

## Technical sheet

|                            |                                                            |
|----------------------------|------------------------------------------------------------|
| Product Name               | Battery 9,6V 1,7Ah for ECG Cardimax FX7202 FUKUDA - DENSHI |
| Reference                  | FX7202                                                     |
| Manufacturer of the device | FUKUDA - DENSHI                                            |
| Model                      | Exalium Premium                                            |
| Accumulators               | Saft                                                       |
| Technology                 | Ni-mh                                                      |
| Voltage                    | 9.60 V                                                     |
| Capacitance                | 1.70 A/h                                                   |
| Length                     | 100 mm                                                     |
| Width                      | 28 mm                                                      |
| Height                     | 28 mm                                                      |
| Weight                     | 0.208 kg                                                   |
