COMPANY INTRODUCTION

Vision:

To be the leading manufacturer of stoma care and wound care products.

Hubei Hendry Medical Appliance Co., Ltd. was established in 2014, which located in Xiaogan, Hubei China with total area about 20000 square meters. We are professional enterprise dedicated to R&D, production and marketing. Our factory has more than 200 technical staff and over 40 R&D experts. And our annual output is 65 million pieces with an annual output value of 150 million RMB.

Since 2015, our company has successfully passed the ISO 13485 quality system, FDA and CE. We have 10 advanced full-automatic production lines with leading effective technology to guarantee stable quality. Besides, we have a strict management system to strengthen the management of each link from raw materials, production, packaging, etc, to ensure the premium quality of products.

Our main products are a full series of stoma care products, incontinence care and wound care. We export to over 30 countries and regions, such as Europe, USA and Southeast Asia.

>>Our quality: safe, comfortable and convenient;

>>Our responsibility: strive to make life easier for friends who have caring care;

>>Our focus: making customer satisfaction products based on the actual needs of customers.

ONE-PIECE PRODUCT ANALYSIS PROFILE

- 1. **Release film** (Strong adhesive, easy to peel off)
- 2. **Medical hydrocolloid** (Using medical hydrocolloid materials, good stickiness, long-lasting and skin-friendly, no residue on the skin)
- 3. **Spunlace extender** (Reinforce the baseplate, prevent warping, not prone to allergies)
- 4. **Medical non-woven fabric** (Soft, comfortable and ventilate, reduce friction noise, avoid embarrassment)
- 5. **EVOH film** (7-layer film co-extruded, strong and durable)
- 6. **Back window** (Double layer medical non-woven fabric, reduce friction sound, more concealed)
- 7. **Exhaust valve** (Quickly discharge the flatulence in the bag)
- 8. **Carbon filter** (Good adsorption, effectively filter excrement odor)
- 9. **Sealing method** (The sealing operation is convenient and the sealing is tight)

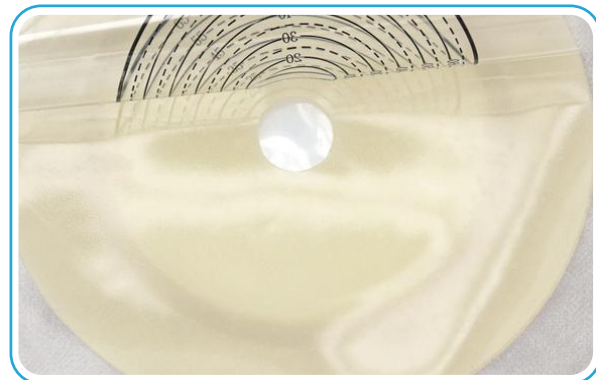

Ostomy Bag Customization Process

If you want to have a unique ostomy bag, you can customize it as you like. You can choose step by step according to the following process, and the corresponding structure is introduced later. Please choose 1~7 for one piece system, please choose 1~8 for two-piece system.

Structure 1 『Medical hydrocolloid』

The raw material of the skin barrier is made of medical grade hydrocolloid, which is translucent and has good stickiness. The ingredients are mild, comfortable to use, friendly to the skin, not prone to allergies, and can be lasted for 5-7 days when used correctly.

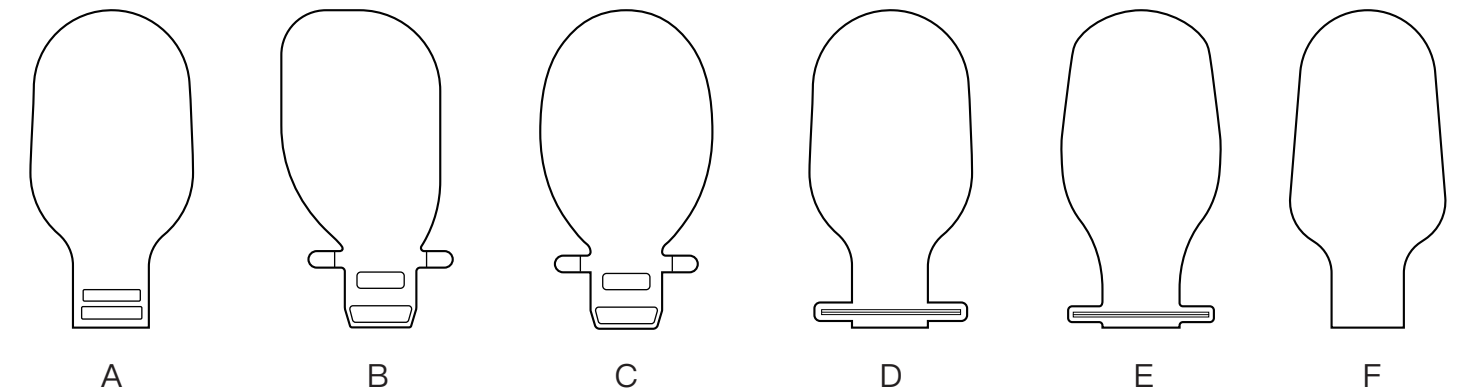

Structure 2 『Spunlace extender』

It is used to strengthen the skin barrier adhesiveness, prevent warping, and prevent the bag body from falling off accidentally. It is suitable for patients who need to exercise, and the adhesiveness is stronger.

