HTS-10

## MOBILE STRETCHER WITH SIDE HOLDER

### TECHNICAL DETAILS

In the simple but functional stretcher model, HTS-10, headrest adjustment is operated with a ratchet mechanism. Metal side rails can be folded down easily. 125 mm diameter vertically lockable castors can provide easy mobility, as well as immobilization in case of any needs. An oxygen tank holder and a file holder that provide practical working conditions for the clinic staff is provided as Standard device.

- Backrest is adjusted by ratchet mechanism.
