

ETG company was established in 2011 and from then its turnover increased every year. We registered as protected trade marks, and so we obtained an important growth of our intangible assets. The number of our customers continually increased, as did the turnover per customer and the range of contracted products. Our company has now over 500 active customers. While our accomplishments are significant, also our company plans and goals are very ambitious.

We will maintain the quality of our services, we will diversify our sales channels, we will uphold a targeted approach and explore a the niches of the marked and so we will reach our goals of widening our products spectrum. We will maintain and continuously improve the quality of our services. This way we will be able to make further investments in remium equipments.

#### **ABOUT US**

We want to make our online presence stronger by developing a new web platform used to launch print products orders online. This platform is an unique project in R.Moldova.

The customer can upload its own graphic design or it can choose from a wide range of creative products, it can personalize and view online the printed forms, the paper cases, the posters, the business cards, the flyers, the leaflets, headed papers, greeting cards, wedding invitations or any advertising material.

### OUR STRENGTHS

OUR SERVICES This major project will include a forum - blog that will tackle print related issues, creative ideas, other subjects that will establish and prove the position of our company as an important player in this field. We intent to massively develop the digital printing business by getting more new generation ultraperformant digital printing and finishing equipments.

We firmly believe that the promotion products should be superior to the level of the company they promote, and this way to add value to the said company, boosting it's position, and so we encourage all our customers to chose printing on special materials and creative solutions.