Structure 3 『Bag shape』

The bag body has various shapes and wide choices, and the shape of the bag body can also be provided to support customization to meet your various choices.

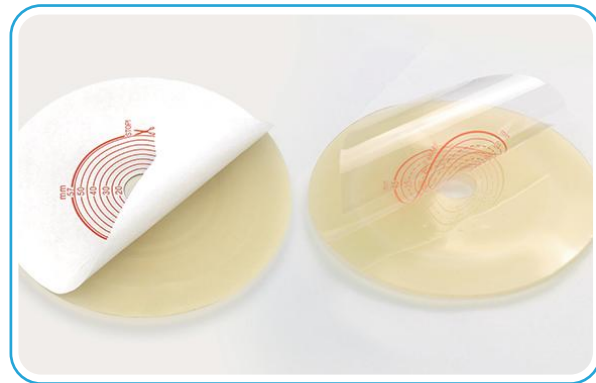

Structure 4 『Sealing method』

There are 5 types of sealing methods for ostomy bags, 4 types for colostomy bag, namely: clamp, hook and loop, Velcro and medical twist tie; 1 type for urostomy bag: drain valve.

Structure 5
『Scale Substrate』

There are two types of base material for cutting hole printing line: release paper and release film, which have the same function, protecting the skin barrier and printing scale marks, and making it convenient for patients to cut.

Structure 6
『EVOH film』

The body of the ostomy bag is made of EVOH film. The film material is co-extruded from 7 basic film materials, which is durable and has good corrosion resistance. The film material has 4 colors and can be made in various sizes and shapes of the bag body.

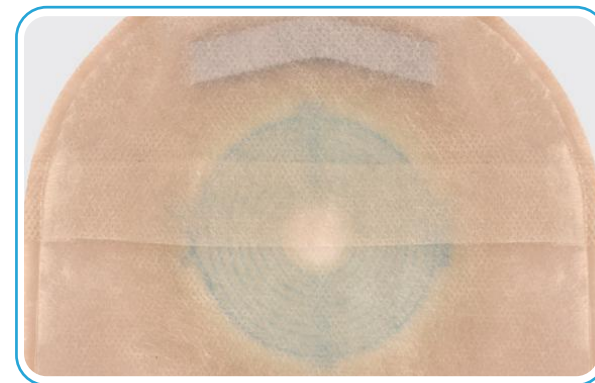

Structure 7
『Fabric/back window design』

There are 4 types of fabrics used for ostomy bags: white non-woven fabric, brown non-woven fabric, white perforated film and gray waterproof cloth; the function of the fabric is to reduce the direct contact between the bag body and the skin, making it more comfortable and softer to wear.

4 types of fabric

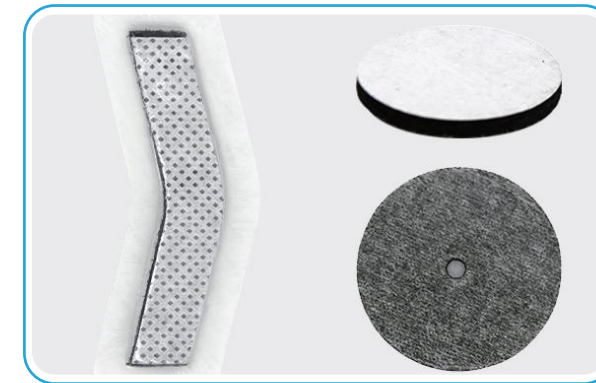

Back window design

Structure 8
『Carbon filter』

Carbon filter is divided into two styles, round and V-shaped, which can absorb the peculiar smell in the bag; it can also be used for exhaust, but it needs to punch holes in the activated carbon filter, which is relatively slow.

Structure 9
『Exhaust valve』

When there is a lot of flatulence in the bag, the flatulence in the bag can be quickly discharged by opening the gas release valve device, which is convenient and fast, and the operation is simple.

Structure 10
『Two-piece system with flange』

The system with flange is made of translucent polyethylene and is used together with buckle. There are 3 belt tabs on the flange, which is convenient for patients to use the belt for reinforcement. There are 3 specifications of flanges, namely 45, 57, 70.

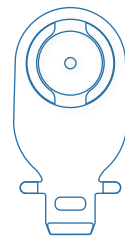

Structure 11
『Anti-backflow design』

Used in urostomy bags, it can effectively prevent the backflow of liquid in the bag and reduce the corrosion of the liquid on the skin around the stoma.

