# Company Profile

**Tianck Medical CO. LTD is a professional medical devices manufacturer dedicates to research & development, production and sales. We keep the sustained research & develop strategy and made many excellent achievement in the filed. Tianck Medical strives to improve the patient care by high-quality product at reasonable price, and continuesly contribute to interventional medical device field.**

**Our products cover Cardiology, Urology, Anaesthesia and Nursing care, mainly include guidewire, introducer sheath, balloon inflation device, drainage catheter, hemodialysis catheter, ureteral catheter, pressure transducer and so on. Our marketing network covers many countries around the world, the products have been exported to Europe, Southeast Asia, Middle East, South America, Oceania and Africa.**

**Tianck Medical has more than 5,000 square meters production area, among which about 3,500 square meters are class 10,000 and class 100,000 clean workshop. We have more than 200 employees, including technical specialists in precision processing, strong medical engineering team and experienced production staffs. Which ensure our production capability and products quality.**

**Tianck Medical is accredited with CE and ISO13485 certificate. “High-quality” is our core value, pursuit of high-quality products is the conscious behavior of every employee in the company.**

**“High-quality” is our consistent goal**

**-Tianck Medical co.,Ltd**
