

Technical Specifications

ErgoJust Cart Configuration

Height	198.1 cm (78 in)
Width at Widest Point	55.9 cm (22 in)
Depth at Widest Point	81.9 cm (32.25 in)
Weight (Cart Only)	44.4 kg (98 lb)
Height with Video Assembly	198 cm (78 in)
Footprint Dimensions	50.8 x 66 cm (20 x 26 in)

Work Surface

Work Surface Dimensions (WxD)	55.9 x 43 cm (22 x 17 in)
Work Surface Material	plastic
Keyboard Tray Dimensions (WxD)	47 x 20.3 cm (18.5 x 8 in)
Keyboard Tray Material	plastic

Work Surface Range of Motion Dimensions

Fully Raised	114.3 cm (45 in)
Fully Lowered	78.74 cm (31 in)
Fully Lowered Clearance	68.6 cm (27 in)

Accessories

Basket Dimensions (HxWxD)	15.2 x 33.6 x 8.2 cm (6 x 13.25 x 3.25 in)
Basket Materials	plastic
Handle Height (from Ground)	109.2 cm (43 in)
Handle Width	40.6 cm (16 in)
Compatible Display(s)	VESA MIS-D, 100/75, C (100 x 100 mm and 75 x 75 mm)

Compatible Natus ErgoJust EEG Cart Equipment

- Brain Monitor Base Unit
- EMU40EX Base Unit
- Natus Quantum Base Unit
- Supplies Basket
- EEG/Sleep Acquisition Desktop 110V (Small-form factor only)
- 24" FP Monitor (or equivalent monitor that meets size and weight requirements)
- LED Photic Stimulator
- IP PTZ ErgoJust Video Extension
- IP PTZ HD ErgoJust Video Extension
- EMU40EX / Brain Monitor / Quantum Headbox Side Quick Disconnect Kit
- EMU40EX / Brain Monitor / Quantum Wall/Pole Side Quick Disconnect Kit
- Comet-PLUS Headbox Side Quick Disconnect Kit
- Isolation Transformer
- Medical Grade UPS with Isolation

Regulatory Compliance

The Natus ErgoJust cart meets the following safety standards set by domestic and international regulatory agencies for Medical Electrical Equipment.

UL 60601-1

CSA 22.2 No. 601.1-M90

IEC/EN 60601-1

Xltek® Trex™ HD

Capture high quality video/EEG data without confining your patients

Optimize your clinical workflow with the next generation of advanced Video EEG ambulatory monitoring, featuring unsurpassed video quality and simple setup.

Compact patient carrying case

HD video

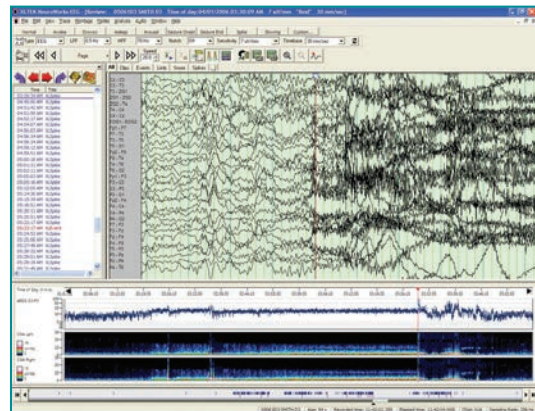

Trex HD

Small & lightweight
Xltek Trex HD amplifier,
featuring exceptional
EEG signal quality

Flexible camcorder
setup options

- Up to 96 hours of best in class HD video, wirelessly synchronized with EEG
- No cables or computer to set up at home – avoid costly patient home visits
- Start and stop video without affecting synchronization
- Lightest ambulatory amplifier in the industry
- Enhanced patient comfort & mobility
- Perfect for both EEG & full featured sleep studies
- Compatible with Natus® NeuroWorks®/SleepWorks 7.1 or later software

Call your Natus Neurology sales representative today at 1-800-303-0306 for additional information and pricing.