One-piece colostomy bag

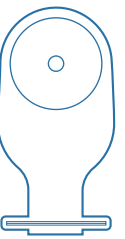

It is suitable for patients with a lot of flatulence; the design of the gas release valve can quickly discharge the flatulence, the double-layer skin barrier, the adhesive is strong, and it is not easy to be allergic. [All packages can be customized.](#)

Model	1204
Max cut	57mm
Skin barrier diameter	85mm
Fabric	Double sides white non-woven fabric
Barrier material	Medical hydrocolloid and spunlace
Bag color	Grey and transparent
Closure	Hook and loop
Other structures	Back window, exhaust valve
Box size	215x155x65mm
Carton size	480x450x480mm
Carton specification	20pcs/box, 42boxes/carton

One-piece colostomy bag

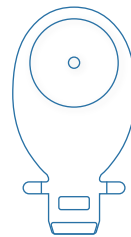

It can be used in colostomy patients with large stomas; max cut is 85mm, the brown bag has a large capacity, with integrated V shape carbon filter, can effectively reduce odor. It is sealed with medical twist tie, easy to operate and tightly sealed. [All packages can be customized.](#)

Model	Y1105C
Max cut	85mm
Skin barrier diameter	125mm
Fabric	Single side white non-woven fabric
Barrier material	Medical hydrocolloid
Bag color	Double sides brown
Closure	Medical twist tie
Other structures	V shape carbon filter
Box size	215x155x65mm
Carton size	480x450x480mm
Carton specification	20pcs/box, 42boxes/carton

One-piece colostomy bag

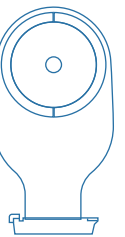

It is suitable for patients with colostomy; the gray film is matched with gray waterproof fabric, which is more concealed, and with integrated V shape carbon filter, can effectively reduce odor. [All packages can be customized.](#)

Model	1130
Max cut	70mm
Skin barrier diameter	118mm
Fabric	Single side gray waterproof fabric
Barrier material	Medical hydrocolloid
Bag color	Double sides grey
Closure	Hook and loop
Other structures	V shape carbon filter
Box size	215x155x65mm
Carton size	480x450x480mm
Carton specification	20pcs/box, 42boxes/carton

One-piece colostomy bag

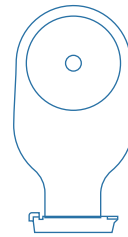

It is suitable for colostomy patients who exercise a lot; double-layer skin barrier is reinforced with spunlace, and the adhesiveness is more stable during exercise, which can effectively prevent accidental detachment. [All packages can be customized.](#)

Model	1219
Max cut	60mm
Skin barrier diameter	99mm
Fabric	Single side brown non-woven fabric
Barrier material	Medical hydrocolloid and spunlace
Bag color	Double sides brown
Closure	Clamp
Other structures	\
Box size	215x155x40mm
Carton size	450x330x430mm
Carton specification	20pcs/box, 40boxes/carton

One-piece colostomy bag

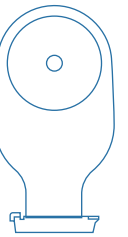

It is suitable for colostomy patients with less exercise; the brown bag has a large capacity and can be used for a long time. It is sealed with clamp, which is convenient for excretion and can observe the condition of the colostomy. All packages can be customized.

Model	1183
Max cut	70mm
Skin barrier diameter	108mm
Fabric	Single side brown non-woven fabric
Barrier material	Medical hydrocolloid
Bag color	Double sides brown
Closure	Clamp
Other structures	\
Box size	215x155x40mm
Carton size	450x330x430mm
Carton specification	20pcs/box, 40boxes/carton

One-piece colostomy bag

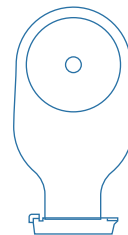

It is suitable for colostomy patients; double sides yellow EVOH film, the bag body is more concealed, with integrated V shape carbon filter, can effectively reduce odor, and the clamp is sealed for easy excretion. All packages can be customized.

Model	1124B
Max cut	70mm
Skin barrier diameter	108mm
Fabric	Single side brown non-woven fabric
Barrier material	Medical hydrocolloid
Bag color	Double sides yellow
Closure	Clamp
Other structures	V shape carbon filter
Box size	215x155x65mm
Carton size	480x450x480mm
Carton specification	20pcs/box, 42boxes/carton

One-piece colostomy bag

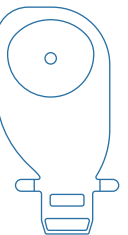

It is suitable for colostomy patients with less exercise; max cut is 80mm, the bag has a large capacity, and is sealed with clamp, which is convenient for excretion and can observe the condition of the colostomy. All packages can be customized.

