

Reviewing images

Images stored on the system hard disk can be played back, or saved to USB-connected media or DVDs. Images that have been saved to a USB or DVD can be played back as well as saved to other media.

- 5.1 Playback image display
- 5.2 Searching for an image using the find screen
- 5.3 Copying images and documents to the system hard disk
- 5.4 Selecting Images
- 5.5 Changing the Layout of Images
- 5.6 Deleting images
- 5.7 Copying Images
- 5.8 Outputting images
- 5.9 Checking free space
