<b>1800</b>	38	105	107
Conformity Evaluation	Internal control of production		

## TRAILED DRUM SCREENER

The machine is designed for refining of compost material / manure in zootechnical farms / composting plants / recycling factories

Its function is to refine and separate material in different fractions of different size.

The machine is mainly composed of 2 parts:

- **SCREENING DRUM** which refines the material
- **TRAILED UNIT**, frame, wheels and those parts suitable to ensure movement and transfer.
