Disposable Face Mask

with ear-loop

Type I: BFE \geq **95%**
Type II: BFE \geq **98%**
Type IIR: BFE \geq **98%**

<Bacterial Filtration Efficiency>

Three Layers Design

- Disposable
- Odorless
- 3 layers design
- Comfort and fits perfectly
- Free of fiber glass
- Hypoallergic
- With nose wire support
- Low resistance for better breathing

PACKING INFORMATION	
Packing:	50pc/box, 40box/carton
Net Weight:	7.3kgs/ctn

Width unfolded 170mm
Length of Earloop 170mm

Product Code:
TYPE I: 966-EL
TYPE II: 966-EL II
TYPE IIR: 966-EL IIR

Medispo®

Anti-Fog

Disposable Medical Face Mask *Type II* with Ties

Type II : BFE ≥ **98%**

<Bacterial Filtration Efficiency>

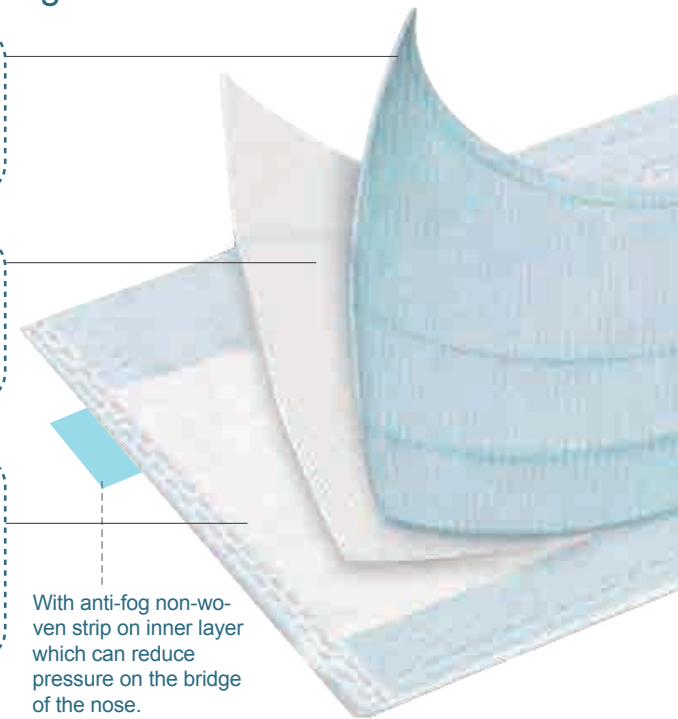

Three Layers Design

Layer 1
the colored layer is
your first line of
defense

Layer 2
protects against fluid
while maintaining
breathability

Layer 3
soft, non-abrasive
inner layer makes
the mask comfort-
able on your skin

With anti-fog non-
woven strip on inner layer
which can reduce
pressure on the bridge
of the nose.

Fluid Resistance

Tests penetration resistance to synthetic blood
at three protection levels—120 mm Hg .

Bacterial Filtration Efficiency (BFE)

Tests filtration ability against an aerosol
containing bacteria 3.0 microns in size.

Differential Pressure (ΔP)

Gauges air flow from one side of a mask to
the other, assessing breathability.

- Made of non-paper, non-woven material
- Odorless
- Hypoallergic
- Head straps, of two layers with the same size for perfect fitting on the face
- Ultrasonic Bonding of the mask with the head straps
- Tear resistant.
- Plastic/Wire Nose clip 12cm, for perfect and stable application of the mask on the nose
- Respiratory Resistance - Differential Pressure (ΔP): <60 (Pa / cm²).

Dimensions:

Length 175mm
Width folded 95mm
Width unfolded 180mm
controlled-partially lint free

Anti-Fog

DISPOSABLE MEDICAL FACE MASK TYPE II WITH TIES
