Frequently asked questions (FAQs)

- How often can the plate septa on the 3130/xl, 3730/xl, 3500/xl, and SeqStudio instruments be used?

▼
- When I started my run on the Applied Biosystems 3500/3500xL Genetic Analyzer, an error occurred: "Unstable Electrophoresis current detected, check for air bubbles" but I don't see any bubbles. What else can cause this?

▼
- Do I need to replace the buffer every 14 days if the Applied Biosystems 3500/3500xL Genetic Analyzer is not in use?
