

Evolution

VINYL

CERTIFICATION AND CLASSIFICATION		Evolution	
Type of flooring	EN 653	Resilient Residential PVC floor covering	
CE certification		yes	
Classification	ISO 10874 	Residential: 22	
TECHNICAL CHARACTERISTICS		STANDARD	
Extreme protection PUR reinforcement		yes	
Total thickness	ISO 24346		2,70 mm
Wear layer thickness	ISO 24340		0,20 mm
Total weight	ISO 23997		1,75 kg/m ²
Wear layer binder content	ISO 11638	Type 1	
TECHNICAL PERFORMANCES		STANDARD	
Residual indentation	ISO 24343-1		≤ 0,35 mm
Reaction to fire	ISO 13501-1		Cfl - s1
Dimensional stability	ISO 23999		≤ 0,1 %
Furniture leg	EN 424	Very good	
Castor wheel test	ISO 4918		Very good
Curl resultant to heat	ISO 23999	≤ 3,0 mm	
Electrical resistance	EN 1081	NPD	
Hygiene		Does not contribute to infection spreading	
Thermal resistance	DIN 52612	0,03-0,04 m ² K/W	
Underfloor heating	EN 12524		Suitable provided that the surface of the subfloor does not exceed 27°C
Light fastness	ISO 105 B02 Method 3		7/8
Impact sound reduction	ISO 717/2		18 dB
Form of delivery - Rolls	ISO 24341		2,5/3/3,5/4 m x 33 lm (15-33 lm)

Evolution of quality, style and design

Stylish and easy to live with, Tarkett offers the perfect recipe for residential areas: Evolution collection, which combines excellent designs and best technical solutions.

The collection possesses increased thickness, additional surface reinforcement „EXTREME PROTECTION“ and additional lower compact layer.

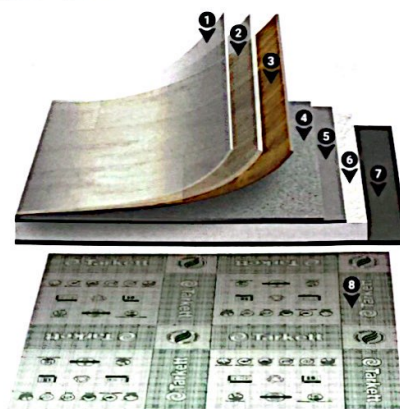

Additional reinforcement „EXTREME PROTECTION“ prevents dirt penetration into lower layers of product and significantly eases cleaning and maintenance. The composition of this treatment makes wear layer extremely durable and warrants not less than 15 years of usage.

„Mineral touch effect“ ideally renders real structure of natural materials due to innovative technology.

In this collection, you can choose between matte and Evolution Glanz designs with high gloss finish.

Tarkett vinyl is phthalate free. We selected phthalate-free plasticizers approved for food contact containers, which can also be used for toys intended to be placed in the mouth by children.

Collection is certified with Vitality leaf, issued by Ecounion, based in St Petersburg, Russia. It is an international non-obligatory ecological certification, that evaluates whole production life cycle: from purchasing raw materials to waste management.

1. EXTREME PROTECTION

Additional protective layer on floor covering, which keeps dirt away from lower layers of the product, at the same time making cleaning and maintenance of the floor easier. Now available in all collections.

2. WEAR LAYER

Protects the design and improves durability.

3. PRINTED DESIGN

Offers a large choice of colours and patterns.

4. FOAM REINFORCEMENT INNER LAYER

The basis for printed patterns laying. The quality, clearness and brightness of vinyl pattern depend on the quality, evenness and whiteness of this layer.

5. COMPACT COATING REINFORCED WITH GLASS FIBER

Prevents the flooring from expanding or contracting for an increased dimensional stability.

6. FOAM LAYER

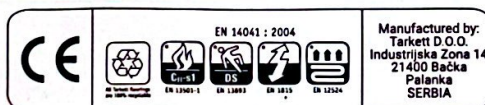

Adds warmth and underfoot comfort. Gives outstanding sound insulation.

7. BACK COMPACT

Gives additional indentation protection. Helps the product lay flat, even if it is not fully glued.

8. BACK PRINT

Helps to choose the right product (pictograms of the key characteristics), and to cut the vinyl sheet in right dimensions.
