

Linear And Round Stand For Pipettes

Linear stand to hold up to 6 pipettors

Each stand can accommodate 6 single-channel pipettes or multi-channel pipette. The stand is light in weight, easy to organize and store. Also, it can be assembled conveniently. The non-slip and anti-shock pad is available on the bottom of the stand for pipette.

Convenience: It is safe and clean to place the pipette on the stand after use, and it is very convenient to use the pipette for next time

The pipette stand keeps the work area in the lab clean and orderly. Avoid contamination of pipettes