Database Migration

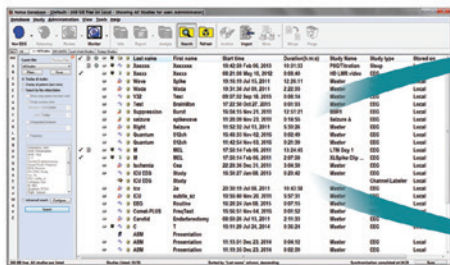

Simplifying Migration to Natus EEG/PSG

Some of our most popular legacy EEG and Sleep monitoring devices are now compatible with Natus NeuroWorks and SleepWorks software. The Database Migration tool imports studies recorded with legacy Natus devices into the NeuroWorks/SleepWorks database, providing convenient review of all studies from a single database platform. Now there are even more reasons for our customers to adopt Natus NeuroWorks and SleepWorks.

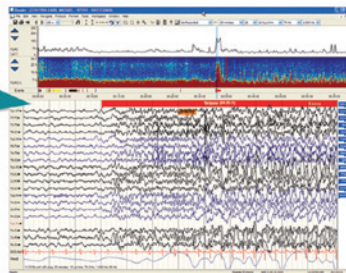

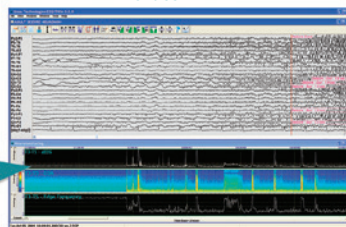

Product Features:

- Unified database allowing review of studies recorded with legacy Natus devices
- Preserves legacy data, including patient demographics, study information and EEG/PSG reports
- Currently available for studies recorded with Nicolet® NicVue, Nicolet® StudyRoom and Grass® TWin

Natus Database triggers the native review application to activate and open the selected study

Grass TWin

Nicolet NicVue/StudyRoom

Call your Natus Neurology sales representative today at
1-800-356-0007
for additional information.

Lab-quality EEG recordings
from home testing

Extend your reach with ambulatory services

Ambulatory EEG has become an integral part of seizure detection with accurate testing and data recorded from the comfort of the patient's own home. With Trex HD's exceptional signal quality in a compact hardware device, patients are free to move without constraint while valuable EEG data is recorded for clinical review.

Available in two amplifier systems, Trex HD and Trex HD Monitoring, both of which are multi-modality, full-channel ambulatory recorders, deliver reliability, flexibility and performance. Both systems allow for EEG and Type II Sleep recording and wireless Bluetooth® connectivity options.

Trex HD and Trex HD Monitoring amplifiers easily connect to a portable computer via a high-speed USB cable and can upload 24 hours of EEG data in less than five minutes. Combined with Natus NeuroWorks® and SleepWorks™ software, the system enhances workflow with easy, intuitive functions to help you efficiently and effectively review data.

Natus NeuroWorks software

Industry leading software with an extensive and flexible feature set for a variety of environments

Leading-edge software that provides an intuitive clinical experience

- Windows® 10 compatible
- Multiple spike and event analysis options, plus many additional Advanced Trending options
- Fully synchronized, easy to set up, full HD (1080p), onboard and wireless cameras

Security and peace of mind for IT professionals and clinicians working together

- XLSecurity Layer with role-based security package and drive encryption
- Searchable and powerful enterprise level SQL server distributed database
- Bi-directional HL7 integration with HIS/EMR

Trex HD hardware option features and benefits

- Start and stop video without affecting synchronization
- Lightweight wearable amplifier for enhanced patient comfort and mobility
- Flexible for both EEG & full-featured sleep studies performed ambulatory and in-lab
- Optional power pack for 72 hours battery life
- Internal SD card storage space to record up to 96 hours of ambulatory EEG data

Natus NeuroWorks ambulatory EEG hardware

Durable, reliable, high-quality amplifiers for dependable data acquisition

Trex HD Monitoring video ambulatory system

Provide continuous EEG monitoring in real-time with a complete uniform solution for observing, recording and annotating all types of EEG testing in both pediatric and adult patients

