Cystoscopes

High-Definition, wide angle
Autoclavable, max.134°C/2,3bar/5min

Medici Endoscope-line consists of high quality telescopes which have been developed according to the most modern technology and production standards. A new generation optic system assures a unique color, contrast and highly defined details reproduction, both in the center of the image and at the edges. A particularly true color reproduction and a markable depth of focus guarantee a natural picture. Distal and proximal sapphire windows provide an extremely high level of scratches resistance.

Fiber Light Cables

Fiber Light Cables, Xenon Safe, Led White Light

Medici Optical Fiber Cable is made to resist and to shield against very high thermic energies especially in the use of **Xenon** light sources due to the fusion of light fiber in the cable itself.

This guarantees **20%** light more in the operating field.

New High Performances White Line-LED Light Cables
New «WhiteLine» LED series Optical Fibers Light Cables have been designed and made up to be used with cutting edge LED Light Sources. By enhancing the trasmission effectiveness of an already well-established and first-choice optical fibers light cable, light output and illumination, when operating with a LED light source togheter with a modern HD telescope, can be visibly and considerably increased.

3,5mm diameter , xenon safe, for Ø 2,9 - 4,0mm scopes

Mini-Nephroscope

High Definition

Autoclavable, max.134°C/2,2bar/5min

Ording n°	Description
45220NA	Nephroscope with 30° angled ocular, Ø 12Ch, viewing angle 12°, WL 220mm, Ø 7,0Ch working channel, 1x5,0mm or 2x3,0mm

Ording n°	Description
4511250	Operative sheath, 15/18Ch, for Continuous flow /Mini-Nephroscopy
4511251	Operative sheath, 16,5/19,5Ch, for Continuous flow /Mini-Nephroscopy
4511252	Operative sheath, 21/24Ch, for Continuous flow / Mini-Nephroscopy
4511255	Applicator for seal, to be used with sheath + plunger
4511256	Dilator with central channel for wire guiding, for 15/18Ch sheath
4511257	Dilator, double channel for wire guiding, for 16,5/19,5Ch sheath
4511258	Dilator, double channel for wire guiding, for 21/24Ch sheath
