COMPANY INTRODUCTION

Anhui MedPurest Medical Technology Co., Ltd was established in 2003, which is located in Anqing City. The company is committed to the development research and production sales of high-value medical dressing bags and non-woven products. It belongs to the national high-tech enterprises.

With more than 10 years of development, MedPurest has always kept positive attitude and striven to be best through its own strong scientific research infrastructure and up-to-date scientific thought, which made it one of top suppliers all over the world.

Company regards product quality as life, the company has got certificates like ISO 9001:2008, ISO 14001:2004, ISO 13485:2003, CE, Medical equipment production license; FDA , the WCA inspection for human rights, TUV testing, passed the certification of EU standard EN13795:2011+A1:2013, its products meet the requirements of being fracture-resistant; It also accords with the criterion of ASTM F11342-2005, thus the products can be penetration-resistant; In addition, the products passed BV test and conformed to the USA terms of 16CFR.1610/16CFR1611, thus they are ensured to be flame-retardant. The products also complied with the following standards as ISO 10993-5:2009, ISO 10993-10:2010. Because of such high-quality product requirements, the company has reached a cooperation agreement with world famous brands, and its products are not only sold to such countries and regions as Europe, America, Asia Pacific, Australia, Africa and so forth, but also in China. Our company has established good relationship with clients.

In recent years the company focuses on technological innovation, introducing international advanced production equipment and technology. The company innovates technology and develop new products constantly, which has made remarkable achievements. Until now the company has possessed 45 patented technology, 10 "National High-tech Products", 3 "National Key New Products". The company has long-term cooperation with top-ranking institute of higher education and scientific research organization at home and abroad in the field of production, learning, research, which is aimed to implement the development of a series of high-end new products and accelerate the formation and transformation of achievement in scientific research. Now the company has R & D center, production base and the national marketing center. Production base covers an area of more than 14,000 square meters, built 100,000 and 300,000 clean workshop.

Our consistent target is to pursue constant progress. In future, MedPurest will not only focus on producing better products but also be committed to the realization of its own social value, regarding the research and development of environment-friendly products as further aim.
