A guide to our ports and caps

For added safety all Intersurgical port caps are fixed to the connectors, to prevent loss or misplacement in use.

Luer ports
For secure attachment of gas sampling lines with luer lock fittings
7.6 mm port and flip top cap
For insertion of all standard 7.6 mm probes or for suctioning

Double flip top cap with seal
Bronchoscopy and suction ports in one patient connection

First tab open – bronchoscope mode with seal

Second full cap open – suction mode
Flexible catheter mounts

A range of flexible catheter mounts available with a variety of elbow connections and ports for all applications. For added safety all Intersurgical port caps are tethered to the connectors, to prevent loss or misplacement in use.

|	
Code	3505000 (S*)
Box Qty.	50 (85*)
Compressible Volume	48 ml

Ⓢ Sterile option available

(S*) Add an S to the seven digit code number for the sterile version of this product eg. 3501000S (sterile box quantity is shown in brackets).

Superset™ catheter mounts

Superset catheter mounts have a concertina design to allow for complete positioning control. The design allows the adjustment of compressible volume and the adjustment of length from 70 mm to 150 mm, excluding connectors. The range is available with fixed and double swivel elbows and a variety of ports for all applications. For added safety all Intersurgical port caps are fixed to the connectors, to prevent loss or misplacement in use.

Box Qty.	75 (40*)
Compressible Volume	26-50 ml

Paediatric/neonatal
Code	3535000
Box Qty.	15
Compressible Volume	13-16 ml

Neonatal
| Code	3534000
Box Qty.	25
Compressible Volume	10-13 ml

Ⓢ Sterile option available

(S*) Add an S to the seven digit code number for the sterile version of this product eg. 3504000S (sterile box quantity is shown in brackets).

Smoothbore catheter mounts

A range of Smoothbore catheter mounts providing good flow characteristics, lower tubing compliance and clear, crush-resistant tubing. Available in a variety of lengths with double swivel elbows and double flip top caps. For added safety all Intersurgical port caps are fixed to the connectors, to prevent loss or misplacement in use.
