.**

Site address: **Via Pozzillo, zona ind. - II traversa a sinistra, CANOSA DI PUGLIA, 76012, Italy**

Is an active substance manufacturer that has been inspected in accordance with Art. 111(1) of Directive 2001/83/EC.

From the knowledge gained during inspection of this manufacturer, the latest of which was conducted on **2021-08-06**, it is considered that it complies with:

- The principles of GMP for active substances<sup>3</sup> referred to in Article 47 of Directive 2001/83/EC.

This certificate reflects the status of the manufacturing site at the time of the inspection noted above and should not be relied upon to reflect the compliance status if more than three years have elapsed since the date of that inspection. However, this period of validity may be reduced or extended using regulatory risk management principles by an entry in the Restrictions or Clarifying remarks field. Updates to restrictions or clarifying remarks can be identified through the EudraGMDP website (<http://eudragmdp.ema.europa.eu/>). This certificate is valid only when presented with all pages and both Parts 1 and 2.

The authenticity of this certificate may be verified in EudraGMDP. If it does not appear, please contact the issuing authority.

<sup>1</sup>The certificate referred to in paragraph 111(5) of Directive 2001/83/EC and 80(5) of Directive 2001/82/EC, shall also be required for imports coming from third countries into a Member State.

<sup>2</sup>Guidance on the interpretation of this template can be found in the Interpretation of the Union format for GMP certificate.

<sup>3</sup>These requirements fulfil the GMP recommendations of WHO.

<b>3. MANUFACTURING OPERATIONS - ACTIVE SUBSTANCES</b>	
Active Substance:DEXAMETHASONE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance) <i>Special Requirements:</i> 7.Other: Other: Hormones or substances with hormonal activity
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:DEXTROMETHORPHAN HYDROBROMIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:ATENOLOL	

<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:OXYBUTYNIN HYDROCHLORIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:ETHINYLESTRADIOL	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p> <p><i>Special Requirements:</i>  7.Other:  Other: Hormones or substances with hormonal activity</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:FINASTERIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p> <p><i>Special Requirements:</i>  7.Other:  Other: Hormones or substances with hormonal activity</p>
<b>3.6</b>	<b>Quality Control Testing</b>

	3.6.1 Physical / Chemical testing
Active Substance:FUROSEMIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:HYDROCORTISONE BUTYRATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance) <i>Special Requirements:</i> 7.Other: Other: Hormones or substances with hormonal activity
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.2 Microbiological testing excluding sterility testing 3.6.1 Physical / Chemical testing
Active Substance:MINOXIDIL	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:NADOLOL	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)

<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:NIMESULIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:OMEPRAZOLE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:LACTULOSE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:LIDOCAINE HYDROCHLORIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.2 Microbiological testing excluding sterility testing 3.6.1 Physical / Chemical testing

Active Substance: METHADONE HYDROCHLORIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance: RANITIDINE HYDROCHLORIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance: PIROXICAM	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance: URSODEOXYCHOLIC ACID	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance: CICLOSPORIN	
<b>3.5</b>	<b>General Finishing Steps</b>

	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:TICLOPIDINE HYDROCHLORIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:CLIOQUINOL	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:CLOTRIMAZOLE	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:ESTRONE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)

	<p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p> <p><i>Special Requirements:</i></p> <p>7.Other:</p> <p>Other: Hormones or substances with hormonal activity</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:CANNABIDIOL (SYNTHETIC)	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:AMITRIPTYLINE HYDROCHLORIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:SULFADIAZINE SILVER	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:DICLOFENAC SODIUM	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)

	3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:XYLOMETAZOLINE HYDROCHLORIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:HALOPERIDOL	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:BEZAFIBRATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:ECONAZOLE NITRATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>

	3.6.1 Physical / Chemical testing
Active Substance:ESTRADIOL VALERATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p> <p><i>Special Requirements:</i></p> <p>7.Other:</p> <p>Other: Hormones or substances with hormonal activity</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:FLUDROCORTISONE ACETATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p> <p><i>Special Requirements:</i></p> <p>7.Other:</p> <p>Other: Hormones or substances with hormonal activity</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:BACLOFEN	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:IBUPROFEN	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)

	3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:HYDROCHLOROTHIAZIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:HYDROCORTISONE ACETATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance) <i>Special Requirements:</i> 7.Other: Other: Hormones or substances with hormonal activity
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:METOPROLOL TARTRATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:NIMODIPINE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)

