ABOUT US

President

Wang Zhongxiao

KINGPHAR MEDICAL GROUP is a group enterprise engaged in weaving, bleaching, medical supplies production etc. The subsidiary include Hubei Qianjiang Kingphar Medical Material Co.,Ltd, Hubei Kingphar World Healthcare Co.,Ltd, Qianjiang Kingphar Medical Packaging & Printing Co., Ltd, Hubei HeCom Medical Device Co., Ltd and Wuhan Kingphar Medical Device Co., Ltd. We have the right to import and export by ourselves. The company headquarter is located in Qianjiang City in Hubei Province, a Chinese Star-City in beautiful & rich Jiangnan Plain. Leads to Wuhan airport eastward, Yangtze River southward, Han River northward, and adjacent to Shanghai - Chongqing highway, it has a convenient traffic. Meanwhile Qianjiang is one of the main production base for cotton and rice, and a beautiful water town, it is also a resourceful city.

With more than 800 staffs, various loom, folding machine, sewing machine, sterile package equipment and bandages machine of 1,000 sets, ETO and Steam sterilizer and pure oxygen roll-type-bleaching lines. Our Surgical dressing/Medical supplies production capacity is more than 800 x 40' FCL.

Our main production focus on Medical Gauze Series, Non-woven Series, Absorbent Cotton Series, Bandage Series, which are widely used for Wound care, Dental Disposable, Surgical/OR, First Aid, Home care, and Cosmetic. The products include but not limited to Absorbent Cotton Gauze Roll, Gauze Swabs (Sponges), Laparotomy (Abdominal) Sponges, Gauze Ball, Non-woven Swabs (Sponges), Elastic Bandage, Gauze Bandage, Cotton Filled (Dental) Sponges, Tracheostomy (Drain) Sponges, Absorbent Cotton Wool, Cotton Ball, Cotton Pad, Wound Dressing Pad, Tape & Plaster, and so on. All of these products are available in multiple specifications; in sterile or non-sterile package. Meanwhile we can also supply the other products according to customer's specific requests and samples. We have exported our products to more than 80 countries and regions for years and enjoy a well-earned reputation for overall reliability.

Since our establishment, we have been persisting in the aim of "seeking lifeblood and development through quality" and have been focusing in scientific and strict inter-enterprise management & administration. The production environment is strictly according to GMP standards with cleaning room of Class 100,000, also we have the reasonable production overall arrangement and advanced production facilities.

