

LOGIQ Fortis™ Demo Disc Guide

EXAM	IMAGE DESCRIPTION	IMAGE
Abdomen	C1-6-D B-Mode liver nodule image with Advanced SRI CINE	 A B-mode ultrasound image of a liver nodule. The image shows a dark, hypoechoic area within the liver parenchyma. The text "LOGIQ" is visible in the top left corner of the image area.
Abdomen	C1-6-D B-Mode with Advanced SRI image of the liver using CTO	 A B-mode ultrasound image of the liver. The image shows a dark, hypoechoic area within the liver parenchyma. The text "LOGIQ" is visible in the top left corner of the image area, and "DEMO" is visible in the bottom left corner.
Abdomen	C3-10-D B-Mode with Advanced SRI image of the left kidney	 A B-mode ultrasound image of the left kidney. The image shows a dark, hypoechoic area within the kidney parenchyma. The text "L1 Kidney Long" is visible in the top left corner of the image area, and "DEMO" is visible in the bottom left corner.
Abdomen	L2-9-D B-Mode with Advanced SRI CINE image of bowel	 A B-mode ultrasound image of the bowel. The image shows a dark, hypoechoic area within the bowel lumen. The text "Image65" is visible in the bottom left corner of the image area, and "DEMO" is visible in the bottom right corner.

LOGIQ Fortis, cSound and Radiantflow are registered Trademarks of the General Electric Company. The LOGIQ Fortis is designed for compatibility with most commercially available Ultrasound contrast agents. Availability of these agents is subject to government regulation and approval. Contrast imaging should be performed within the approved indications for use of the contrast.

Pediatric	Neonatal Brain B-Mode using CTO and Advanced SRI C3-10-D	
Pediatric	Neonatal Brain B-Flow using Advanced SRI CINE C2-9-D	
Pediatric	Pediatric appendix B-Mode using Advanced SRI and Virtual Convex L2-9-D	
Pediatric	Pediatric appendix B-Mode using Advanced SRI and Virtual Convex L2-9-D	

LOGIQ Fortis, cSound and Radiantflow are registered Trademarks of the General Electric Company. The LOGIQ Fortis is designed for compatibility with most commercially available Ultrasound contrast agents. Availability of these agents is subject to government regulation and approval. Contrast imaging should be performed within the approved indications for use of the contrast.

LOGIQ Fortis™ Demo Disc Guide

Cardiac	Parasternal Long Axis Color Flow in Mitral Valve CINE M5Sc-D	 A color Doppler ultrasound image showing the parasternal long axis view of the mitral valve. The image displays blood flow in color (red and blue) against a grayscale background. The mitral valve is visible as a dark structure. The image is labeled 'Image86' and 'LOGIQ'.
Cardiac	Parasternal Long Axis Color Flow in Mitral Valve Zoom CINE M5Sc-D	 A zoomed-in color Doppler ultrasound image of the parasternal long axis view of the mitral valve. The image shows detailed blood flow patterns. The image is labeled 'Image87' and 'LOGIQ'.
Cardiac	Parasternal Long Axis B-Mode with Advanced SRI CINE M5Sc-D	 A B-mode ultrasound image showing the parasternal long axis view of the mitral valve. The image displays the structural details of the valve and surrounding tissues. The image is labeled 'Image57' and 'LOGIQ'.
Cardiac	Parasternal Long Axis B-Mode with Advanced SRI and CTO CINE M5Sc-D	 A B-mode ultrasound image showing the parasternal long axis view of the mitral valve with advanced SRI and CTO. The image shows enhanced contrast and structural details. The image is labeled 'Image37' and 'LOGIQ'.
Cardiac	Parasternal Long Axis with Advanced SRI M- Mode of Mitral Valve M5Sc-D	 An M-mode ultrasound image showing the parasternal long axis view of the mitral valve. The image displays the motion of the valve over time. The image is labeled 'Image37' and 'LOGIQ'.

LOGIQ Fortis, cSound and Radiantflow are registered Trademarks of the General Electric Company. The LOGIQ Fortis is designed for compatibility with most commercially available Ultrasound contrast agents. Availability of these agents is subject to government regulation and approval. Contrast imaging should be performed within the approved indications for use of the contrast.