	3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:KETOCONAZOLE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:METFORMIN HYDROCHLORIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:PROPAFENONE HYDROCHLORIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:TOPIRAMATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>

	3.6.1 Physical / Chemical testing
Active Substance:SULFADIAZINE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:SULPIRIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:DEANOL BITARTRATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:LEVOTHYROXINE SODIUM	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance) <i>Special Requirements:</i> 7.Other: Other: Hormones or substances with hormonal activity
<b>3.6</b>	<b>Quality Control Testing</b>

	3.6.2 Microbiological testing excluding sterility testing 3.6.1 Physical / Chemical testing
Active Substance:CANNABIS EXTRACT 15% THC	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:BIFONAZOLE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:ERYTHROMYCIN	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:DEHYDROCHOLIC ACID	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing

Active Substance:FLUOXETINE HYDROCHLORIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:NALTREXONE HYDROCHLORIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:LIDOCAINE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:METHYLPREDNISOLONE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance) <i>Special Requirements:</i> 7.Other: Other: Hormones or substances with hormonal activity
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing

Active Substance: PREDNISOLONE	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p> <p><i>Special Requirements:</i></p> <p>7. Other:</p> <p>Other: Hormones or substances with hormonal activity</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance: PROGESTERONE	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p> <p><i>Special Requirements:</i></p> <p>7. Other:</p> <p>Other: Hormones or substances with hormonal activity</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance: PSEUDOEPHEDRINE HYDROCHLORIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance: PIRENZEPINE HYDROCHLORIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material</p>

	which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:THEOPHYLLINE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:TETRACAINE HYDROCHLORIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:CLINDAMYCIN HYDROCHLORIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:PHENYL SALICYLATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing

Active Substance: OXYTETRACYCLINE HYDROCHLORIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance: AMBROXOL HYDROCHLORIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance: BETAMETHASONE DIPROPIONATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance) <i>Special Requirements:</i> 7. Other: Other: Hormones or substances with hormonal activity
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance: ERGOTAMINE TARTRATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing

Active Substance:FLUCONAZOLE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:METOCLOPRAMIDE HYDROCHLORIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:MICONAZOLE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:MICONAZOLE NITRATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:NYSTATIN	
<b>3.5</b>	<b>General Finishing Steps</b>

	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	<p>3.6.2 Microbiological testing excluding sterility testing</p> <p>3.6.1 Physical / Chemical testing</p>
Active Substance:HYDROXYPROGESTERONE CAPROATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p> <p><i>Special Requirements:</i></p> <p>7.Other:</p> <p>Other: Hormones or substances with hormonal activity</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:MEDROXYPROGESTERONE ACETATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p> <p><i>Special Requirements:</i></p> <p>7.Other:</p> <p>Other: Hormones or substances with hormonal activity</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:CETIRIZINE DIHYDROCHLORIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing

Active Substance:QUININE HYDROCHLORIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:PAPAVERINE HYDROCHLORIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:CIMETIDINE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:CYPROTERONE ACETATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance) <i>Special Requirements:</i> 7.Other: Other: Hormones or substances with hormonal activity
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing

Active Substance:CLOBETASOL PROPIONATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p> <p><i>Special Requirements:</i></p> <p>7.Other:</p> <p>Other: Hormones or substances with hormonal activity</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:DIPOTASSIUM CLORAZEPATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:CORTISONE ACETATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p> <p><i>Special Requirements:</i></p> <p>7.Other:</p> <p>Other: Hormones or substances with hormonal activity</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:YOHIMBINE HYDROCHLORIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material</p>

	which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:ALENDRONATE SODIUM TRIHYDRATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:DIPHENHYDRAMINE HYDROCHLORIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:TRIMETHOPRIM	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:GLYCERYL TRINITRATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing

Active Substance: BENZOCAINE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.2 Microbiological testing excluding sterility testing 3.6.1 Physical / Chemical testing
Active Substance: GABAPENTIN	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance: ISOPROPAMIDE IODIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance: PENTOXIFYLLINE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance: FLECAINIDE ACETATE	

<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:FLUTAMIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p> <p><i>Special Requirements:</i></p> <p>7.Other:</p> <p>Other: Hormones or substances with hormonal activity</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:SULFATHIAZOLE	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:LITHIUM CARBONATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:METHYL SALICYLATE	

