

Declaration of Conformity – EU (MDR)

The EU Declaration of Conformity is under the sole responsibility of the manufacturer.

The device covered by this present declaration is in conformity with Medical Device Regulation (EU) 2017/745.

General Product Name	Patient Moving and Handling
Brand	GBUK Banana
Product Variants	See Appendix I
Compliance Statement	We hereby declare that the devices covered in Appendix I comply with the European Medical Device Regulation EU 2017/745
Basic UDI-DI	506040574BananaM8
Medical Device Technical File and Revision	TFB-001 Revision 3
Intended Use	Banana Assist: The Assist is intended to turn patients into a prone position in the same bed or from surface to surface and back again. It may also be used to turn, reposition, assist in the cleaning of patients, and moving legs out of bed. Lo Raiser: The Lo-Raiser is designed to support a person in moving from the floor to a seated position, or from a seated position to a standing position. FloJac: The device is intended to help clinicians safely lift patients from the floor. Clip Sling: The GBUK Banana clip sling is intended to be used to transfer patients following a risk assessment. The sling should be used in conjunction with a mechanical lifting device (either mobile or ceiling hoist) to ensure safe lifting and repositioning of a patient. Flo Air: These devices are intended to assist in laterally transferring patients from one surface to another. Seated boards: GBUK Banana Seated Boards are intended to assist in the seated transfer of a patient from one surface to another.

Lateral: GBUK Banana Lateral Transfer Boards are intended to assist in the lateral transfer of patients across a gap between two surfaces

GBUK Banana Single Patient Use (SPU) Slide Sheets are intended to reduce friction and shear during the task of moving, repositioning, or turning a patient on a surface.

GBUK Banana Disposable Slide Sheets reduce friction and shear during the task of moving, repositioning, or turning a patient on a surface.

GBUK Banana Transfer Sheets are intended to assist in the transfer of patients between surfaces

The Repositioning Sling is intended to be used to hoist a patient in a supine position for transfer, in-bed repositioning or turning.

The Flo F3 kit is intended to raise patients on a surface to enable insertion or removal of patient handling device(s) and/or insertion or removal of items underneath the patient. To assist in repositioning, turning and lateral transfer.

GBUK Banana Heavy Duty Turning Devices are intended to be placed on the floor to assist a patient in turning their lower body during a seated transfer.

The Intoprone and Orbit is intended to help caregivers turn patients into prone position.
The Orbit is additionally intended to help caregivers turn patients out of prone position.

Legal Manufacturer	GBUK Group Ltd GBUK Enteral Ltd is a trading subsidiary of GBUK Group Ltd. GBUK Enteral Ltd also trade as Enteral UK.
