## DECLARATION

31 July 2025

Adjustability of Temperature for Detergent, Disinfectant and Water, and Temperature Control Accuracy - endoCleaner

To whom,

We hereby confirm that the EndoCleaner endoscope washer-disinfector, manufactured by our company, is equipped with a system that allows for the adjustment and precise control of the temperature of detergent, disinfectant, and water used during the cleaning and disinfection cycles.

Temperature Adjustability:

- 1.The device is equipped with high-precision digital temperature sensors that monitor and control the temperature in real time.
  - 2.The temperature control tolerance (accuracy) is  $\pm 1^{\circ}\text{C}$ .
  - 3.Real-time temperature values are displayed on the device screen and automatically recorded in the process report at the end of each cycle.
- This declaration is provided in response to the relevant tender specification request and confirms the technical conformity of the EndoCleaner device with respect to its temperature control capabilities and error tolerance.