<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance: PREDNISONONE	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. <b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:DOXYCYCLINE HYCLATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:HEPARIN SODIUM	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:GEMFIBROZIL	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:HYDROCORTISONE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)

	<p><i>Special Requirements:</i>  7.Other:  Other: Hormones or substances with hormonal activity</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:METRONIDAZOLE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:ISOXSUPRINE HYDROCHLORIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:CARBOCISTEINE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:SPIRONOLACTONE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)

	<p><i>Special Requirements:</i>  7.Other:  Other: Hormones or substances with hormonal activity</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:PYRANTEL PAMOATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:TESTOSTERONE PROPIONATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance) <i>Special Requirements:</i> 7.Other: Other: Hormones or substances with hormonal activity
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:CODEINE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:CODEINE PHOSPHATE HEMIHYDRATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for

	identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:AMYLOCAINE HYDROCHLORIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:NIFUROXAZIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:AMINOPHYLLINE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:DIAZEPAM	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)

<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:DIFLUCORTOLONE VALERATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:SODIUM DEHYDROCHOLATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:CHLORAL HYDRATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:ALLOPURINOL	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing

Active Substance: BETAMETHASONE VALERATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p> <p><i>Special Requirements:</i></p> <p>7. Other:</p> <p>Other: Hormones or substances with hormonal activity</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance: BISACODYL	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance: EPHEDRINE HYDROCHLORIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance: ERYTHROMYCIN LACTOBIONATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing

Active Substance:FLUOCINOLONE ACETONIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p> <p><i>Special Requirements:</i></p> <p>7.Other:</p> <p>Other: Hormones or substances with hormonal activity</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:PROGLUMIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:PROMETHAZINE HYDROCHLORIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:CARVEDILOL	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing

Active Substance:SILDENAFIL CITRATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:PILOCARPINE HYDROCHLORIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:TRIAMCINOLONE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance) <i>Special Requirements:</i> 7.Other: Other: Hormones or substances with hormonal activity
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:PRASTERONE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance) <i>Special Requirements:</i> 7.Other:

	Other: Hormones or substances with hormonal activity
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:AMIODARONE HYDROCHLORIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:ESTRADIOL	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance) <i>Special Requirements:</i> 7.Other: Other: Hormones or substances with hormonal activity
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:BUDESONIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:BUPROPION HYDROCHLORIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material

	which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:BUSPIRONE HYDROCHLORIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:ATROPINE SULFATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:PRILOCAINE HYDROCHLORIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:SODIUM CROMOGLICATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing

Active Substance:MINOCYCLINE HYDROCHLORIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:NIFEDIPINE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:ORLISTAT	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:INDOMETACIN	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:KETOPROFEN	
<b>3.5</b>	<b>General Finishing Steps</b>

	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:LANSOPRAZOLE	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:POTASSIUM CANRENOATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p> <p><i>Special Requirements:</i></p> <p>7.Other:</p> <p>Other: Hormones or substances with hormonal activity</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:PIRACETAM	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:ACICLOVIR	
<b>3.5</b>	<b>General Finishing Steps</b>

	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:ACETYLSALICYLIC ACID	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:CALCIUM FOLINATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:CLINDAMYCIN PHOSPHATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:17-ALPHA ESTRADIOL	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)

	3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance) <i>Special Requirements:</i> 7.Other: Other: Hormones or substances with hormonal activity
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance: ICHTHAMMOL	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing

4. Other Activities - Active Substances:

***Importation of: ERYTHROMYCIN, IBUPROFEN, PARACETAMOL, PRILOCAINE HYDROCHLORIDE, TETRACAINE HYDROCHLORIDE, VINPOCETINE***

Clarifying remarks (for public users)

***According to Italian legislation, all the biological active substances (AS) and/or AS deriving from human and animal tissues, organs, fluids are authorized according to art. 40 of Dir. 2001/83/EC. Cannabis extract 15%THC can only be used for magistral preparations in accordance with MD 9/11/2015 concerning the prescription of cannabis for medical use. On a risk-based approach, the validity of the GMP certificate for this manufacturing site is not more than 48 months from the latest general GMP inspection conducted on 2021/08/06, except for AIFA's re-evaluation of the risk profile.***

*Agenzia Italiana del Farmaco*

CERTIFICATE NUMBER: *IT-API/158/H/2021*

**CERTIFICATE OF GMP COMPLIANCE OF A MANUFACTURER** <sup>1, 2</sup>

**Part 1**

Issued following an inspection in accordance with

The competent authority of Italy confirms the following:

The manufacturer: *FARMALABOR S.R.L.*

Site address: *Via Pozzillo, zona ind. - II traversa a sinistra, CANOSA DI PUGLIA, 76012, Italy*

Is an active substance manufacturer that has been inspected in accordance with Art. 111(1) of Directive 2001/83/EC.