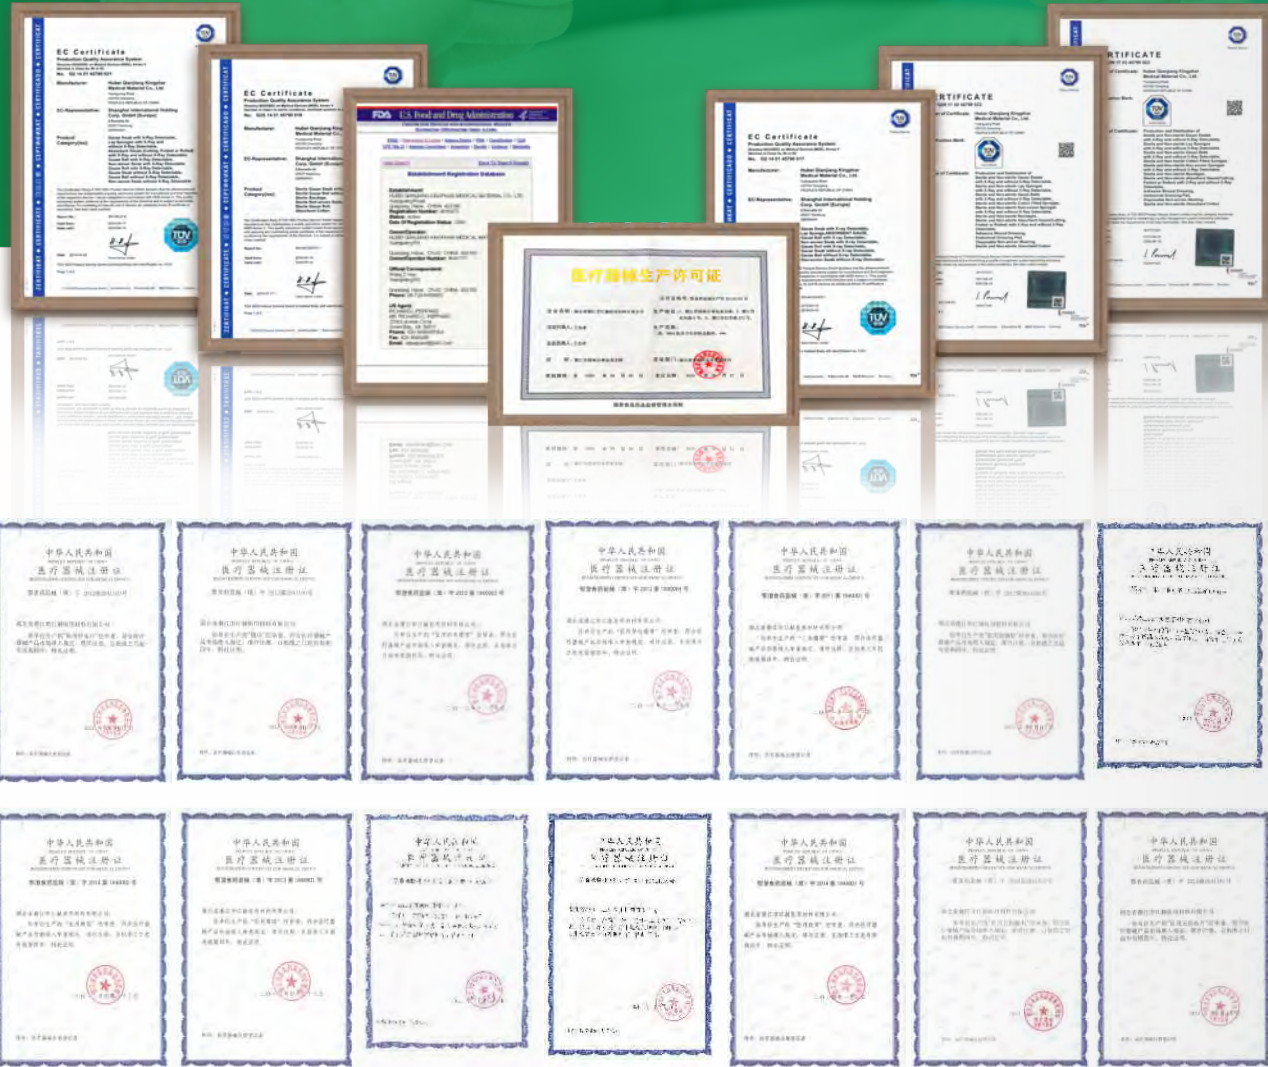

In 1998, we got the certificate of ISO9002 & EN46002 from TUV Product Service GmbH, Germany, a well-known Notify Body in the world. In 2004, we received the certificate of ISO,13485 & EC 93/42EEC. In 2005 we passed the audit of ISO,13485, a professional requirement for medical devices. In 2009 we passed the audit of EN ISO, 11135-1 for ETO sterilization. In 2017 we got the certificate of EN ISO,17665-1 for steam sterilization. Meanwhile, we also passed the FDA factory audit. We can assure you the higher and more stable quality by our strict QA/QC systems.

With the professional inspection team and complete inspection facility, we can carry out all related testing items according to USP, BP, EP etc. Meanwhile we have own Bioburden/Sterility testing facility and measures, in which can make all the related testing and control.

Kingphar Medical's mission is to provide the satisfied quality, competitive price, swift delivery and excellent service to all our customers. No matter When, What or Where, we are dedicated to serving you, in all ways, always.

