

### 1. Product identifier

**Code**           **ORG 601**

**Name**           **Anti-CCP hs (high sensitive)<sup>®</sup>**

Anti-CCP hs (high sensitive) is a medical device for the measurement of IgG class autoantibodies against cyclic citrullinated Peptides (CCP) in human serum or plasma. Intended for professional in vitro diagnostic use only.

#### **Manufacturer / Supplier**

ORGENTEC Diagnostika GmbH  
Carl-Zeiss-Straße 49-51  
55129 Mainz - Germany  
Phone: +49 6131 / 92580  
Fax: +49 6131 / 925858  
orgentec@orgentec.com  
www.orgentec.com

### 2. Hazards identification

Product is **not classified as hazardous** according to the European Regulation 1999/45/EC or 1272/2008/EC.  
Human health hazards: No specific hazard.

### 3. Composition / Information on ingredients

Coated microplate: Purified antigen coated onto polystyrene microwells.  
Calibrators/controls: Human antibodies < 1% in phosphate buffered saline with Tween 20 as detergent, sodium azide 0.09% as preservative and BSA for stabilization.  
Enzyme conjugate: Peroxidase conjugated anti-human antibody < 0.0001% in phosphate buffered saline with ProClin 300 as preservative and bovine serum albumin (BSA) for stabilization.  
Sample buffer: Phosphate buffered saline with sodium azide 0.09% as preservative and BSA for stabilization.  
Wash buffer: Tris buffered saline with Tween 20 as detergent and sodium azide 0.09% as preservative.  
Substrate solution: Aqueous solution of TMB (3,3',5,5'-Tetramethylbenzidin) 0.032% with organic solvent 2-pyrrolidone < 10%, sodium perborate, citrate, EDTA, and Kathon CG as preservative.  
Stop solution: Aqueous solution of phosphoric acid 4.5%.  
Active substances in all mixtures do not meet the criteria for classification according to 1272/2008/EC.

### 4. First aid measures

**Skin Contact:** In case of skin contact, immediately wash thoroughly with water and soap. Remove contaminated clothing and shoes and wash before reuse. If stop solution comes into contact with skin, wash thoroughly with water.  
**Eye Contact:** After contact with the eyes carefully rinse the opened eye with running water for at least 10 minutes. Get medical attention if necessary. Remove contact lenses if this can be done easily.  
**Respiratory tract:** Take person to the fresh air.  
**Swallowing:** Rinse the mouth and spit the fluids out. Drink 1 - 2 glasses of water immediately. During spontaneous vomiting hold the head of the casualty low with the body in a prone position in order to avoid the penetration of vomit into the air tube.

### 5. Firefighting measures

Extinguishing Media: Use dry chemical powder, water spray, foam or carbon dioxide.

### 6. Personal precautions, protective equipment and emergency procedures

Observe laboratory safety regulations.  
Avoid contact with skin and eyes. Do not swallow. Do not pipette by mouth.  
Do not eat, drink, smoke or apply makeup in areas where specimens or kit reagents are handled.  
When spilled, absorb with an inert material and put the spilled material in an appropriate waste disposal.

### 7. Handling and storage

**Handling:** Special measures are not required.  
**Storage:** Store at 2 to 8 °C. Protect from light.

### 8. Exposure controls / personal protection

ORG 601\_SDS\_EN\_QM110034\_2018-01-23\_3

Respiratory protection: Not required  
Hand protection: Wear protective gloves of nitril rubber or natural latex.  
Eye protection: Wear protective glasses.

**9. Physical and chemical properties**

Coated microplate: Polystyrol microwells in foil pouch.  
Calibrators: Yellow fluid in glass bottle.  
Enzyme conjugate: Red fluid in polyethylene bottle.  
Sample buffer: Yellow fluid in polyethylene bottle.  
Wash buffer: Colorless fluid in polyethylene bottle.  
Substrate solution: Colorless fluid in polyethylene bottle.  
Stop solution: Colorless fluid in polyethylene bottle.

**10. Stability and reactivity**

Stability of components is given on the labels. Used according to intended use no dangerous reactions known.  
Conditions to avoid: Substrate solution is light-sensitive. Store substrate solution in the dark.

**11. Toxicological information**

Used according to intended use no toxicological reactions known.

**12. Ecological information**

Used according to intended use no ecological reactions known.

**13. Disposal considerations**

Waste should be disposed of in accordance with federal, state and local environmental control regulations.  
When disposing of conjugate solution, sample buffer or wash buffer flush drains with copious amounts of water.  
Disposal of packaging according to the instructions of the public authorities.

**14. Transport information**

This product is not subject to official transport regulations.

**15. Regulatory information**

1907/2006/EC Registration, evaluation and authorization of chemicals regulation (REACH)  
1272/2008/EC Classification, labelling and packaging regulation (CLP, globally harmonized system GHS)  
replaces 67/548/EWG and 1999/45/EG, amending 1907/2006/EG  
453/2010/EC Compilation of safety data sheets regulation (SDS), amending 1907/2006/EC  
This product is not classified according to the EU regulations 1272/2008. No labeling requirement.

**16. Other information**

Revision: editorial corrections.  
Safety data for product including all components. This product is intended for professional laboratory use only.

**Notice to Reader**
