INSTRUCTIONS FOR USE

Instructions :

- ⇒ Write the opening date on the bottle before first use
- ⇒ Shake the bottle before each use
- ⇒ Screw the bottle on the appliance NOCOSPRAY® or NOCOMAX®
- ⇒ Set the machine on the volume of the room to be treated
- ⇒ 2 hours after the end of the diffusion, ventilate the room (opening the windows) during 10 minutes
- ⇒ After the treatment, remove the bottle from the appliance and close it

The treatment has to be renewed every 4 weeks.

If the space to be treated includes a bed :

Before the treatment, remove the mattress off the bed and place it on the edge.

NOTE: During the diffusion, let the room closed and do not enter in. Treatment should be conducted with no human presence.

If the product application is done manually with the spray, use adapted protections (cf. product MSDS - §8)