Road to Success

- **In 1954** the factory was set up as an manufacturer of handcraft products;
- **In 1983** the factory named as Qianjiang Nr.2 Weaving Factory, specially weave medical gauze;
- **In 1987** as a professional manufacturer began from gauze sponges;
- **In 1989** moved to its first manufacturing facility which meet with the stand of GMP for bleaching, sterile packaging and lap sponges;
- **In 1996** started the bandages products, and machine folding for gauze sponges;
- **In 1998** Is09002 and EN46002 certified; FDA registered; approved as foreign trade enterprise;increased more production lines, like cotton filled sponges, gauze ball, non-woven sponges, drain sponges, Post-op Sponges and so on;
- **In 2001** the factory changed to private business named as Kingphar Medical Material Co Ltd; increase more folding machines for gauze sponges;
- **In 2002** bought a garment factory to increase the capacity of lap sponges, zig-zag fold gauze, gauze bandages;
- **In 2004** got the certificate of ISO13488 and CE; Increased more folding machines; run the automatic sterile packaging process for sterile 1's, 2's, 5's and 10's, both in pouch and blister package;Invested a new manufacturing facility as GMP standards with cleaning rooms; Set up Kingphar Korea;
- **In 2005** certified for ISO13485:2003; Changed the bleaching processing from bale to roll type, and successfully move bleaching line into new facility;
- **In 2006** Wuhan office was established; Passed FDA 4-days factory audit; New facility started its all operation; Set-up new factory for medical cotton and cosmetic cotton products;
- **In 2009** set up ETO sterilization facility, and passed the audit of EN ISO 11135-1 for ETO sterilization;
- **In 2013** with the further development needs,we bought independent sales center near the train station of Hankou,Wuhan;
- **In 2014** we bought in the large packing development ,restructured and increased gauze weaving equipment ,production efficiency and output has been significantly improved;
- **In 2015** enter into Chinese OTC/Pharmacy market;
- **In 2016** established Kingphar Group;
- **In 2017** set up Steam sterilization facility, and got the certificate of EN ISO 17665-1 for Steam sterilization, can provide both ETO and Steam sterilization in house.
- **In 2018** our domestic brand promotion company Wuhan Kingphar separated from sales department, and moved to the new building;
- **In 2019** we increased sterilizing equipment which is double of the previous sterilization volume;
- **In 2020** as the outbreak of covid-19, we expanded the production ability of face mask. Our staff worked day and night to satisfy the market demand. Our company was awarded "Qianjiang City Pioneer Group in Fighting the COVID-19 Epidemic" by the government;
- **In 2021** new factory Hubei Kingphar Technology began to build, covers an area of 150,000 m², with production ability around 1000x 40HQ containers per year;
- **In 2022** our spunlace non-woven fabric production line come into use.

Ideal for sprains, strains, joint support and dressing retention

5/7.5/10/15/20/25cm x 5/10/25m

Packing: each piece in one polybag or desponse box

*Other width,length and package can be produced as per requirement

Plaster of Paris Bandage

Consists of plain-weave gauze fabric coated with blend of alpha and beta calcium sulphate crystals, spooled on round perforated plastic core

Available in different size
Available in white or colored
Immersion time 2 to 3 seconds only
Excellent moulding ability

*Other specifications or package can be produced as per requirements

Bandage Series

- Crepe Bandage
- Stockinette
- Plaster of Paris Bandage
- Kerlix Bandage
- First Aid Compress Bandage
- High Elastic Bandage
- PBT Conforming Bandage
- Triangular Bandage
- Gauze Bandage
- Israeli Bandage

Bandage Series

Kerlix Bandage

100% pure cotton
High absorbency, great softness
Sterile or non sterile

4.5" x 4.1 yards-6 ply

*Other dimensions and type can be produced as per requirements

First Aid Compress Bandage

Weave/knitted, plain/crepe
Sterile or non sterile
Individually packed in cellophane, pouch or blister
Different weight and material

Stretched Length:
4cm x 4m 6cm x 4m 8cm x 4m
10cm x 4m 12cm x 4m 15cm x 4m

*Other dimensions, weight or package can be produced as per requirements

High Elastic Bandage

Weave/knitted, bleached/un bleached, skin color
Individually packed in cellophane
Different weight
Cotton/spandex

Stretched Length:
2.5cm x 4m 5cm x 4.5m 7.5cm x 4.5m
10cm x 4.5m 15cm x 4.5m

*Other dimensions, weight or package can be produced as per requirements

Bandage Series

PBT Conforming Bandage

Weave/knitted, plain/crepe
Sterile or non sterile
Individually packed in cellophane, pouch or blister
Different weight and material

