

Healthy Life Project

Reducing the Burden of Non-Communicable Diseases

To: *All interested organizations and persons*

RECOMMENDATION LETTER

Dear Mr./Mrs.

Through this letter, we would like to express our appreciation and recognition for the excellent collaboration we have had with *Pascaru Production LTD*, during 5 years. Throughout multiple video projects carried out together, we have been impressed by the professionalism, creativity, and dedication of the team.

The filming took place in various locations across the Republic of Moldova, showcasing the diversity and authenticity of our projects. One of the most significant materials produced together was a documentary film promoting a healthy lifestyle, which had a considerable impact on our target audience. Additionally, we collaborated on the “**Choose What You Eat**” campaign, for which *Pascaru Production* created multiple video materials aimed at informing and educating the public on healthy food choices.

Pascaru Production team has demonstrated an exceptional ability to understand our vision and objectives, delivering high-quality video materials perfectly tailored to our needs. The team stood out through: the ability to transform complex concepts into accessible and engaging visual materials and rigorous organization of the production process and commitment to meeting deadlines.

Each production we have worked on together reflects the team's commitment to delivering impactful content that meets our needs and conveys messages clearly and attractively. Consequently, we confidently recommend *Pascaru Production* to any organization or entity looking for a reliable partner for high-quality video production.

We are available for any further information at info@viatasan.md.

Sincerely,

03.04.2025

Lilia ONEA,
Communication expert,
