

# Applied Biosystems® GlobalFiler® PCR Amplification Kit

GlobalFiler® PCR Amplification Kit (Cat. Nos. 4482815 and 4476135)

We have performed developmental validation experiments in accordance with the DNA Advisory Board (DAB) Quality Assurance Standards (October 1, 1998) and guidelines from the Scientific Working Group on DNA Analysis Methods (SWGDM) (July 10, 2003) to evaluate the performance of the GlobalFiler® PCR Amplification Kit. We have validated the GlobalFiler® PCR Amplification Kit for use in human identification testing.

Each laboratory using the GlobalFiler® PCR Amplification Kit should perform its own appropriate internal validation studies to establish interpretation criteria and demonstrate that the GlobalFiler® PCR Amplification Kit is appropriate and fit for its own human identification uses.
