To whom it may concern

At the request of the company Aelo Grup SRL,

as manufacturer of the product, EiE confirms that the devices

Solatronic SL-3:

1. Includes internal treatment protocol library for lasers: 156 protocols.
2. Allows saving (customizable work protocols) up to 200 user own programs.
3. Red laser probe S-2N has parameters of 40mW / 660nm.
4. Infrared laser probe S-3N has parameters of 400mW / 808nm.

Lasertronic LT-3 plus laser scanner SK-1:

5. Includes internal treatment protocol library for lasers: 156 protocols.
6. Allows saving (customizable work protocols) up to 200 user own programs.
7. Red laser probe S-2N has parameters of 40mW / 660nm.
8. Infrared laser probe S-3N has parameters of 400mW / 808nm.
9. Red and infrared laser scanner has parameters of 80mW / 660nm (red) plus 400mW / 808nm (infrared).

Otwock, 2026.05.04
