

|               |                          |
|---------------|--------------------------|
| PRODUCT NAME  | 4 MOTORS ICU PATIENT BED |
| PRODUCT BRAND | MIA/ BED4 ECO SERIES     |

#### PRODUCT PICTURE

|                                                                                   |                                                                                   |                                                                                   |                                                                                   |                                                                                     |
|-----------------------------------------------------------------------------------|-----------------------------------------------------------------------------------|-----------------------------------------------------------------------------------|-----------------------------------------------------------------------------------|-------------------------------------------------------------------------------------|
|  |  |  |  |  |
| BACK MOTION                                                                       | FOOT MOVEMENT                                                                     | BACK-FOOT MOVEMENT                                                                | LIFT                                                                              | STRAIGHT AND REVERSE TRENDLENBURG                                                   |

#### TECHNICAL FEATURES

|                                     |                                                                         |
|-------------------------------------|-------------------------------------------------------------------------|
| 1. MOTOR                            | / 4000 N / DC / IP66                                                    |
| 2. MOTOR                            | / 4000 N / DC / IP66                                                    |
| 3. MOTOR                            | / 6000 N / DC / IP66                                                    |
| 4. MOTOR                            | / 6000 N / DC / IP66                                                    |
| MOVEMENTS BY MOTORS                 | BACKREST, LEGREST, HEIGHT, TRENDLENBURG, REVERSE TRENDLENBURG MOVEMENTS |
| CONTROL PANELS                      | PATIENT REMOTE CONTROLLER                                               |
| TRENDLENBURG / REVERSE TRENDLENBURG | TRENDLENBURG / REVERSE TRENDLENBURG BY MOTORS MIN : 0-12 DEGREE         |
| HEADINGS AND SIDE RAILS STRUCTURE   | PRODUCED FROM POLYPOPILEN ABS MATERIAL OR COLLAPSIBLE METAL SIDE RAILS  |
| METAL STRUCTURE                     | THICKNESS FOR BOX PROFILE : 1,2 - 2,00 mm. FOR PIPE 1,2 - 2,00 mm       |
| PAINTING                            | ELECTROSTATIC POWDER COATING                                            |
| ELECTRONIC CPR                      | OPTIONAL                                                                |
| MANUAL CPR                          | OPTIONAL                                                                |
| X-RAY CASSETTE HOLDER               | OPTIONAL                                                                |
| CASTORS                             | DIAMETER 125 mm                                                         |
| LOCKING OF CASTORS                  | CROSS BRAKE SYSTEM                                                      |
| AUTO REGRESSION                     | YES 100 mm                                                              |
| PROTECTION BUMPERS                  | OPTIONAL                                                                |
| IV POLE                             | YES, METAL, 1,2 mm, CHROMED, 2 HOOKS                                    |
| DRAINAGE HOOKS                      | YES                                                                     |
| MATTRESS PLATFORM                   | EASILY REMOVABLE AND CLEANABLE                                          |
| MANUAL KNEE MECHANISM               | YES, MANUAL KNEE MECHANISM WITH 3 GRADUAL POSITION                      |
| BOTTOM FRAME SIZE                   | 40 x 60 x 2 mm                                                          |
| UPPER FRAME SIZE                    | 50 x 30 x 2 mm / 20 x 20 x 2 mm                                         |
| SIZES (BUMPER TO BUMPER)            | W : 1010 mm, L : 2120 mm                                                |
| HEIGHT                              | MIN : 460 mm, MAX : 780 mm                                              |

| STANDART SPECIFICATION                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| * MOTORIZED HEADREST ADJUSTMENT * MOTORIZED LEGREST ADJUSTMENT * MOTORIZED HEIGHT ADJUSTMENT * MOTORIZED TRENDELENBURG / REVERSE TRENDELENBURG ADJUSTMENT * HAND CONTROL UNIT * FOWLER AND VASCULAR POSITIONS * KNEE MOVES ADJUSTMENT WITH GRADUAL MECHANISM * EASILY REMOVABLE FIXED HEAD / FOOT BOARDS * SIDE RAILS MADE FROM POLYPROPYLENE OR METAL COLLAPSIBLE SIDE RAILS MATERIAL * 360º MOVABLE CASTORS WITH CENTRAL LOCK * PLASTIC PROTECTION BUMPERS * BELT HOOK * ACCESSORIES SLOTS * URINE BAG HOLDER * HEIGHT ADJUSTABLE IV POLE * ELECTROSTATIC POWDER COATING *MAX.PATIENT LOAD WEIGHT : 250 KG *TOTAL LOAD WEIGHT:350 KG |

| OPTIONS                                      |                                                                |
|----------------------------------------------|----------------------------------------------------------------|
| 32 DENSITY MATTRESS. ( 860 x 1950 x 120 mm ) | BACREST X-RAY                                                  |
| VISCO MATTRESS                               | FULL X-RAY MECHANISM. ( HEAD to FOOT )                         |
| ELECTRONIC CPR WITH NURSE CONTROL PANEL      | BED EXTENSION                                                  |
| CENTRAL LOCK Q 125 (set)                     | CONTROL PANEL ON ONE SIDE RAIL (1 Inner + 1 Outer)             |
| NURSE CONTROL PANEL                          | BATTERY (when bed is operating with battery it gives a signal) |
| NURSE LOCK                                   | MECHANICAL CPR                                                 |
| UNDER BED LIGHTING                           | TWIN CASTORS                                                   |
| BRAKE LOCK SIGNAL                            | HAND GRIPS                                                     |
|                                              |                                                                |
