

SmartPlan s.r.o.

is an independent company with the main goal to implement the principle of Smart City. We see a long-term sustainable development as the core of city planning.

Smart City is a new complex attitude toward solving current challenges and threats in heavily populated areas of agglomerations. **We help create Smart Cities.**

OUR SERVICES

We offer a complete service to municipalities, institutions and other subjects: IMPF (Idea, Management, People, Financing). We apply newly attained knowledge and current key trends.

We are able to help you hone your Ideas and other future plans. **(Idea)**

We have experience in managing these projects and know how to help cities with these matters or educate them. **(Management)**

We ensure a proper expertise in all vital areas. **(People)**

We can identify and procure finances for projects, no matter the extent. **(Financing)**