Stretched Length:
4cm x 4m 6cm x 4m 8cm x 4m
10cm x 4m 12cm x 4m 15cm x 4m
1" x 4.1 yards 2" x 4.1 yards 3" x 4.1 yards
4" x 4.1 yards 6" x 4.1 yards

*Other width, length, weight or package can be produced as per requirements

Triangular Bandage

BP 13, 17, 20 threads gauze or Non-woven
Bleached or unbleached
Individually packed with 2 safety pins

37" x 37" x 52" 40" x 40" x 56"

*Other dimension, weight or package can be produced as per requirements

Gauze Bandage

BP 13, 17, 20 threads, white/green or blue gauze
Sterile or non sterile
12pcs/paper pack or individually packed
Cutting edges/Selvage

1"/2"/3"/4"/6" x 4/10 yards

*Other width, length and package can be produced as per requirements

Bandage Series

Israeli Bandage

Uniquely designed on the 2 self-contained retaining rings, one for pressure piercing in the gauze area, one for the fixed retaining ring, each ring has an opening in the middle, no need to cut the size during operation, or use nylon Fastened by a buckle or needle. These two snap rings will have quite a lot of application space in the wild. This IBD has actually surpassed most of the first aid bandages, integrated with sterile gauze, fast hemostatic bandage, pressure device, equivalent a small emergency system, at the same time, a total length of 3.6 meters elastic bandage can also be used as a lifting ring, a splint in an emergency, or even as a simple tourniquet.

Main Materials

Chitosan fiber, calcium alginate fiber, polyurethane functional film, self-adhesive elastic bandage, absorbent cotton. The rescue blood bandage is mainly composed of a dressing pad, a movable dressing pad, a self-adhesive elastic bandage, a lining cloth and a buckle.

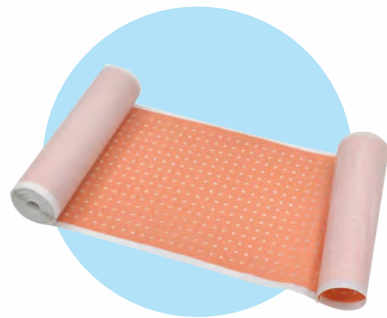

Adhesive Series

- Cohesive Elastic Bandage
- Zinc Oxide Plaster
- Non-woven Fixing Tape
- Perforated Zinc Oxide Adhesive Tape
- Adhesive Tape(PE/Nonwoven/Silk)
- Wound Plaster/Adhesive Bandage

Adhesive Series

Perforated Zinc Oxide Adhesive Tape

Perforated zinc oxide plaster, using special processing to increase the viscosity and permeability of products

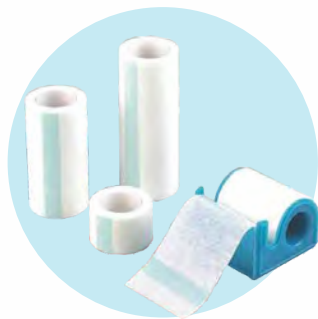

Intend usage: Protect fingers, hands, arms, knees, for the fixation of all kinds of dressings, syringe needles, catheters, etc

Base material: Cotton
Available color: White and skin

5cm / 10cm / 12cm / 18cm x5m

*Other specifications or package can be produced as per requirements

Adhesive Tape(PE/Nonwoven/Silk)

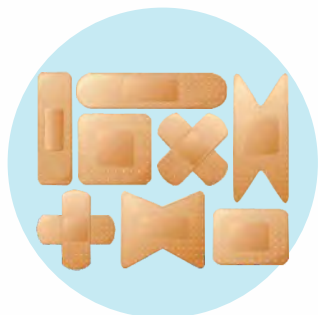

Composed of PE film/nonwoven/silk and medical pressure sensitive adhesive For the fixation of all kinds of dressings, syringe needles, catheters, etc

Transparent color
1.25cm/2.5cm / 5cm / 7.5cm / 10cm x5y
1.25cm/2.5cm / 5cm / 7.5cm/10cmx10y

Simple packing, plastic packing, metal packing

*Other specifications or package can be produced as per requirements

Wound Plaster/Adhesive Bandage

Available in different material
Available in different size and shape
H-shape/Butterfly-shape

Elastic/PU (Polyurethane)/Elastic waterproof/Perforated PE
70mm x 18mm, 72mm x 19mm 72mm x 25mm

