German DIN Standard DIN 58953-8 Logistics of sterile medical devices

Dear Mrs. Roibu,

The requested information regarding the storage time of sterile containers is part of the DIN 58953 part 8- Logistics of sterile medical devices. Unfortunately this German standard is not available in English language.

The European standard for packaging materials EN 868 and the ISO standard for sterile packaging materials do not include any information regarding the storage time of packaging materials.

The above mentioned DIN standard 58953-8 gives the following recommendations with regards to the storage time of containers:

It is pointed out that the loss of sterility is more event related than time related. The storage time is not such an important factor, more important are different influences during storage, transport and handling of sterile goods. Therefore the storage time cannot be fixed in a general matter. The DIN standard gives only recommendations for storage time of containers. The final decision has to be made by the hygienic commission of the respective hospital considering the detailed storage conditions in this hospital. The recommendation for the storage time for sterile containers is generally 6 months, no matter if the container is single packed or double packed or stored in open or closed shelves.

Chairman of Supervisory Board:
Prof. Dr. h.c. Ludwig Georg Braun

Address:
Aesculap AG
Am Aesculap-Platz
78532 Tuttlingen
Germany

The following notes are made in DIN58953-8:

1. The recommendation of storage time of 6 months for container is only a recommendation which would diminish the risk of contamination during transport and opening of the container. Longer storage time would increase the risk of contamination on the surface of the container depending on the storage conditions. However this would not necessarily lead to a recontamination of the packed instruments during storage time.

Tabelle 1 – Empfohlene Lagerdauer für sterile Medizinprodukte

Tabelle 1 – Empfohlene Lagerdauer für sterile Medizinprodukte		
Art der Verpackung	Lagerung ungeschützt ³	Lagerung geschützt (nach 7.1.2)
Sterilbarrieresystem	Dient zur Bereitstellung zum alsbaldigen Gebrauch ⁶ Ist als Lagerungsart zu vermeiden	6 Monate jedoch nicht länger als das Verfallsdatum
Verpackungssystem (Kombination aus Sterilbarrieresystem und Schutzverpackung)	5 Jahre sofern keine andere Verfallsfrist vom Hersteller festgelegt ist	
ANMERKUNG siehe auch [4] und [5]		
³ In Regalen in Räumen, die nicht der Raumklasse II nach DIN 19464:2008-12 entsprechen. ⁶ Unter alsbaldigem Gebrauch wird die Anwendung bzw. der Gebrauch des Produktes innerhalb von maximal 2 Tagen / 48 h verstanden		

With kind regards,

Aesculap AG
