

PRODUCT CATALOGUE
ürün katalođu

The relevant products offered under the Select Professional brand have been certified by the Turkish Standards Institute that they were checked according to the product standards for toilet paper, towels, napkins, physical quality characteristics of the product, dimensional packaging shape, design characteristics and they conform to the standards through all stages.

Since its establishment, Viking Pulp and Paper Mill Co has been continuing its strategy of being an organization that continuously develops and adapts to change, attaches importance to environmental and health awareness, and creates value for its customers and employees. Accordingly, production conditions and products are approved by national and international institutions. While being the first company to receive ISO 9001 Quality Management System Certificate in its sector, in 2018, it upgraded to ISO 9001:2015 version. Compliance to all skin types was approved with Dermatest in 2013, compliance with food contact was approved with Isega and Smithers Pira in 2011, and the efficient use of energy in all processes was approved with ISO 50001 Energy Management System certificates in 2016. In 2017, BRC - Hygienic Product - Hygienic Product GC - Mark Certificate was awarded for the first time in its sector. All these documents and certificates are updated as a result of the audits carried out.

High Quality And Hygienic Products

“ All the products produced in our production facility have been subjected to risk analysis and it has been documented as a result of the audits carried out by the German certification body DQS that the product is free of risks in terms of product safety and that the product is produced under the necessary conditions. ”

Viking Pulp and Paper Mill Co established as Turkey's private sector first paper mill in 1969 in Izmir Aliağa has been operating for 50 years with pioneering and innovative structure in dressings and tissue paper sector. Viking Pulp and Paper Mill Co journey, which started with the production of industrial products in the paper industry, has grown rapidly after joining the Yaşar Holding in 1982 and continues today with an annual production capacity of 45,800 tons in a 42,000 square meter indoor area. It continues to offer innovations in the cleaning paper sector with its brands including high quality and hygienic products in domestic and outdoor use.

For professionals
5 star solutions...

Viking Pulp and Paper Mill Co offers quality and hygienic products with its Select brand showing innovation and continuous development in outdoor consumption channel, while it meets the consumers thanks to its common sales distribution infrastructure in whole Turkey. Select provides advantages that exceed the needs with a wide range of product options for outdoor use. It offers solutions providing both hygiene and saving to the enterprises such as restaurant, school, hospital, hotel etc. Select has become one of the most preferred brands of professionals with its 3 brands as Expert, Optima and Smart and quality production and service standards.
