

## UNIVERSAL TIPS

Tips made of medical high purity polypropylene, cadmium and heavy metal free. The lengthened shape allows an optimized use and lower liquid retention. Manufactured with particular precision, that ensures a perfect seal with the compatibles micropipettes and an optimal directionality of liquids in the emptying process. Highly transparent and with an excellent degree of waterproofness. Autoclavable, latex-free Device. Available with different packaging: - Not sterile in bags of 1,000 pieces - Sterile in bags of 5 pieces or individually wrapped - Sterile or not sterile in autoclavable rack with lid of 96 pieces. Compatibility: Gilson® Pipetman P20, P100, P200, Eppendorf® Research®, Biohit® Proline®, Socorex® Acura, HTL® Discovery®, Nichiryo®, Thermo Scientific™ Finnpiquette™, Elkay®, Jencons®, DSG®, Genex® and similar. Length: 51.20 mm.
