Test case verdicts

Test case does not apply to the test object	N(.A.)
Test item does meet the requirement:	P(ass)
Test item does not meet the requirement:	F(ail)
Testing	CE FO POUR PI
Date of receipt of test item	May 29, 2018
Date(s) of performance of test:	May 29, 2018- Jun 06, 2018

General remarks

This test report shall not be reproduced except in full without the written approval of the testing laboratory.

The test results presented in this report relate only to the item tested.

"(see remark #)" refers to a remark appended to the report.

"(see appended table)" refers to a table appended to the report.

Throughout this report a comma is used as the decimal separator.

Remark :

This European Standard has been prepared by Technical Committee CENITC 160, Protection against falls from height including working belts, the Secretariat of which is held by DIN

General product information:

The all models are similar except their model number and color, and all test are based on FZL-YD-900