Model	1123B
Max cut	80mm
Skin barrier diameter	125mm
Fabric	Single side white perforated film
Barrier material	Medical hydrocolloid
Bag color	Double sides brown
Closure	Clamp
Other structures	\
Box size	215x155x40mm
Carton size	450x330x430mm
Carton specification	20pcs/box, 40boxes/carton

One-piece colostomy bag

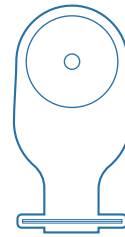

It is suitable for colostomy patients; double sides yellow EVOH film, the bag body is more concealed, with integrated V shape carbon filter, which can effectively reduce odor, and is sealed with hook and loop, which is easy to operate. All packages can be customized.

Model	1118A
Max cut	75mm
Skin barrier diameter	110mm
Fabric	Single side white non-woven fabric
Barrier material	Medical hydrocolloid
Bag color	Double sides yellow
Closure	Hook and loop
Other structures	V shape carbon filter
Box size	215x155x65mm
Carton size	480x450x480mm
Carton specification	20pcs/box, 42boxes/carton

One-piece colostomy bag

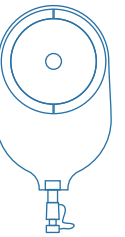

It is suitable for colostomy patients, medical hydrocolloid, good adhesiveness, more adhesive, sealed with medical twist tie, easy to operate. All packages can be customized.

Model	1154
Max cut	60mm
Skin barrier diameter	99mm
Fabric	Single side white non-woven fabric
Barrier material	Medical hydrocolloid
Bag color	Yellow and transparent
Closure	Medical twist tie
Other structures	\
Box size	215x155x40mm
Carton size	450x330x430mm
Carton specification	20pcs/box, 40boxes/carton

One-piece urostomy bag

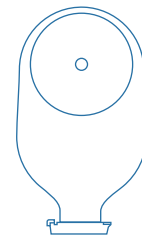

It is suitable for urostomy patients who exercise a lot, double-layer skin barrier is reinforced with spunlace, which can effectively prevent accidental detachment. Anti-backflow design, effectively prevent liquid backflow and reduce skin problems. All packages can be customized.

Model	3201
Max cut	48mm
Skin barrier diameter	87mm
Fabric	Single side white non-woven fabric
Barrier material	Medical hydrocolloid and spunlace
Bag color	Double sides transparent
Closure	Drain valve
Other structures	Anti-backflow design
Box size	215x155x40mm
Carton size	450x330x430mm
Carton specification	10pcs/box, 40boxes/carton

One-piece colostomy bag

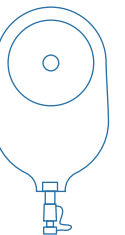

It is suitable for patients with large stoma, max cut is 105mm, which can meet the needs of some patients with special large stoma. All packages can be customized.

Model	1188
Max cut	105mm
Skin barrier diameter	140mm
Fabric	Single side white non-woven fabric
Barrier material	Medical hydrocolloid
Bag color	Double sides transparent
Closure	Clamp
Other structures	\
Box size	215x155x40mm
Carton size	450x330x430mm
Carton specification	20pcs/box, 40boxes/carton

One-piece urostomy bag

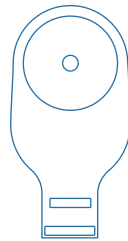

Suitable for patients with urostomy, strong adhesiveness, anti-backflow design, effectively prevent liquid backflow and reduce skin problems. All packages can be customized.

Model	3103
Max cut	60mm
Skin barrier diameter	108mm
Fabric	Single side white non-woven fabric
Barrier material	Medical hydrocolloid
Bag color	Yellow and transparent
Closure	Drain valve
Other structures	Anti-backflow design
Box size	215x155x40mm
Carton size	450x330x430mm
Carton specification	10pcs/box, 40boxes/carton

One-piece convex colostomy bag

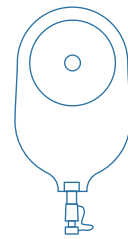

It is suitable for colostomy patients with uneven stoma depressions; It is sealed with velcro, which is convenient for excretion and can observe the condition of the colostomy. All packages can be customized.

Model	1345
Max cut	45
Skin barrier diameter	116mm
Fabric	Single side white non-woven fabric
Barrier material	Medical hydrocolloid
Bag color	Double sides transparent
Closure	Velcro
Other structures	\
Box size	215x155x65mm
Carton size	450x330x430mm
Carton specification	5pcs/box, 24boxes/carton

One-piece convex urostomy bag

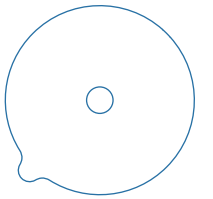

Suitable for urostomy patients with uneven stoma depression, anti-backflow design effectively prevents fluid backflow, prevents leakage and reduces skin problems. All packages can be customized.

