ABOUT VISTARMED/关于维思达

深圳市维思达医疗用品有限公司是一家集研发、设计、生产和销售于一体的国家高新技术企业，专注于各类中高端医疗充气配件。公司目前在深圳拥有6000㎡的生产基地，并已通过TUV南德ISO 13485医疗器械质量管理体系认证。公司拥有一支具备15年以上行业经验的专业团队，致力于产品技术创新，严格遵循国内外行业标准，为国内外各大监护仪、血压仪、空气治疗仪、止血仪等充气类体外诊断设备厂商提供优质OEM和ODM配套服务。

始终如一的高品质和优质服务，使我们赢得了包括美国、德国、日本和韩国在内的全球客户一致赞誉。

致力于通过技术创新和可持续发展，为全球客户提供高品质的医疗解决方案，同时积极推动社会责任，为人类健康作出贡献。

Vistar Medical Supplies Co, Ltd. is a professional provider integrated with R&D, production, sales and service, specializing in patient monitoring, NIBP measuring, Pneumatic Tourniquet accessories and all kinds of inflatable medical supplies.

Vistar Medical, established in 2010 and headquartered in Shenzhen, a special economic zone and open coastal city in China, operates a 6,000 square meter production facility certified by ISO13485, CE(MDR), FDA and UKCA.

We have a great team running our production and design areas - many of whom have over 15 years experience. Vistar Medical dedicates itself to the continual R&D improvement and enriching our product lines, e.g. various of high quality NIBP cuff, ABI cuff, Pressure infusion bag, Tourniquet cuff, DVT garments etc. for the benefit of our worldwide clients. Our knowledge of product development, materials, molding and testing allows us to meet customers' demand from all over the world.

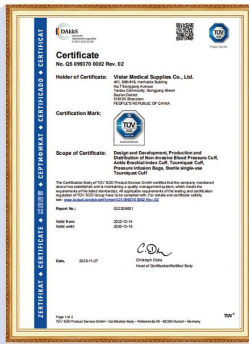

We're customer oriented and dedicated to providing quality medical solutions to meet client needs!

Certifications

VP Disposable Pressure Infusion Bags 一次性输液加压袋

The latex free MedCuff® Pressure Infusion Bag is a safe, high-quality, reliable device for intra-arterial infusion treatment, including A-line pressure monitoring. Designed for single patient use, the MedCuff® Pressure Infusion Bag may help prevent and control cross-contamination and hospital acquired infections.

输液加压袋主要由TPU涂层的尼龙复合布料，尼龙网布，气管及充气球组成，不含乳胶，是一种协助紧急输液或输液的医疗设备配件。专为单人使用而设计，有效的预防并控制潜在的交叉感染。

Product features

- Pressure relief valve prevents over inflation (300 mmHg pressure relief)
- Large, oval shaped bulb allows for quick and easy inflation of bladder
- Single-handed inflation and deflation design makes it easy to use and requires minimal training
- Dedicated fluid bag hook enables efficient loading and unloading of the system without having to remove the infusion bag from the IV pole.
- Color-coded gauge makes for accurate pressure monitoring (0-300 mmHg)
- Three-way stopcock ensures precise control of pressure
- 100% Leakage tested
- Latex free, single patient, non-sterile

DVT Garments for DVT Pumps 一次性DVT腿套

Vistarmed offers flexible OEM & ODM services, providing customized DVT garments designed to meet diverse client needs. Our DVT garments are used with DVT pumps to prevent the formation of deep vein thrombosis (DVT) and pulmonary embolism by promoting the return of blood and lymph through controlled compression.

Blisscuff 3 Air Chambers Garments: Key Features

Effective Compression: Provides gradient, circumferential, and sequential compression, optimizing blood flow from the lower limb towards the heart and minimizing the risk of blood flowing back towards the foot.

User-Centric Design: This Garments features a conical shape, specifically designed for both the left and right legs, keeping hoses and connectors neatly positioned on the sides to prevent pressure on the skin.

Light & Breathable: Made from soft, breathable PET non-woven materials, ensuring comfort during extended wear. All materials have passed biocompatibility testing.

Leak-Proof Guarantee: Every sleeve undergoes a 100% leakage test before packing to ensure product quality and reliability.

Highly Compatible: Available in multiple sizes to accommodate a wide range of patients and compatible with most DVT brand machines.

DVT Garments for DVT Pumps

Code No	Descriptions	Garment size