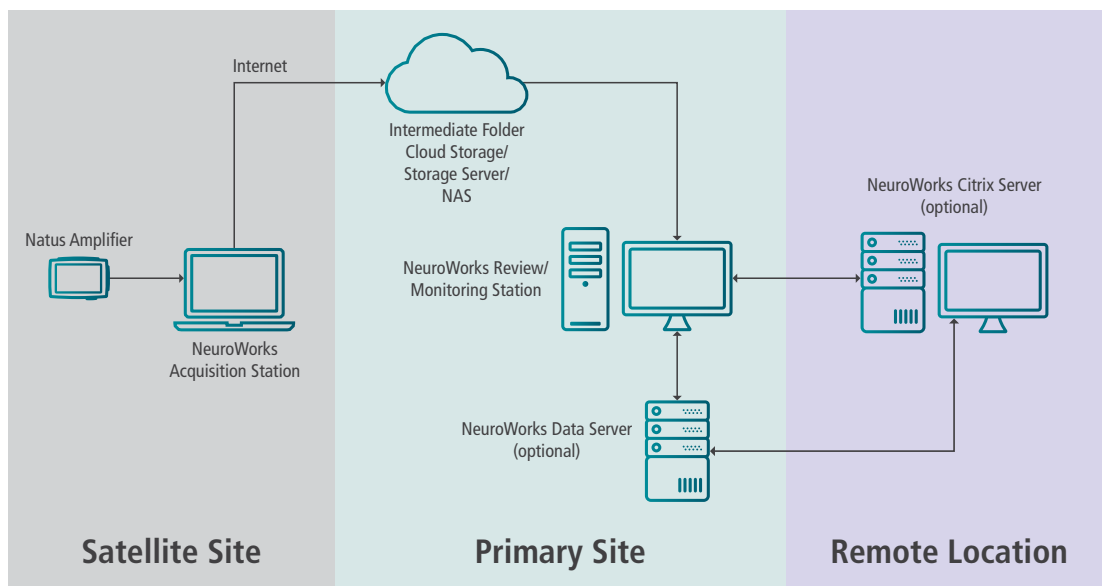

- Features high-definition USB and integrated camera options
- Automated export of study data from the patient's home setting to clinic servers
- Bluetooth pairing for synchronized video recording

Trex HD video ambulatory system

Provide a reliable, simple solution for monitoring in the patient's home environment with HD video recording directly on a camcorder memory card, eliminating all cabling. Record high-quality video around the clock utilizing IR for night recording

- Up to 96 hours of best-in-class HD video, wirelessly synchronized with EEG
- No cables or computer to set up at home – avoid costly patient home visits

Eliminates the need for Citrix infrastructure at each satellite site

Data security

Set up individual user or group access and permissions for the system and within the application. Assign separate lock-down rules for different computers on the same network. Access Audit Logs to review user activity on the system. Security is integrated with Microsoft® Active Directory and peace of mind is enhanced with system encryption.

EEG supplies solutions

Convenient, complete, trusted

Natus supports the full spectrum of EEG care, providing a complete portfolio of EEG supplies for a seamless solution.

- Dedicated and knowledgeable customer support
- Streamlined order processing
- Convenient online ordering (US Customers only)
Natus Medical Store – natusmedicalstore.com

Service

At Natus, we strive for excellence in customer and technical service.

Here's how we can help:

- Accessible and effective Technical Support
- Definitive technical documentation and knowledgeable installation teams
- Optional extended warranty and service coverage programs
- Comprehensive, flexible customer training courses

natus®

Natus Medical Incorporated

natus.com

Technical Specifications

Part Number PK1170, PK1171
Use Cases High Channel LTM, Intracranial

Analog Specifications - AC Channels

Referential Channels 256
Differential Channels Up to 8 per 128 Breakout (112 Ref.)
Common Mode Rejection Ratio ≥ 110 dB @ 60 Hz
Common Mode Input Impedance > 1 G Ω
Differential Input Range 20 mVpp
Input Noise (peak to peak) ≤ 1.5 μ V (256 Hz), ≤ 40 nV/rtHz wideband
Input Signal Range (peak to peak) 20 mV, ± 0.66 VDC
Input Bias Current < 1 nA
Channel Crosstalk < -67 dB

