

Biliary Stone Extraction Balloon Catheter

Used for endoscopic
extraction of biliary stones

Triple lumen feature provides wire guided access
to facilitate stone extraction from desired location
during procedure

Diameter of inflated Balloon 16mm
Balloon max. Air Inflation 4.0cc
Balloon max. Fluid Injection 3.0ml
Recommended Guidewire 0.035"

Art. No.	Catheter Ø (Fr/CH)	Functional Catheter Length (cm)	Working Length (cm)	Syringe (cc)	Guidewire
S-SEBC-7	7	200	200	5	0.035"

Biliary Nitinol Stent Self Expandable

Used for stenosis or obstructed biliary tract caused
by benign or malignant changes

With Introducer System
Radiotherapy compatible
Uncovered stent
Expanded Stent Diameter – 10mm
Compatible with instrument channel size 3.2mm

Art. No.	Stent Length (mm)	Stent Ø (mm)	Guidewire
