

### Product Advantages:

A germicidal lamp is a special type of lamp which produces ultraviolet light (UVC) peaking at 253.7nm. This short-wave ultraviolet light disrupts DNA base pairing leading to death of bacteria on exposed surfaces. It can also be used to produce ozone for water disinfection

- Emits UV-C light and make the organisms unable to reproduce, creating a cleaner environment;
- Offers constant UV output over their complete lifetime, for maximum security of disinfection and high system efficacy.

### Product Features:

- Short-wave UV radiation with a peak at 253.7 nm (UVC) for disinfection purposes;
- Protective inside coating ensures constant UV output over the complete lifetime of the lamp;
- Harmful to humans, so should be used with care;
- Either straight shape or H shape in different UVA intensity;
- Rated Life 8,000 - 10,000H.

### Packing:

- 1) One pc in a bubble PE bag, then in a white box;
- 2) 50pcs in a medium master carton;
- 3) Certain quantities in an outer master carton.

| Product Type | Diameter (mm) | Length (mm) | UV-C (uw/cm <sup>2</sup> ) | Rated Life | Base | Voltage   | Operation Temp. | PCS/CTN | Packing Size      |

Remarks: It is strongly recommended to use with the matched ballast

ACME TESTING

Certificate No.: AT-MD0611042

## CERTIFICATION OF COMPLIANCE

**Manufacturer:** Haining xinguangyuan lighting CO.,Ltd.  
**Address:** 89 jiangchao Road,Dingqiao Town,Haining City,Zhejiang Province,China.  
**Product Description:** Single-capped fluorescent lamps  
**Type(s)/Model(s):** UVA, UVB, UVC  
**Date of issue:** Jul. 16, 2008  
**TCF Numbers:** SCC(08)-1207-10-LVD  
**Test Standards:** EN 61199:1999

**Conclusions of examination:** The Technical Construction File for the machinery specified above has been examined and found to correctly show the application of the relevant standards and hence fulfils the requirements of :

The Low Voltage Directive: 2006/95/EC.

**Special Conditions:** Special conditions applicable to the issue of this certification are given in Appendix I:

The following drawings/documents identify the item examined: Refer to TCF on file.