Analog Specifications – DC Channels

DC Channels (patient side) 4 non-isolated
DC Channels (computer side) 12 isolated
DC Input Range ± 5 V

User Interface

Base Unit

Additional Connections Photoc Stimulator, Digital Trigger, EMU40EX Breakout
Event Switch Connection 1
Display Touchscreen LCD

Breakout Box

Additional Connections
Event Switch, Nonin Xpod® Pulse Oximeter SpO₂, Cortical Stimulator

Digital Specifications

Sampling Frequency 256 Hz, 512 Hz, 1024 Hz, 2048 Hz, 4096 Hz, 8192 Hz, 16384 Hz
Bandwidth 0.01 Hz to $\sim 1/3$ sample rate selected or 4 KHz max
Digital Trigger 8 bit TTL
Pulse Oximetry SpO₂, Plethysmography, Pulse Rate
Sampling Resolution 24 bits
Sampling Quantization 305 nV
Storage Resolution 16 bits

Modes of Operation

Power 70 VA
Input 100 – 230 V, 50/60 Hz
Impedance Check < 2.5 , < 5 , < 10 , < 25 , < 50 k Ω
Channel Test Signal Software Controllable (0.25, 0.5 and 1 Hz; 10 – 2000 μ Vpp)

PC Interface

Network Gigabit Ethernet, DHCP
Direct USB 2.0 Hi-Speed, Ethernet

Amplifier Mechanical

Base Unit to Breakout Box Cable Maximum Length 10 m (32 ft)
Base Unit Size 29.0 x 26.5 x 5.0 cm / 11.4 x 10.4 x 2.0 in
Breakout Size (each) 13.8 x 13.2 x 5.4 cm / 5.4 x 5.2 x 2.1 in
Breakout Weight (each) 650 g

Environmental Conditions for Use

Operating Environmental Limits Temperature 10° C – 30° C
Relative Humidity 30% – 75%
Atmospheric Pressure 700 hPa – 1060 hPa
Transport and Storage Temperature Range -25° C – 60° C
Transport and Storage Humidity Range 10% – 95%
Transport and Storage Atmospheric Pressure Range 500 hPa – 1060 hPa

Regulatory Compliance

CAN / CSA-C22.2 No. 60601-1: 08(R2013) +C2:2011
ANSI / AAMI E560601-1:2005/(R)2012 +C1:2009/(R)2012 and A2:2010/(R)2012
IEC 60601-1:2005 + C1:2006 and C2:2007, 3rd Edition
IEC 60601-1-6:2010, Edition 3.0, IEC 62366:2007, Edition 1.0

EN ISO 80601-2-61:2011, Edition 1
IEC 60601-1-2:2007, Edition 3.0
CISPR11, Edition 5.0 (with A1:2010)

Our most advanced LTM system
in a user friendly package

Long-term monitoring solutions

Enhanced patient mobility and comfort

Continuous monitoring, even when the patient disconnects

Maximum comfort and convenience for clinicians

Sit-to-stand height adjustable, ergonomic cart that provides effortless access to software, devices and supplies

High-quality data

Record up to 256 channels at 16 kHz with the Natus Quantum amplifier

Natus NeuroWorks software

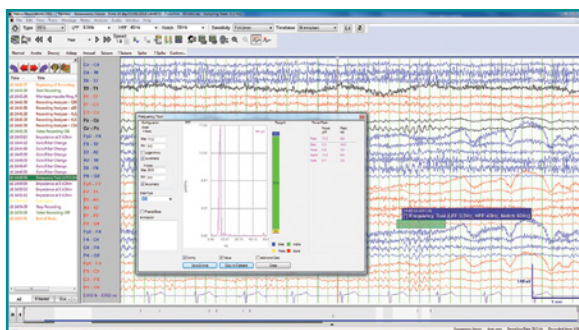

The Natus NeuroWorks platform simplifies the collection, monitoring and management of data for epilepsy studies

