**To Whom It May Concern**

This letter is to confirm that a BKC-TL5M centrifuge fulfills the following requirements:

- have automatic lid lock system: lid is locked and protected against opening while in operation;
- has visual and acoustic warnings (unbalance, start/stop, open lid);
- has unbalance detection function;
- has buttons for controlling on/off and lid opening;
- has digital display;
- has a port in the lid for operation checking;