Model	3345
Max cut	38mm
Skin barrier diameter	108mm
Fabric	Single side white non-woven fabric
Barrier material	Medical hydrocolloid
Bag color	Double sides transparent
Closure	Drain valve
Other structures	\
Box size	215x155x65mm
Carton size	450x330x430mm
Carton specification	5pcs/box, 24boxes/carton

Two-piece convex skin barrier

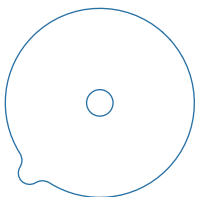

Two-piece convex skin barrier, round shape, convex, 45 flange, max cut 38mm, individual PVC blister packaging. All packages can be customized.

Model	7238
Flange	45
Max cut	38mm
Skin barrier size	108mm
Barrier material	Medical hydrocolloid, foam
Printing line base material	Release film
Box size	155x155x50mm
Carton size	450x330x430mm
Carton specification	5pcs/box, 40boxes/carton

Two-piece convex skin barrier

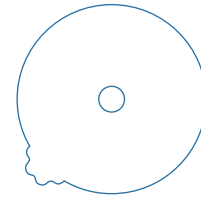

Two-piece convex skin barrier, round shape, convex, 45 flange, max cut 45mm, individual PVC blister packaging. All packages can be customized.

Model	7245
Flange	45
Max cut	45mm
Skin barrier size	116mm
Barrier material	Medical hydrocolloid, foam
Printing line base material	Release film
Box size	155x155x65mm
Carton size	380x320x330mm
Carton specification	5pcs/box, 20boxes/carton

Two-piece skin barrier

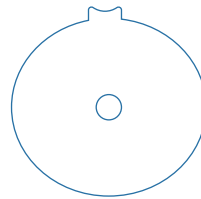

Two-piece skin barrier, KC60 flange, individual PVC blister package, max cut 55mm, match all KC60 range ostomy bags. All packages can be customized.

Model	7260
Flange	KC60
Max cut	55mm
Skin barrier size	108mm
Barrier material	Medical hydrocolloid
Printing line base material	Release film
Box size	155x155x50mm
Carton size	380x286x290mm
Carton specification	5pcs/box, 32boxes/carton

Two-piece convex skin barrier

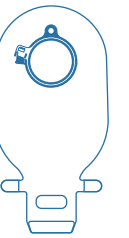

Two-piece skin barrier, round shape, convex, KC60 flange, max cut 40mm, individual PVC blister packaging. All packages can be customized.

Model	7261
Flange	KC60
Max cut	40mm
Skin barrier size	118x108mm
Barrier material	Medical hydrocolloid, foam
Printing line base material	Release film
Box size	155x155x75mm
Carton size	480x330x330mm
Carton specification	5pcs/box, 24boxes/carton

Two-piece colostomy bag

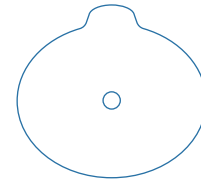

Two-piece colostomy bag, hook and loop sealer, split locking design, easy to disassemble, match tightly. Gray bag body, more concealed and private, integrated V shape carbon filter, reduce odor effectively. All packages can be customized.

Model	4260
Flange	KC60
Fabric	Single side white non-woven fabric
Bag color	Grey and transparent
Other structures	V shape carbon filter
Closure	Hook and loop
Box size	215x155x50mm
Carton size	450x330x430mm
Carton specification	10pcs/box, 32boxes/carton

Two-piece skin barrier

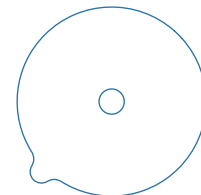

Two-piece skin barrier, oval shape design, KC50 flange, individual PVC blister package, max cut 45mm, match all KC50 range ostomy bags. All packages can be customized.

Model	7150
Flange	KC50
Max cut	45mm
Skin barrier size	108x88mm
Barrier material	Medical hydrocolloid
Printing line base material	Release film
Box size	135x135x45mm
Carton size	380x286x290mm
Carton specification	5pcs/box, 32boxes/carton

Two-piece convex skin barrier

Two-piece skin barrier, round shape, convex, KC50 flange, max cut 30mm, individual PVC blister packaging. All packages can be customized.

Model	7130
Flange	KC50
Max cut	30mm
Skin barrier size	112mm
Barrier material	Medical hydrocolloid, foam
Printing line base material	Release film
Box size	155x155x65mm
Carton size	380x320x330mm
Carton specification	5pcs/box, 20boxes/carton

Two-piece colostomy bag

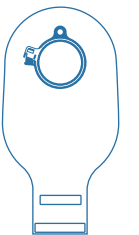

Two-piece colostomy bag, clamp sealer, split locking design, easy to disassemble, match tightly. 10 colostomy bags with 2 clamps, with integrated V shape carbon filter, reduce odor effectively. All packages can be customized.