Leading-edge software that provides an intuitive clinical experience

- Windows® 10 compatible
- Multiple spike and event analysis plus many additional Advanced Trending options
- Physiological Monitoring Integration options
- Fully synchronized, easy to set up, Full HD (1080p) TCP/IP PTZ network cameras
- Powerful qEEG trending
- Data sharing in multi-site environments

Time-saving administrator functions

- Automated discovery of amplifiers and cameras using DHCP
- Automated settings synchronization across networked NeuroWorks stations

Frequency analysis tool in NeuroWorks

Frequency analysis tool

- Drag the area of interest
- Quickly identify frequency, amplitude and power for selected data
- Display percent for each frequency range

Functional brain mapping

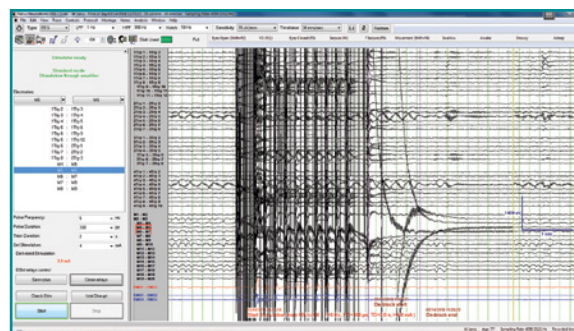

Software integrated Cortical Stimulator compatible with the Natus Quantum amplifier

Built-in backup features for unattended operation

On-board amplifier memory serves as backup in case of an emergency with built-in self-monitoring to rectify problems encountered in unattended operation

Security and peace of mind for IT professionals and clinicians working together

- XLSecurity Layer with role-based security package and drive encryption
- Searchable and powerful enterprise level SQL server distributed database
- Bi-directional HL7 integration with HIS/EMR
- Automated software installation for large sites with Cerebrum Enterprise Solution

Software controlled Cortical Stimulator in NeuroWorks

Cortical stimulator integration into NeuroWorks software

- Control all parameters through the software
- Stimulation parameters as well as delivered current automatically captured into events
- Capture and classify patient response to stimulation
- Creation of reports for Cortical Stimulation procedures

Natus NeuroWorks LTM hardware

A full line of durable, reliable, high-quality amplifiers for dependable data acquisition

Natus Quantum

Ideal for advanced epilepsy diagnostic procedures

- 64-, 128- or 256-channel configurations available with up to 16 differential channels
- Excellent signal quality with up to 16 kHz sampling rate
- On-board memory and battery operation with automated backfill of data
- Data Stream Wizard to speed up clinical workflow when reviewing high sampling data
- Integrated Digital Switch Matrix to facilitate functional brain mapping

Natus EMU40EX

Ideal for scalp and diagnostic studies with wireless capabilities

- 40 AC channels, 4 DC channels, SpO₂
- 1 kHz sampling rate
- Bluetooth wireless technology with on-board memory for live monitoring
- Lightweight, patient wearable breakout box

Natus Brain Monitor*

Ideal for scalp and diagnostic studies

- Up to 64 referential, up to 12 differential, 16 DC channels
- 4 kHz sampling rate
- On-board impedance check

*requires NeuroWorks 9.0 or higher

Cortical Stimulator

Functional brain mapping for brain tumor and epilepsy surgery

- Use as standalone or software controlled
- Provides direct, constant current stimulation to the brain
- User configurable frequency, duration and current levels
- Displays selected and actual current delivered

Natus Base Unit

Universally compatible with Quantum, EMU40EX and

Natus Brain Monitor amplifiers

- Touchscreen display with real time interaction with ongoing studies
- Visual impedance checking and adding notes
- Perform bio-calibrations from the patient bedside
- Trigger input for research
- Includes 12 DC Inputs

Data security

Set up individual user or group access and permissions for the system and within the application. Assign separate lock-down rules for different computers on the same network. Access Audit Logs to review user activity on the system. Security is integrated with Microsoft® Active Directory and peace of mind is enhanced with system encryption.

