

Quality Statement

Erler-Zimmer is one of the world leaders in anatomical model, medical simulators and anatomical charts. Our company manufactures finest quality products since more than 60 years and feels very much obliged to principles of traditional German companies. We as a family business personally take care about our quality. Our products are manufactured to the highest quality standards, equal to or higher than ISO and other international standards. All our products are inspected and tested before leaving the production plant. Quality control during production and before shipment guarantees 100% inspection of all products made by us. Only highest quality raw materials are used for production of Erler-Zimmer products and all suppliers of raw materials are ISO certified. All plastic materials and colors are free of dangerous components. Electrical parts used in Erler-Zimmer products do comply with all CE and other international safety standards. We offer a three year warranty for all products purchased from us.
