

I-MAT2

→ Class 2 insulating mat

STANDARD

CEI 61111:2009

USE

In addition to the Personal Protective Equipment, the mat isolates the operator from the ground so that he is not crossed by an electric current in case of direct contact or step voltage.
Maximum operating voltage 17 000 V.
Test voltage of 20 000 V.
Resistance voltage of 30 000 V.
Permanently vulcanized marking tape.

TECHNICAL SPECIFICATIONS

Non-slip on both sides.
Material: Elastomer.

The smooth vulcanized elastomer is available in grey, with a thickness of 3 mm and weight of 3,4 kg/m².

Référence	Dimensions
I-MAT206X10	0,6 x 10 m
I-MAT206X1	1 x 0,6 m
I-MAT21X10	1 x 10 m
I-MAT21X1	1 x 1 m