Natus cybersecurity program

Proactively addressing cybersecurity as an integral part of our design process

- Secure handling of confidential information generated or maintained by our hardware and software
- Continuous evaluation of our products against identified threats and vulnerabilities in medical technology
- Monitoring of feedback channels to manage security events in the field

Supplies

natus.com

A common software platform for EEG, Sleep and research studies

What's new in NeuroWorks

- Advanced Trending
- Physiological Monitoring Integration
- Support for new LTM data management
- Improved display of annotations and navigation to regions of interest across a set of studies
- Windows® 10 compatibility
- Support for Quantum on-board memory and Nicolet Cortical Stimulator integrations
- Support for new cutting-edge Brain Monitor
- Frequency Analysis Tool
- Addition of Full HD (1080p) video

The Natus NeuroWorks platform simplifies the process of collecting, monitoring and managing data for routine EEG testing, long-term monitoring (LTM), ICU monitoring, ambulatory and Sleep studies. NeuroWorks systems are scalable to meet the needs of private practice clinics, hospitals and large teaching facilities.

Intuitive clinical experience

- Multiple Spike & Event analyzer options
- Fully synchronized HD video
- Monitoring options for home ambulatory studies
- Scalable remote access with Citrix provisioning
- Powerful qEEG trending

Streamlined workflow

- Easy data searching with a variety of customizable parameters
- Automated settings synchronization across networked NeuroWorks stations
- Convenient import and export with EDF/EDF+
- Data sharing in multi-site environments

Time-saving administrator functions

- Ease of setup using IP streaming cameras and amplifiers
- Powerful enterprise level SQL database
- Automated discovery of amplifiers and cameras using DHCP

NeuroWorks configures to your network and security needs

Robust Security Features

- HIPAA requirements via dedicated XLSecurity layer
- Role-based security access to features and studies
- Automated power recovery
- Microsoft® BitLocker™ drive encryption support

Advanced IT Capabilities

- Bi-directional HL7 integration with HIS/EMR
- Citrix® and VMWare® Ready partner – the most powerful infrastructure to facilitate collaboration

A cutting-edge, single solution for EEG and Sleep Studies

Advanced software for clinical excellence

- EEG/Sleep combo software package
- User customizable personal workspaces
- Software Development Kit for direct data access for research
- Data-Stream Wizard with two data streams for efficient clinical and research workflow*

Reliable and flexible hardware options

- Patient wearable compact and lightweight amplifiers
- Range of EEG amplifiers with 32- to 256- channels, plus differential and DC channel options
- Wireless amplifier options for long-term monitoring
- Range of sampling rates from 200 Hz to 16 kHz
- Perform EEG recordings in DC mode**
- Advanced Digital Trigger Input (up to 256 trigger values)**

A family of amplifiers to meet your needs

Continuous brain monitoring wherever and whenever you need it – changing the standard of care in the ICU

Powerful neurological monitoring for clinical confidence

- Assist in diagnosis of patient's cerebral function
- Many Advanced Trending options to assist with quick identification of pathological signals for immediate intervention
- Physiological Monitoring Integration options
- Online observation can help the physician identify irreversible brain damage

Security and peace of mind for IT professionals and clinicians

- XLSecurity Layer with role-based security package and drive encryption
- Searchable and powerful enterprise level SQL server distributed database
- Bi-directional HL7 integration with HIS/EMR
- Automated software installation for large sites with Cerebrum Enterprise Solution

Natus NeuroWorks software

- Simple and intuitive interface designed specifically for intensive care workflow
- Cart-mounted for portability or mounted directly on a column or wall
- Leading-edge software with powerful trending options including qEEG
- True TCP/IP amplifiers and cameras with DHCP support plug and play anywhere on the network
- Data sharing in multi-site environments

Brain monitoring using Natus' renowned NeuroWorks system provides critical and immediate patient cerebral function to ICU staff and remote monitors for physician review.

