Bactericidal recirculator Bactosfera ORBB 15x2 Vertical is a closed type device designed for safe quartzization (disinfection) of air in rooms in the presence of people. Supplied with 2 fans and 2 bactericidal ozone-free lamps. Fastening: on wall and/or floor (supplied with feet stand)

Kills (inactivates) viruses, bacteria, mold, fungi, yeast, spores, allergens and other infectious microorganisms, including influenza viruses of all types (influenza types A, B, C), viruses that cause SARS and SARS, the SARS-CoV-2 (2019-nCoV) virus that causes the disease COVID-19, the Omicron strain of the coronavirus. The absorbed dose of ultraviolet radiation by DNA and RNA molecules of microbes leads to their instant death.

Electronic security&switch on system for a stable functioning

Usage:

Household for home, For children's room, For kindergarten and school, For medicine (hospitals, polyclinics), For office, For dentistry and cosmetology, For hair salon, For dining room (restaurant, cafe), For shop, For factory

Area of the premises	Up to 30 m ²
Bactericidal lamp	2 pcs of 15 W
Effective lamp resource	9,000 hours
UV power 254 nm	9.6 W
Disinfection of 1 m ³ of air	4 min
Air throughput	200 m ³ /h
Fastening	Vertical/Horizontal
Dust filters	2 pcs
Body material	Metal with white anti-corrosion polymer coated
Noise level	32 Db
Wire	3 m
Peak UVC radiation	254 nm
Consumer power	50 W
Nutrition	220 V 50 Hz with on/off switch
Dimensions	125x125x570 mm
Weight	2.5 kg
