

TANGO FIX HP

Integrated adult/paediatic head immobilizer

Tango Fix HP head restraints are accessories for spine boards or pick-up stretchers, to be used to increase the degree of patient immobilisation.

Specific features

- Soft head support zone to increase patient comfort
- The central part of the base is removable to allow a better adaptation when the device is used in pediatric configuration
- Poliethylene base easy to clean
- Adjustable frontal and chin straps with soft and high-adhesion paddings to optimize the immobilization
- The pediatric head immobilizer is obtained from the adult one easily, ensuring rapidity in rescue operation and minimizing storage space inside the ambulance
- The rigid pillows with padded internal side, allow high degree of immobilization without compromising patient comfort
- Adult and pediatric head immobilizer, have large side openings to allow ear inspection
- The pillows are fixed on the base by means of wide strap surfaces