Natus Brain Monitor*

A quantum leap in amplifier technology in an ultra-small package

Natus Quantum is our most innovative amplifier for epilepsy monitoring and research. Designed specifically to meet the versatile needs of today's modern Epilepsy Units and research centers, the Quantum enables clinical EEG, long-term scalp and intracranial epilepsy monitoring and research.

A compact, patient wearable amplifier with the most advanced technology

- Clinical EEG, long-term scalp and intracranial epilepsy monitoring and research
- 256 referential channels, up to 16 differential channels
- Excellent signal quality with up to 16 kHz sampling
- On-board memory with automated backfill of data for improved mobility
- Data-Stream Wizard (DSW) for efficient clinical and research workflow

EC Certificate - Full Quality Assurance System

Directive 93/42/EEC on Medical Devices, Annex II excluding Section 4

No. CE 592232
Issued To: **Natus Neurology Incorporated**
3150 Pleasant View Road
Middleton
Wisconsin
53562
USA

In respect of:

Design and manufacture of Electro-Neurophysiologic Diagnostic and Monitoring Devices and Sterile and Non-Sterile Invasive Electrodes.

on the basis of our examination of the quality assurance system under the requirements of Council Directive 93/42/EEC, Annex II excluding section 4. The quality assurance system meets the requirements of the directive. For the placing on the market of class III products an Annex II section 4 certificate is required.

For and on behalf of BSI, a Notified Body for the above Directive (Notified Body Number 2797):

Gary E Slack, Senior Vice President Medical Devices

First Issued: **2013-02-12**

Date: **2020-03-25**

Expiry Date: **2023-07-01**

...making excellence a habit.™

Page 1 of 1

Validity of this certificate is conditional on the quality system being maintained to the requirements of the Directive as demonstrated through the required surveillance activities of the Notified Body. This approval excludes all products designed and/or manufactured by a third party on behalf of the company named on this certificate, unless specifically agreed with BSI.

This certificate was issued electronically and is bound by the conditions of the contract.

natus Middleton	DOCUMENT NUMBER QMS-002131	Page 1 of 5
	TITLE Declaration of Conformity for EP-EMG-EEG- MDD-ROHS3	REV 12

Natus Neurology Incorporated
3150 Pleasant View Road
Middleton, Wisconsin 53562 USA

**European Declaration of Conformity
to the Medical Device Directive, 93/42/EEC
as Amended by 2007/47/EC**

Declaration Number: QMS-002131
Product Name: Natus Neurology Diagnostic and Monitoring Devices - Class IIb
Product Model Number: see Annex: Product List
Description: Electroencephalography (EEG), Electromyography (EMG) and Evoked Potential (EP) Diagnostic and Monitoring Devices

Natus Medical Incorporated hereby declares that the above medical devices which bear the CE Mark are in conformity with the applicable requirements of EC Directive 93/42/EEC with amendments up to 2007/47/EC as enforced in the national laws of the European Union member states.

Classification/Rule: Class IIb, by Annex IX, Rule 10
Conformity Assessment Route: Annex II (excluding section 4)

This declaration is based on Certification of a full Quality Assurance System and compliance to the Medical Device Directive.

Certificate No.: CE 592232
Issued by: BSI Group The Netherlands B.V. (No 2797),
Say Building, John M. Keynesplein 9,
1066 EP Amsterdam,
Netherlands
Expiry Date: 01 Jul 2023

Additionally: Natus hereby declares, under its sole responsibility as Legal Manufacturer and not evaluated by the Notified Body listed above, that the product specified on this Declaration of Conformity is in conformity with Commission Delegated Directive 2015/863 of 31 March 2015 amending Annex II to Directive 2011/65/EU of the European Parliament and of the Council as regards the list of restricted substances. It has been demonstrated that the requirements specified in Annex II of Directive 2015/863 have been met.

This declaration of conformity is valid from August 31, 2021.

EU Authorized Representative:
Natus Manufacturing Limited
IDA Business Park, Gort,
Co. Galway, Ireland

Signature:  **date August 31, 2021**
Sanjay Mehta (Director Global Regulatory Affairs, QARA)
