

Simplify and Save Time

Adaptive Training

Understand and measure people's access, attitudes & behaviors

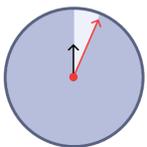

Adaptive Security

Reduce cyberattacks and real security incidents

"It's enlightening and really easy to use! OutThink makes it so much easier to be able to understand and mitigate people-related risk in cybersecurity."

⤵ ☀ Time saved by using OutThink

8,000 users

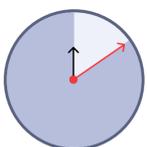

Chris Giddings
CISO, **Murphy Group**

"OutThink provides a balanced approach of customization without overwhelming us. Out of 10 platforms, OutThink was the best fit for us."

Easy Custom Content

- Best-in-class content and fast customization
- Insert your own content, policies, contact details, and branding
- Segment users based on role and other criteria
- Available in 25+ languages

200,000 users

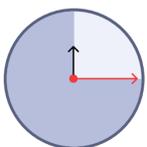

Benoit Herment
CISO, **VINCI Group**

"With OutThink, we've done in weeks what we couldn't do in months with our old solution!"

Simple Setup and Campaign Deployment

- Automation, ease of use, integration to AD, Graph, SSO
- Nudges, snippets, targeted training for riskiest people
- Effortlessly train everyone, everywhere (contractors, non-IT workers)
- Use LMS, desktop, mobile, email, Teams or Slack

4,000 users

Joanna Audley
IT Lead, **Shaw Trust**

"Our phishing dwell time went down by 50% in the first 18 months of using OutThink."

Enhanced Attack Identification

- Markedly increased phishing resilience (e.g., 5x increase in reporting at Murphy Group)
- Shorter dwell time, less havoc from phishing attacks
- Fewer false positives in the SOC

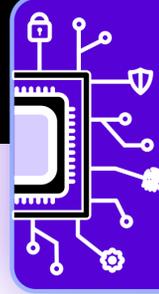

Adaptive Training

Understand and measure people's access, attitudes & behaviors

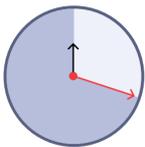

Adaptive Security

Reduce cyberattacks and real security incidents

“OutThink is probably the best cybersecurity product out there in the market. The platform provides more than just security awareness. It gives me the intelligence I need to engage with the business and build sustainable security.”

Adaptive Controls Based On Human Risk

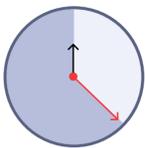

- Immediate identification of high-risk users
- Less time dealing with privileged access reviews
- Remediate high-risk users for everyone's safety

10,000 users

Head of Security Operations
Global Mining Conglomerate

“We implemented a policy where access to some systems is revoked if an employee's Human Risk Score goes below our threshold.”

Real-Time Insight Into User Needs

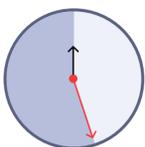

- LLM summarizes actionable feedback from thousands of users
- Exposes security issues like the absence of access to secure wifi (Shaw), people using USBs (AGA), questions about best way to safeguard data
- Uncover root causes of control friction

200,000 users

Benoit Herment
CISO, VINCI Group

“OutThink analyzed comments from 180,000 of our users to provide me with unprecedented visibility.”

Streamlined Reports And Visualization

- Data-rich platform optimized for visualization tools such as Tableau, Looker Studio and PowerBI
- APIs facilitate custom reporting on a wealth of data
- Easy to build meaningful reports

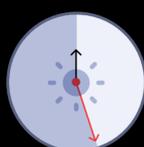

20,000 users

Michaela Hozmache
Awareness Lead, Danske Bank

“OutThink provides valuable metrics that allow me to take proactive measures rather than simply acknowledging the problem's existence.”

Significant time saved in your day

Peace of mind at night!