From the knowledge gained during inspection of this manufacturer, the latest of which was conducted on **2021-08-06**, it is considered that it complies with:

- The principles of GMP for active substances<sup>3</sup> referred to in Article 47 of Directive 2001/83/EC.

This certificate reflects the status of the manufacturing site at the time of the inspection noted above and should not be relied upon to reflect the compliance status if more than three years have elapsed since the date of that inspection. However, this period of validity may be reduced or extended using regulatory risk management principles by an entry in the Restrictions or Clarifying remarks field. Updates to restrictions or clarifying remarks can be identified through the EudraGMDP website (<http://eudragmdp.ema.europa.eu/>). This certificate is valid only when presented with all pages and both Parts 1 and 2.

The authenticity of this certificate may be verified in EudraGMDP. If it does not appear, please contact the issuing authority.

<sup>1</sup>The certificate referred to in paragraph 111(5) of Directive 2001/83/EC and 80(5) of Directive 2001/82/EC, shall also be required for imports coming from third countries into a Member State.

<sup>2</sup>Guidance on the interpretation of this template can be found in the Interpretation of the Union format for GMP certificate.

<sup>3</sup>These requirements fulfil the GMP recommendations of WHO.

Manufacture of active substance. Names of substances subject to inspection:

	3.6.1 Physical / Chemical testing
Active Substance:NIMODIPINE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)

	3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:KETOCONAZOLE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:METFORMIN HYDROCHLORIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:PROPAFENONE HYDROCHLORIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:TOPIRAMATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>

	3.6.1 Physical / Chemical testing
Active Substance:SULFADIAZINE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:SULPIRIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:DEANOL BITARTRATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:LEVOTHYROXINE SODIUM	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance) <i>Special Requirements:</i> 7.Other: Other: Hormones or substances with hormonal activity
<b>3.6</b>	<b>Quality Control Testing</b>

	3.6.2 Microbiological testing excluding sterility testing 3.6.1 Physical / Chemical testing
Active Substance:CANNABIS EXTRACT 15% THC	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:BIFONAZOLE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:ERYTHROMYCIN	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:DEHYDROCHOLIC ACID	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing

Active Substance:FLUOXETINE HYDROCHLORIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:NALTREXONE HYDROCHLORIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:LIDOCAINE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:METHYLPREDNISOLONE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance) <i>Special Requirements:</i> 7.Other: Other: Hormones or substances with hormonal activity
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing

Active Substance: PREDNISOLONE	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p> <p><i>Special Requirements:</i></p> <p>7. Other:</p> <p>Other: Hormones or substances with hormonal activity</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance: PROGESTERONE	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p> <p><i>Special Requirements:</i></p> <p>7. Other:</p> <p>Other: Hormones or substances with hormonal activity</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance: PSEUDOEPHEDRINE HYDROCHLORIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance: PIRENZEPINE HYDROCHLORIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material</p>

	which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:THEOPHYLLINE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:TETRACAINE HYDROCHLORIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:CLINDAMYCIN HYDROCHLORIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:PHENYL SALICYLATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing

Active Substance: OXYTETRACYCLINE HYDROCHLORIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance: AMBROXOL HYDROCHLORIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance: BETAMETHASONE DIPROPIONATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance) <i>Special Requirements:</i> 7. Other: Other: Hormones or substances with hormonal activity
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance: ERGOTAMINE TARTRATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing

Active Substance:FLUCONAZOLE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:METOCLOPRAMIDE HYDROCHLORIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:MICONAZOLE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:MICONAZOLE NITRATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:NYSTATIN	
<b>3.5</b>	<b>General Finishing Steps</b>