*Other specifications or package can be produced as per requirements

Adhesive Series

Cohesive Elastic Bandage

Easy Tear Nonwoven Fabric
Available in different color
Available in different size

1" x 5yds
2" x 5yds
3" x 5yds
4" x 5yds
6" x 5yds

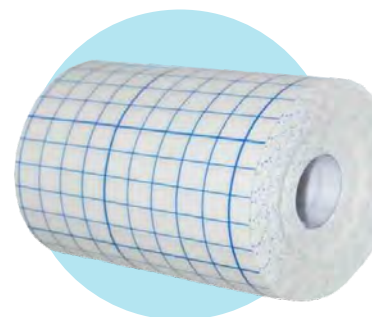

*Other specifications or package can be produced as per requirements

Zinc Oxide Plaster

Premium fabric
Zinc oxide adhesive, low irritation risk
Easy hand tear, quicker use
Soft and breathable
Easy unwinds to core

Non-woven Fixing Tape

Composed of silk and medical pressure sensitive adhesive
Spunlaced non-woven tape is mainly has three different material:
common non-woven, water-repellency and waterproof

5cmx10m, 7.5cmx10m, 10cmx10m,
10cmx10m, 20cmx10m, 30cmx10m

1 Roll/Box, 150,125,80,50,25 boxes/carton

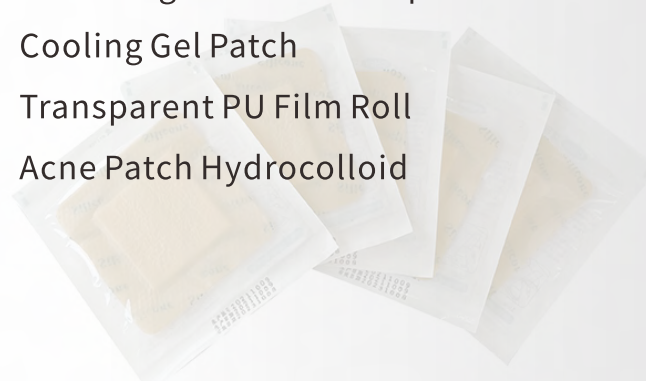

*Other specifications or package can be produced as per requirements

ADVANCED WOUND DRESSING

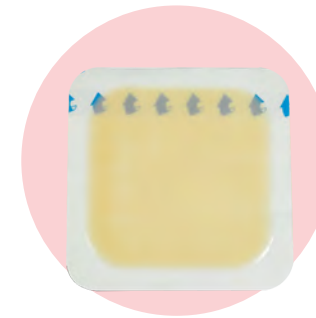

- Hydrocolloid Wound Dressing
- Silicone Foam Wound Dressing
- Hydrogel Wound Dressing
- Sterile Island Wound Dressing
- I.V. Cannula Fixing Dressing
- Calcium Alginate Wound Dressing (+AG)
- Activated Carbon Fiber Dressing
- Wound Skin Closure Strip
- Silicone Scar Patch

- Honey Gauze Dressing
- Cleansing Nose Pore Strip
- Cooling Gel Patch
- Transparent PU Film Roll
- Acne Patch Hydrocolloid

Advanced wound dressing

Hydrocolloid Wound Dressing (with thin border/ultra thin)

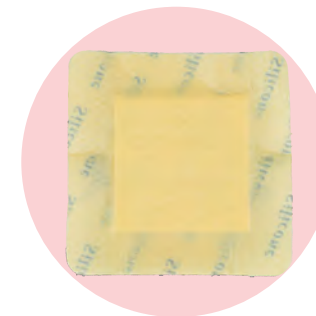

Hydrocolloid wound dressing is a kind of elastic dressing made of pressure sensitive adhesive with CMC hydrophilic granules.

Advantages

1. Keep the wound in a moist environment, promote wound healing, effectively release pains.
2. Semi-transparent, easy to observe wound healing process.
3. PU film surface, waterproof and air-permit, prevent external contamination.
4. Easy to peel off, no adherence to wound, effectively reduce the potential damage and pains.
5. Available in different sizes and shapes to meet the clinical needs.