Model	4152
Flange	KC50
Fabric	Single side white non-woven fabric
Bag color	Grey and transparent
Other structures	V shape carbon filter
Closure	Clamp
Box size	215x155x50mm
Carton size	450x330x430mm
Carton specification	10pcs/box, 32boxes/carton

Two-piece colostomy bag

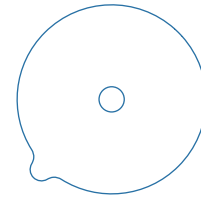

Two-piece colostomy bag, Velcro sealer, split locking design, easy to disassemble, match tightly, with integrated V shape carbon filter, reduce odor effectively. All packages can be customized.

Model	4153
Flange	KC50
Fabric	Single side white non-woven fabric
Bag color	Grey and transparent
Other structures	V shape carbon filter
Closure	Velcro
Box size	215x155x50mm
Carton size	450x330x430mm
Carton specification	10pcs/box, 32boxes/carton

Two-piece skin barrier

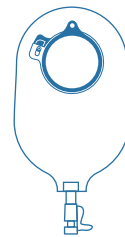

Two-piece skin barrier, round shape design, P60 flange, individual PVC blister package, max cut 50mm, match all P60 range ostomy bags. All packages can be customized.

Model	7220
Flange	P60
Max cut	50mm
Skin barrier size	108mm
Barrier material	Medical hydrocolloid
Printing line base material	Release film
Box size	155x155x50mm
Carton size	380x320x330mm
Carton specification	5pcs/box, 28boxes/carton

Two-piece urostomy bag

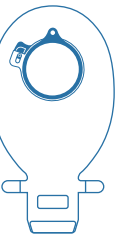

Two-piece urostomy bag, split locking design, easy to disassemble, match tightly, anti-backflow design, prevent fluid reflux effectively and reduce skin problems. All packages can be customized.

Model	6220
Flange	P60
Fabric	Single side white non-woven fabric
Bag color	Grey and transparent
Other structures	Anti-backflow design
Closure	Drain valve
Box size	215x155x50mm
Carton size	450x330x430mm
Carton specification	10pcs/box, 32boxes/carton

Two-piece colostomy bag

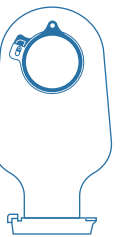

Two-piece colostomy bag, hook and loop sealer, split locking design, easy to disassemble, match tightly. Big bag volume, gray bag body, more concealed and private, integrated V shape carbon filter, reduce odor effectively. All packages can be customized.

Model	4220
Flange	P60
Fabric	Single side white non-woven fabric
Bag color	Grey and transparent
Other structures	V shape carbon filter
Closure	Hook and loop
Box size	215x155x50mm
Carton size	450x330x430mm
Carton specification	10pcs/box, 32boxes/carton

Two-piece colostomy bag

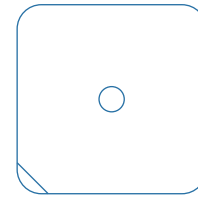

Two-piece colostomy bag, clamp sealer, split locking design, easy to disassemble, match tightly, gray bag body, more concealed and private, integrated V shape carbon filter, reduce odor effectively. All packages can be customized.

Model	4221
Flange	P60
Fabric	Single side white non-woven fabric
Bag color	Grey and transparent
Other structures	V shape carbon filter
Closure	Clamp
Box size	215x155x50mm
Carton size	450x330x430mm
Carton specification	10pcs/box, 32boxes/carton

Two-piece skin barrier

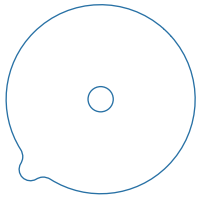

Two-piece skin barrier, square shape, 45 flange, max cut 45mm, individual PVC blister packaging, this model can make 45, 57, 70 flange. All packages can be customized.

Model	7202
Max cut	45mm
Skin barrier size	108x108mm
Flange	45
Can be manufactured	45、57、70 flange
Barrier material	Medical hydrocolloid
Printing line base material	Release film
Box size	155x155x35mm
Carton size	380x320x330mm
Carton specification	5pcs/box, 40boxes/carton

Two-piece skin barrier

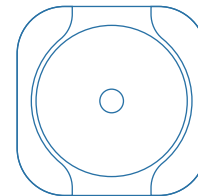

Two-piece skin barrier, round shape, 70 flange, max cut 70mm, single-piece PVC blister packaging, this model can make 45, 57, 70 flange. All packages can be customized.

Model	7471
Max cut	70mm
Skin barrier size	118mm
Flange	70
Can be manufactured	45、57、70 flange
Barrier material	Medical hydrocolloid
Printing line base material	Release film
Box size	155x155x35mm
Carton size	380x320x330mm
Carton specification	5pcs/box, 40boxes/carton

Two-piece skin barrier

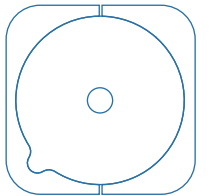

Two-piece skin barrier, square shape, round skin barrier, square spunlace reinforcement, 57 flange, single-piece PVC blister packaging, max cut 57mm, this model can make 45, 57, 70 flange. All packages can be customized.

