

**MANUAL GUN-TYPE ASPIRATOR OF SECRETIONS
FAZZINI - ITALY**

Code F-151
Length: 12.50 cm
Width: 6 cm
Height: 16 cm

Functional, safe, portable, powerful and economical secretion aspirator that works exclusively with hand pressure.

Its small size makes it easy to carry in any emergency bag or ambulance.

In emergency situations, it allows for the safe, rapid, and effective aspiration of secretions from the airways.

The kit is suitable for all first aid interventions where there are no electrical power outlets.

Supplied with: reusable handle, 300 ml disposable secretion container F-151.01, disposable flexible tubing kit for adult and pediatric use F-151.02.