5cm*5cm 10cm*10cm 10cm*20cm 15cm*15cm 20cm*20cm

Silicone Foam Wound Dressing

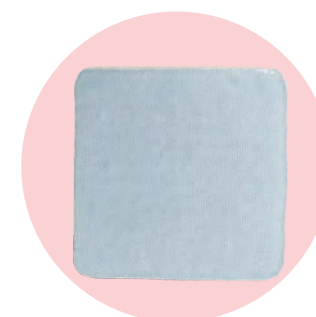

Silicone Foam Dressing is made of isolation film, hyper absorbent foam, silicone layer with holes and waterproof PU film.

Applications:

1. It is adaptable to different phases of wound especially highly exudating wounds.
2. II degree burn wound.
3. Donor site and skin grafts site.
4. All kinds of ulcers, bedsores.
5. All kinds of post-operation surgery wound, can be reserved for 5 to 7 days at most.

Size: 5*5/7.5*7.5/10*10/12.5*12.5/15*15/15*20cm

Hydrogel Wound Dressing

Hydrogel dressings consist of 90 percent water. An excellent source for providing moisture to a dry lesion, hydrogel dressings act fast to help cool down a wound, as well as provide temporary relief from pain for up to six hours. Not for a wound is extremely moist or displaying heavy exudate.

Aquogel dressing is applicable for dry or dehydrated wounds, partial or full-thickness lesions, abrasions or severe scrapes, minor burns, wounds with granulated tissue development, radiation skin damage.

Size: 5x5, 10x10, 15x10, 15x15, 20x15, 20x20, 25x10 etc.

Advanced wound dressing

Sterile Island Wound Dressing

Type: Non-woven or PU
 Features: self-adhesive, sterile, high absorbent pad.
 Air permeable Spunlace Non woven fabric, waterproof transparent PU film.
 Application: general wound care, post-op care.

Size: 5*5/10*10/15*15cm, 5*10/5*15cm, 10*15/10*20/10*25/10*30cm
 Package: 1 pc/pouch, 50 pcs*24 boxes/carton

*Other dimensions ,weight or package can be produced as per requirements

I.V. Cannula Fixing Dressing

Type: Non-woven or PU, with absorbent pad or not, with U port or not, with frame or not.
 Application: Care for cut,suturing wound, fixing the venous catheter firmly when injection ,PICC, CVC and various catheter.

Size: 6*7cm,7*9cm,10*12cm,10*15cm,10*20cm,10*25cm

*Other width,length ,weight or package can be produced as per requirements

Calcium Alginate Wound Dressing (+AG)

Alginate dressing is a kind of advanced medical wound dressing made of mixture of fiber and calcium ion from the natural seaweed. It can absorb 15-20 times their own weight in exudate.The calcium ions in the dressing interact with the sodium ions in the fluid of the wound. This reaction makes the fiber in the dressing to swell and partially dissolve into a gel.

Size: 5*5/10*10/2*30 cm, 1 pc/pouch, 10-20 pcs/box

*Other dimension ,weight or package can be produced as per requirements

Advanced wound dressing

Activated Carbon Fiber Dressing

Activated carbon fiber dressing is made of activated carbon fiber as the main raw material. It is made of cotton as the main material, extracted from viscose fiber, and then carbonized and activated at a high temperature of 900 degrees. Activated carbon fiber dressing has strong adsorption capacity, which can absorb blood and exudate on the surface of the wound to ensure that the wound is relatively clean and dry.

Type: Self adhesive, non self-adhesive
 Size: 5*5/5*10/5*15/5*20/10*10/10*15/10*20cm

Wound Skin Closure Strip

The wound closure strip is made of non-woven fabric and rayon-backed material, reinforced with fiber, with low sensitivity adhesive, suitable for fixed incision to reduce tension promoting wound healing to reduce formation of scars.

Size 3*75mm/6*75mm/6*100mm/12*100mm
 other required size also can be molded and produced for you

Silicone Scar Patch

Application: prevent scar hyperplasia, promote scar softening and fading and flattening, assisting to prevent the scar formation, not for unhealed wound.

