- ✓ Made from clarified Polypropylene 100% free of Bisphenol-A (BPA) Bisphenol-S (BPS), DEHP, Phthalates, can be recycled

# ICS 800 Induction Cap Sealer

## Risk Free Pasteurisation

**S3 The SteriFeed ICS 800 induction cap sealer used with foil seal cap and bottle provides absolute security during pasteurisation and transportation up to the point of use.**

**S1 SteriFeed are delighted to announce the arrival of our new ICS 800 induction cap sealer. The SteriFeed sealer enables customers to attach a foil seal to their bottle of donor breast milk before processing. Using the foil sealing system means the user can safely submerge bottle and cap in the pasteuriser so that the entire bottle and cap is treated in both the heating and the cooling phase of the pasteuriser**

### Advantages of the SteriFeed foil seal system:

- Tamper evident seal
- Easy open
- Improved oxygen barrier
- Leak resistance
- Transportation security benefits
- Improved safety when pasteurising

### The ICS800 sealer has improved features:

- Pass / Fail programme
- **Quicker and easy to use**
- Counter to count batches
- User friendly touch screen
- Choice of languages

### S5 The ISC800 sealer will alert users if:

- **No foil seal is present**
- **Incomplete seal**
- **Multiple seals**
- **The seal is wet**