	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	<p>3.6.2 Microbiological testing excluding sterility testing</p> <p>3.6.1 Physical / Chemical testing</p>
Active Substance:HYDROXYPROGESTERONE CAPROATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p> <p><i>Special Requirements:</i></p> <p>7.Other:</p> <p>Other: Hormones or substances with hormonal activity</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:MEDROXYPROGESTERONE ACETATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p> <p><i>Special Requirements:</i></p> <p>7.Other:</p> <p>Other: Hormones or substances with hormonal activity</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:CETIRIZINE DIHYDROCHLORIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing

Active Substance:QUININE HYDROCHLORIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:PAPAVERINE HYDROCHLORIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:CIMETIDINE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:CYPROTERONE ACETATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance) <i>Special Requirements:</i> 7.Other: Other: Hormones or substances with hormonal activity
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing

Active Substance:CLOBETASOL PROPIONATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p> <p><i>Special Requirements:</i></p> <p>7.Other:</p> <p>Other: Hormones or substances with hormonal activity</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:DIPOTASSIUM CLORAZEPATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:CORTISONE ACETATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p> <p><i>Special Requirements:</i></p> <p>7.Other:</p> <p>Other: Hormones or substances with hormonal activity</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:YOHIMBINE HYDROCHLORIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material</p>

	which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:ALENDRONATE SODIUM TRIHYDRATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:DIPHENHYDRAMINE HYDROCHLORIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:TRIMETHOPRIM	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:GLYCERYL TRINITRATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing

Active Substance: BENZOCAINE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.2 Microbiological testing excluding sterility testing 3.6.1 Physical / Chemical testing
Active Substance: GABAPENTIN	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance: ISOPROPAMIDE IODIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance: PENTOXIFYLLINE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance: FLECAINIDE ACETATE	

<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:FLUTAMIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p> <p><i>Special Requirements:</i></p> <p>7.Other:</p> <p>Other: Hormones or substances with hormonal activity</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:SULFATHIAZOLE	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:LITHIUM CARBONATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:METHYL SALICYLATE	

<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance: PREDNISONONE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance) <i>Special Requirements:</i> 7. Other: Other: Hormones or substances with hormonal activity
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance: PROCAINE HYDROCHLORIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance: PROPRANOLOL HYDROCHLORIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance: SALBUTAMOL SULFATE	

<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:SELEGILINE HYDROCHLORIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:PARACETAMOL	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:QUININE SULFATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:TRIAMCINOLONE ACETONIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for

	<p>identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p> <p><i>Special Requirements:</i></p> <p>7.Other:</p> <p>Other: Hormones or substances with hormonal activity</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:VINPOCETINE	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:HYDROXYZINE DIHYDROCHLORIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:METHOXSALEN	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:DITHRANOL	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for

	identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:DOXYCYCLINE HYCLATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:HEPARIN SODIUM	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:GEMFIBROZIL	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:HYDROCORTISONE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)

	<p><i>Special Requirements:</i>  7.Other:  Other: Hormones or substances with hormonal activity</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:METRONIDAZOLE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:ISOXSUPRINE HYDROCHLORIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:CARBOCISTEINE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:SPIRONOLACTONE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)

	<p><i>Special Requirements:</i>  7.Other:  Other: Hormones or substances with hormonal activity</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:PYRANTEL PAMOATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:TESTOSTERONE PROPIONATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance) <i>Special Requirements:</i> 7.Other: Other: Hormones or substances with hormonal activity
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:CODEINE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:CODEINE PHOSPHATE HEMIHYDRATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for

	identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:AMYLOCAINE HYDROCHLORIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:NIFUROXAZIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:AMINOPHYLLINE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:DIAZEPAM	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)

<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:DIFLUCORTOLONE VALERATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:SODIUM DEHYDROCHOLATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:CHLORAL HYDRATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance:ALLOPURINOL	
<b>3.5</b>	<b>General Finishing Steps</b>
	3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance) 3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing

Active Substance: BETAMETHASONE VALERATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p> <p><i>Special Requirements:</i></p> <p>7. Other:</p> <p>Other: Hormones or substances with hormonal activity</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance: BISACODYL	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance: EPHEDRINE HYDROCHLORIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing
Active Substance: ERYTHROMYCIN LACTOBIONATE	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p>
<b>3.6</b>	<b>Quality Control Testing</b>
	3.6.1 Physical / Chemical testing

