# **ELISA Reagents**

# **Infectious Diseases**

ELISA infectious serology constitutes an indispensable and yet reliable method for accurate and individual diagnosis as well as prognosis. HUMAN provides a broad range of high quality state-of-the-art assays for the diagnosis of infections caused by viral, bacterial and parasitic agents. Our offer includes assays for:

- STDs (Sexually Transmitted Diseases) a group of diseases that
  is among the five most important types of diseases affecting
  adults seeking health care in developing countries.
   Parameters include: HIV, hepatitis, syphilis.
- TORCH a group of pathogens causing prenatal infections with potentially serious consequences for the unborn: *Toxoplasma*, rubella, cytomegalovirus, herpes simplex.
- Other infections:
   Epstein-Barr virus, varicella-zoster virus, measles, mumps, etc.
- Regional or endemic diseases with mild or symptomless courses, but serious consequences in the chronic phase: dengue.

# **Tumor Markers**

Tumor markers are an integral part of modern cancer management. They are primarily used for monitoring and additionally for diagnostic and prognostic purposes, in combination with other clinical and paraclinical parameters.

# **Thyroid**

Assays of a thyroid panel can help diagnose and monitor the treatment of thyroid disorders. HUMAN ELISA Thyroid is one of the broadest thyroid testing panels available on the market, including autoantibodies to thyroglobulin (TG), thyroid peroxidase (TPO) and TSH receptor (TRAb).

# **Fertility Hormones**

HUMAN's panel of fertillity parameters includes all relevant assays to detect ovulation and/or to diagnose infertility, including assays for steroid hormones/prohormones and reproductive hormones of the pituitary.

# Metabolism and Bone Marker

HUMAN's quantitative ELISA assays for cortisol and 25-OH Vitamin D to help diagnose general metabolic disorders and bone disease, respectively.

# Allergy

ELISA for the detection of total IgE as an aid in the diagnosis of allergies.

# **ELISA Reagents for Autoimmune Diseases**

HUMAN, with its autoimmune brand IMTEC, is one of the leading experts and providers of autoimmune in vitro diagnostics. Further information can be found in our separate Autoimmune DX product catalog.

# Workstation

With the Combiwash, HUMAN offers a unique workstation for washing, shaking and incubation of microtiter plates. Flexible washing protocols can be programmed; programs for shaking and incubation are also freely definable.

Page 79

HumaReader Single plus

# Readers

A single strip and a high-speed plate reader designed for low throughput ELISA users. Both instruments are easy to use and provide reliable and fast results.

Page 80

Elisys Duo

# **Elisys Automated Analyzers**

HUMAN's automated ELISA analyzers cover the requirements of small to large ELISA laboratories. Full automation is available for 1, 2 or 4 plates with different test combinations on each plate. Sample barcode reading for secure and automatic sample identification is standard on the larger instruments. Most HUMAN ELISA tests are preprogrammed and additional applications can be added at any time.

# Workstation

With Combiwash, HUMAN offers a unique workstation for the washing, shaking and incubation of microtiter plates. Flexible washing protocols can be programmed; shaking and incubation are also freely definable.

REF

18460

# **COMBIWASH**

Automatic microtiter plate washer, shaker and incubator

- · Up to 100 wash protocols
- 4 different wash bottles
- · 2 incubator positions for 25°C / 30°C or 37°C
- · Plate shaking ability

#### Accessories

| REF      | Description        |
|----------|--------------------|
| 18460/5  | 12-pin manifold    |
| 18460/26 | 110 VA transformer |

Combiwash

# Readers

Single strip and high speed plate reader are designed for low throughput ELISA users. Both instruments are easy to use and provide reliable and fast results.

#### Accessories

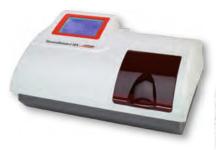

| REF      | Description                    |
|----------|--------------------------------|
| 18001    | 3 x 12 well boat               |
| 16801/20 | Thermal printer paper (10 pcs) |

# **HumaReader Single plus**

# Microtiter strip reader

- Most HUMAN assays preprogrammed (plug & run) and user programmable tests
- · Color touchscreen
- · Very short start-up time
- · Convenient automatic strip transport (up to 3 strips)
- · Curve and cut-off calculation
- · Built-in printer and incubator
- · Photometer with automatic filter wheel
- · 4 filter wheel: 405, 450, 492, 630 nm installed

KLI

16670

# **HumaReader HS**

#### Microtiter plate reader

- Most HUMAN assays preprogrammed (plug & run) and user programmable tests
- · 8-channel, high-speed reading of full plate in 5 sec
- · Memory for 200 tests and 10,000 results
- · Touchscreen, Windows® software
- · 8 filter wheel: 405, 450, 492, 630 nm installed

# **Elisys Automated Analyzers**

HUMAN's automated ELISA analyzers cover the requirements of small to large laboratories. Full automation is available for 1, 2 or 4 plates with different test combinations on each plate. Sample barcode reading for secure, automatic sample identification is standard on the larger instruments. All HUMAN ELISA tests are preprogrammed and validated. Additional applications can be added at any time.

#### Consumables

| REF        | Description                    |
|------------|--------------------------------|
| 17350/B7   | Reagent bottle 7 ml (100 pcs)  |

| 17350/B25  | Reagent bottle 25 ml (70 pcs)  |
| 17350/14   | Reagent bottle 30 ml (12 pcs)  |
| 17350/B100 | Reagent bottle 100 ml (10 pcs) |
| 17350/16   | Sample vials 2 ml (500 pcs)    |
| 17350/15   | Sample vial caps (500 pcs)     |

REF

17350

# **Elisys Uno**

# 1-plate fully automated ELISA analyzer incl. UPS

- · Fully automatic processing of one microtiter plate
- · Up to 8 parameters simultaneously on one plate
- · Time management system
- Most HUMAN assays preprogrammed (plug & run) and user programmable tests
- · 8 filter wheel: 405, 450, 492, 630 nm installed
- · Robust steel needle with liquid level detection
