

Letter of recommendation

To whom it may concern:

I hereby confirm that our communication agency, Hcommunications SA, has been working tightly together with the company Soft Tehnica LTD on various web-based client projects since 2014.

Along with smaller custom Wordpress based websites for some of our clients, Soft Tehnica LTD has been working with us on a major custom web platform for one of our clients, FIAP (Fédération Internationale de l'Art Photographique). This platform helps the organization manage hundreds of worldwide photographic contests yearly. It also allows user management, contest validation process management, invoicing and billing, automatic document handling etc.

Soft Tehnica LTD provides the necessary technical skill and assists us in properly advising the client and managing his requests in order to apply them to the project in the best possible way. The company also provides advice on how to optimize established processes and adapt them to the new workflow.

Our experience so far with Soft Tehnica LTD has been very positive and I can recommend this company as a competent and hard-working supplier in terms of web development.

Best regards,

Thomas Hoffmann
CEO, Hcommunications SA