Model	7310
Max cut	57mm
Skin barrier size	108x108mm
Flange	57
Can be manufactured	45、57、70 flange
Barrier material	Medical hydrocolloid and spunlace
Printing line base material	Release film
Box size	155x155x35mm
Carton size	380x320x330mm
Carton specification	5pcs/box, 40boxes/carton

Two-piece skin barrier

Two-piece skin barrier, square shape, round skin barrier, square spunlace reinforcement, 57 flange, single-piece PVC blister packaging, max cut 57mm, this model can make 45, 57, 70 flange. All packages can be customized.

Model	7303
Max cut	57mm
Skin barrier size	105mm
Flange	57
Can be manufactured	45、57、70 flange
Barrier material	Medical hydrocolloid and spunlace
Printing line base material	Release paper
Box size	155x155x35mm
Carton size	380x320x330mm
Carton specification	5pcs/box, 40boxes/carton

Two-piece colostomy bag

Two-piece medical twist tie type colostomy bag, one side yellow and one side transparent EVOH film bag body, with integrated V shape carbon filter, connected by a transparent buckle system, this model can make 45, 57, 70 flange. All packages can be customized.

Model	Y4202
Flange	45
Can be manufactured	45、57、70 flange
Fabric	Single side white non-woven fabric
Bag color	Yellow and transparent
Other structures	V shape carbon filter
Closure	Medical twist tie
Box size	215x155x40mm
Carton size	450x330x430mm
Carton specification	10pcs/box, 40boxes/carton

Two-piece colostomy bag

Two piece colostomy bag, Velcro sealer, double sides brown EVOH film bag body, with integrated V shape carbon filter, connected by a transparent buckle system, this model can make 45, 57, 70 flange. All packages can be customized.

Model	Y4403
Flange	70
Can be manufactured	45、57、70 flange
Fabric	Single side white non-woven fabric
Bag color	Double sides brown
Other structures	V shape carbon filter
Closure	Velcro
Box size	215x155x40mm
Carton size	450x330x430mm
Carton specification	10pcs/box, 40boxes/carton

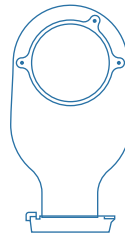

Two-piece colostomy bag

Two-piece clamp type colostomy bag, double sides transparent EVOH film bag body, with integrated V shape carbon filter, connected by a transparent buckle system, this model can make 45, 57, 70 flange. All packages can be customized.

Model	4371
Flange	57
Can be manufactured	45、57、70 flange
Fabric	Double sides white non-woven fabric
Bag color	Double sides transparent
Other structures	V shape carbon filter
Closure	Clamp
Box size	215x155x40mm
Carton size	450x330x430mm
Carton specification	10pcs/box, 40boxes/carton

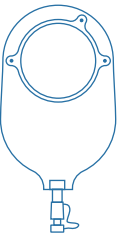

Two-piece urostomy bag

Two-piece urostomy bag, double sides transparent EVOH film bag body, anti-backflow design, connected by a transparent buckle system, this model can be made into 45, 57 flange. All packages can be customized.

Model	6201
Flange	45
Can be manufactured	45、57 flange
Fabric	Single side white non-woven fabric
Bag color	Double sides transparent
Other structures	Anti-backflow design
Closure	Drain valve
Box size	215x155x40mm
Carton size	450x330x430mm
Carton specification	10pcs/box, 40boxes/carton

OSTOMY ACCESSORIES

// All packages can be customized

Protective Barrier Ring

Model: 402A(2mm)
402A(4mm)

Carton Spec: 10pcs/box, 100boxes/carton

This product is used to fill in uneven skin, wrinkles, etc. around the stoma and prevent leakage when using an ostomy bag.

Adhesive Remover Wipe

Model: 404D

Carton Spec: 50pcs/box, 40boxes/carton

This product is used to clean up the residue attached to the skin after stripping the skin barrier.

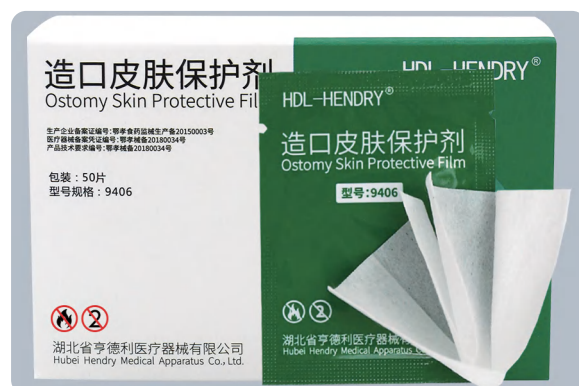

Ostomy Skin Protective Film

Model: 9406

Carton Spec: 50pcs/box, 40boxes/carton

This product is used to protect peristomal skin from excreta and skin barrier irritation.