Active Substance:FLUOCINOLONE ACETONIDE	
<b>3.5</b>	<b>General Finishing Steps</b>
	<p>3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering) of the active substance)</p> <p>3.5.2 Primary Packaging (enclosing / sealing the active substance within a packaging material which is in direct contact with the substance)</p> <p><i>Special Requirements:</i></p> <p>7.Other:</p> <p>Other: Hormones or substances with hormonal activity</p>
<b>3.6</b>	<b>Quality Control Testing</b>

4. Other Activities - Active Substances:

***Importation of: ERYTHROMYCIN, IBUPROFEN, PARACETAMOL, PRILOCAINE HYDROCHLORIDE, TETRACAINE HYDROCHLORIDE, VINPOCETINE***

Clarifying remarks (for public users)

***According to Italian legislation, all the biological active substances (AS) and/or AS deriving from human and animal tissues, organs, fluids are authorized according to art. 40 of Dir. 2001/83/EC. Cannabis extract 15% THC can only be used for magistral preparations in accordance with MD 9/11/2015 concerning the prescription of cannabis for medical use. On a risk-based approach, the validity of the GMP certificate for this manufacturing site is not more than 48 months from the latest general GMP inspection conducted on 2021/08/06, except for AIFA's re-evaluation of the risk profile.***

## **Restrizioni e/o Chiarimenti:**

Secondo la normativa italiana, le sostanze attive (SA) biologiche e/o derivanti da tessuti, organi, liquidi umani e animali sono autorizzate in accordo all'art. 40 della dir. 2001/83/CE. In base alla valutazione del rischio la validità del certificato GMP per questa officina è al massimo di 48 mesi dall'ultima ispezione di revisione generale del 06/08/2021, salvo rivalutazione del profilo di rischio.

  - Gewinnung von Natriumchlorid nach dem Siedesalzverfahren aus dem vor Ort geförderten Steinsalz
- 3.5 Abschließende Bearbeitungsschritte
  - 3.5.1 Physikalische Bearbeitungsschritte Trocknung und Siebung
  - 3.5.2 Primärverpacken (Abfüllen / Verschließen des Wirkstoffs in ein Verpackungsmaterial, das in direktem Kontakt mit dem Stoff steht)
  - 7 Andere
    - Abfüllen und Papiersäcke mit PE-Innenbeutel oder Big-Bags
  - 3.5.3 Sekundärverpacken (Verpacken des geschlossenen Primärbehältnisses in eine äußere Umhüllung oder Behältnis. Dieser Schritt beinhaltet auch jegliche Kennzeichnung des Materials, die der Identifizierung oder Rückverfolgbarkeit (Chargenbezeichnung) des Wirkstoffes dient)
  - 7 Andere
    - Kennzeichnung
- 3.6 Qualitätskontrolle
  - 3.6.1 Physikalische / chemische Prüfung

## Part 2

### • Substances

Manufacture of active substance. Names of substances subject to inspection:

**Sodium chloride as active ingredient, trade name:  
"APISAL Sodium Chloride GMP grade"**

- 3.2 Extraction of Active Substance from Natural Sources
  - 3.2.4 Extraction of substance from mineral source
- 7 Others
  - Extraction of sodium chloride from evaporated salt that is derived from rock salt extracted on site
- 3.5 General Finishing Steps
  - 3.5.1 Physical processing steps drying and sieving
  - 3.5.2 Primary Packaging (enclosing, sealing the active substance within a packing material which is in direct contact with the substance)
  - 7 Others
    - in paper bags with pe liner or in big bags
  - 3.5.3 Secondary Packaging (placing the sealed primary package within an outer packaging material or container. This also includes any labelling of the material which could be used for identification or traceability (lot numbering of the active substance))
  - 7 Others
    - labelling
- 3.6 Quality control testing
  - 3.6.1 Physical / Chemical testing

Certificate DE12/81839578

The management system of

# H&R International GmbH

Am Sandtorkai 64, DE 20457 Hamburg

has been assessed and certified as meeting the requirements of  
**ISO 9001:2015**

For the following activities

**The Scope of Registration appears on page 2 of this certificate**

This certificate is valid from 12 May 2025 until 13 July 2027 and remains valid subject to satisfactory surveillance audits. Multiple certificates have been issued for this scope, the main certificate is numbered DE12/81839578 Issue 11. Organization certified since 08 August 2012 and first certified by SGS under SAS since 18 January 2024. Certified activities performed by additional sites are listed on subsequent pages.
