## DRAINAGE

We offer a broad selection of premium-quality stents from specialty to everyday usage. Our Single-J and Double-J as well as UroGuide stent minimize encrustation thanks to being made of silicone. Silicone is used in various medical applications because of its softness which allows easy insertion and removal of the stent.

Olympus understands your procedural needs and has pioneered advanced drainage technology without compromise. As an indication of the quality of the material, all TecoFlex stents are approved for 365 days of indwelling time.

### Silicone Stents

#### Single-J Stent

Single-J stent with 90 cm length for superior drainage.

#### Double-J Stent

Silicone stent with closed tips for reliable drainage after stone treatment.

#### UroGuide Stent

### TecoFlex Stents

#### LithoStent

#### Quadra-Coil Stent

#### Classic Double Pigtail Stent

Soft TecoFlex stent for high patient comfort due to the softness of the material.