// Product usage

–These products are mainly used for stoma cleaning, care and skincare around the stoma.

// Scope of application

–These products are mainly in contact with the intact skin around the stoma, fills the skin folds and uneven places, and prevents a series of skin problems caused by the use of the ostomy bag.

Adhesive Remover Spray

Model: 404C(60ml)

Carton Spec: 100pcs/carton

This product is used to remove the skin barrier and can be easily peeled off after use to protect the skin from peeling damage.

Ostomy Skin Protective Spray

Model: 9403(60ml)

Carton Spec: 100pcs/carton

This product is used on the skin around the stoma. It forms a protective film when used, which can protect the skin from adhesive damage and avoid skin irritation.

Ostomy Skin Care Powder

Model: 9601(25g)

Carton Spec: 100pcs/carton

This product is mainly in contact with the intact skin around the stoma, keeping the skin around the stoma dry and reducing skin irritation from exudates.

Ostomy Paste

Model: 9506

Carton Spec: 100pcs/carton

This product is used to fill the uneven skin around the stoma, prevent leakage and protect the skin when using the ostomy bag.

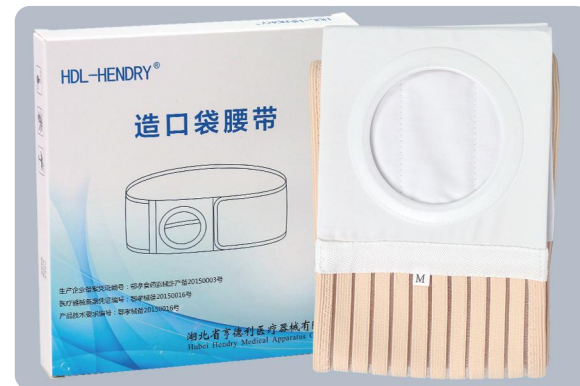

Ostomy Belt

Model: 9202

Size: S/M/L/XL

Carton Spec: 50pcs/carton

This product is worn by people with a large amount of activity. It can prevent and improve hernia, and effectively prevent the bag from shifting or falling off during activities.

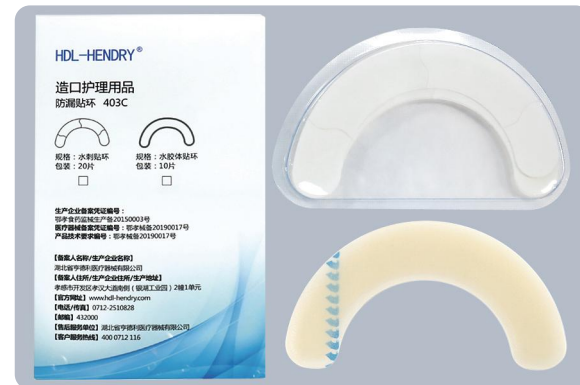

Skin Barrier Strip

Model: 403C

Carton Spec: 20pcs/box, 90boxes/carton

This product is used to enhance the adhesiveness between the skin barrier and the skin to avoid edge warping.

Ostomy Belt

Model: 9201/White 9206/Gray 9209/Transparent

Carton Spec: 240pcs/carton

This product is used to reinforce the ostomy bag, which can improve the adhesiveness of the film and prevent the ostomy bag from shifting or falling off due to the patient's physical activities.

Dressing Scissors

Model: 9901

Carton Spec: 140pcs/carton

This product is used to cut holes in the ostomy bag skin barrier.

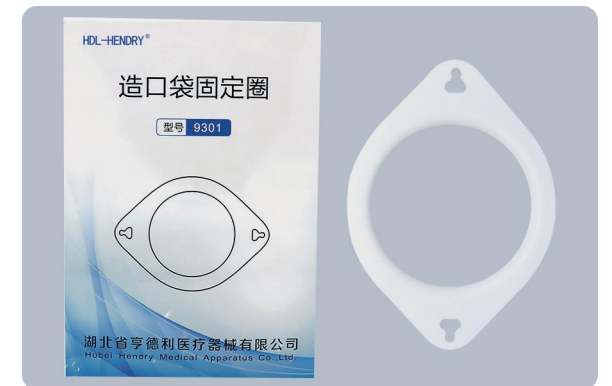

Ostomy Fastened Ring

Model: 9301

Carton Spec: 150pcs/carton

This product is used to reinforce the one-piece ostomy bag and needs to be used with a belt.

Ostomy Bag Cover

Model: 9903

This product is used to cover the ostomy bag and is designed in neutral colors to minimize visibility under clothing and reduce noise caused by bag friction.

Waterproof Protector

Model: 9303

Carton Spec: 90pcs/carton

This product is used to wear when bathing to prevent the ostomy bag from getting wet and falling off.