Structure:

Backing base layer(PU/Elastic cloth/Silicone rubber film)+Silicone gel layer+Release film(PET/PP)

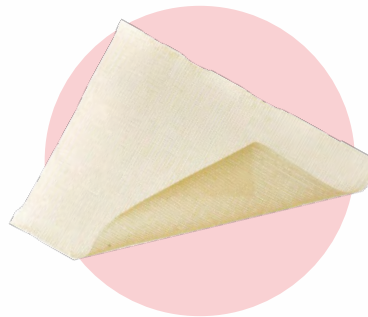

Size: 2.5/3.5/4.5cm*1.5/5m in rolls.

φ1.5cm, φ3cm, 3*5cm, 3.5*5/8/12/15cm, 4*5/20cm, 5*7cm, 6*7/14cm, 12*8/15cm in sheets.

Custom size and package are available.

Advanced wound dressing

Honey Gauze Dressing

Product performance

Manuka honey dressing is impregnated with 100% Manuka Honey from New Zealand with no additives, it is disposable sterile products, and consists of manuka honey and gauze. The dressing can protect the wound, effectively form and maintain the wet environment of the wound, and provide a suitable environment for wound healing.

Wraps For Dental Use

SMMS wrap

Conform to EN868-2
 virgin SMMS roll stock
 single color sheet in different colors
 two colors' sheet (one side blue and another side green)
 available in different sizes of sheet" available in 40g regular
 weight 50g heavy duty, 60g multi-pac and 40g alcohol repellent
 for applications requiring high strength to reduce risk
 of puncture or tearing.

CSR crepe wrap

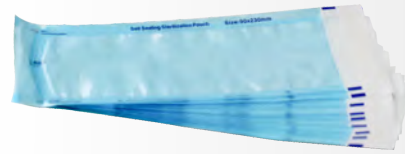

· Conform to EN868-2
 available in different colors: blue, green and white
 available in different sizes of sheet
 we offer both Supersoft and Standard crepe wrap
 available for sterilization by EO and gamma

Packaging Materials For Dental Use

Self Sealing Pouches

- Medical grade paper and film conforming to EN868-5
- Transparent PET/PP film@52 u or subject to customers' requirements
- Dual Indicators of Steam &ETO meeting latest requirements of USADA
- Triple sealing better assure sterility
- Opening notch design for easy operation
- Wide enough tape of 17mm better assure the sealing
- Strengthening sealing on the upper corners
- Printing outside of pouch container avoiding any riskofinside contamination

Reels

- Medical grade paper and film conforming to EN868-5
- Transparent PET/PP film@52u or subject to customer' s requirements
- Double Indicators of Steam and ETO
- Triple sealing better assure sealing strength
- Printing outside of the pouch container avoiding riskofinside contamination
- Both flat and gusseted pouches are available

Barrier film

- 4" x 6" perforated sheets with non-adhesive side edges for easy removal
- Paper core/Plastic core
- Specially formulated adhesive leaves no residue behind
- Helps to prevent cross-contamination
- Convenient dispenser box contains 4" x 6" sheets

Surgical/OR series

- Green/Blue Lap Sponge
- Green/Blue Gauze Swabs
- Neuro Pad(Patty)
- First-aid Kit
- Surgical Kits
- X-ray Peanuts

Neuro Pad(Patty)

100% cotton / rayon / synthetic
With X-Ray detectable thread
Different size and shape
Sterile/Non sterile

10 pcs wrapped on cardboard then into sterile pouch

*Other dimensions ,shape or package can be produced as per requirements

Surgical/OR series

First-aid Kit

Available in Large/Medium/Small pack

The large pack contains 28 different kinds of wound plasters, dressings, bandages, tapes and tools.
Can be altered to a outdoor medical kit or a car medical kit

The medium pack contains 21 medical consumables and some basic tools.

The small pack has 12 medical dressings, bandages, plasters, scissors and tools

*Other specification can be produced as per requirements

Surgical Kits

Surgical kit contents:

1pc Tray
6pc Cotton balls(0.5 gm each)
5pc Gauze swabs (7.5cm×7.5cm-8ply)
2pc Dissecting forceps
1pc Hand towel
1pc Waterproof drape
1pc Yellow limpet bag
1pc Outer wrap (blue) - sterile field

*Other dimensions and package can be produced as per requirements

X-ray Peanuts

100% pure cotton BP 17,20 threads
X-ray Detectable
In Peanuts Shape
Sterile or non sterile
