Re. Advanced International Training Program on Efficient Energy Use and Planning

Dear Mr. Berzoi Simion,

Congratulations on having fulfilled the advanced international training program on Efficient Energy Use and Planning (EE 2013C) at LIFE Academy. It has been a great pleasure to get to know you and we look forward to continued contact during the years to come. Enclosed please find your diploma.

You are already a LIFE Member of our Alumni Network, with over 1000 Change Agents. As a LIFE Member you have access to the LIFE Alumni part of our homepage (www.life.se/alumni). This is a place where you can find information about, and get in contact with, other LIFE Members. Hopefully you will recognize some people from your own program group, your own country, or from any other place in the world. Please also visit the other parts of our homepage and make use of the available content. If you have lost your login details, send an email to (LIFEAlumni@life.se).

Remember that you can still enter our internet platform (www.itslearning.com) and use it for finding and sharing information and for communication with your friends in the EE 2013C group.

We also hope that you agree to have the summary of your Change Project published on our homepage. If not, please let us know. It is a way of displaying some of the results of the training program as well as a possibility for you to “market” yourself and your work as a good and important Change Agent.

Looking forward to stay in contact with you and follow your progress and future work.

Best regards,
LIFE Academy

Lars Hallén
Chairman
