

# Dressing tape, non-woven, self-adhesive, non-sterile elastopor E

TD-06-I.2.c-1.2

edition I

date: 2021-05-26

amendment of: 2021-12-22

**MANUFACTURER:** ZARYS International Group sp. z o.o. sp.k.**ADDRESS:** ul. Pod Borem 18, 41-808 Zabrze, Poland; T: +48 32 376 07 00-02,06 F: +48 32 370 38 08; www.zarys.com**CLASSIFICATION**

class I medical device compliant with Medical Devices Regulation (EU) 2017/745 (MDR)

**INTENDED PURPOSE**

- device intended for stabilisation, protection and fixation of drains, catheters, medical tubes as well as primary dressings (contact), non-adhesive, applied directly to wounds and skin damages

**FEATURES**

- soft, pleasant to the skin
- micropores in the non-woven fabric structure provide appropriate vapour-permeability rate, thanks to which proper gas exchange between the dressing and the skin takes place
- elastic - adheres well, conforms to the body contours
- does not absorb X-rays
- easy to cut with scissors
- acrylic adhesive applied continuously over the entire surface of the tape
- backing layer of siliconised paper with wavy intersection and graphical marking - i.e. metric scale, which facilitates division of the tape and precise, painless and effective application
- one 10 m piece packed in a box - a dispenser allowing to use the tape without taking it out of the box
- hypoallergenic
- single-use
- non-sterile
- shelf life: 3 years

revision 2

date: 2021-10-29

amendment of: 2023-02-01

**MANUFACTURER:** ZARYS International Group sp. z o.o. sp.k.

**ADDRESS:** ul. Pod Borem 18, 41-808 Zabrze, Poland, phone +48 32 376 07 00-02,06 fax. +48 32 370 38 08

**INDICATION:**

- treating wounds with a small and medium amount of exudate
- especially recommended for covering surgical wounds characterized by straight cuts and the application of fewer or more skin sutures in a straight line

**FEATURES:**

- self-adhesive dressing with absorbent pad
- made of hydrophobic non-woven material
- micropores in the non-woven material structure provide an adequate rate of moisture vapour permeability so correct gas exchange between the dressing and skin is guaranteed
- centrally placed absorbent pad - absorbs medium wound exudate
- absorbent pad coated with polyethylene mesh protects against external factors' influence and does not stick to the wound as well as facilitates removal of the dressing
- hypoallergenic
- elastic - comfortable for the patient, adjusts to the body shape and guarantees freedom of movement
- easy to attach to the skin
- rounded edges prevent accidental removal of the dressing
- covered with hypoallergenic acrylic glue without the content of zinc oxide, rubber, latex, evenly applied over the entire surface, with very good moisture resistance ensuring good stabilization of the dressing at the application site
- silicone paper backing facilitates precise, painless and efficient application
- EO sterilized
- shelf life: 5 years

# VOMIT BAG

TD-58-I.2.c-1

edition I

date: 2021-07-01

amendment of: 2021-12-22

**MANUFACTURER:** ZARYS International Group sp. z o.o. sp.k.

**ADDRESS:** ul. Pod Borem 18, 41-808 Zabrze, Poland; T: +48 32 376 07 00-02,06 F: +48 32 370 38 08; www.zarys.com

## CLASSIFICATION

Class I medical device compliant with Medical Devices Regulation (EU) 2017/745 (MDR)

## INTENDED PURPOSE

- disposable device intended for collection of gastric contents during patient vomiting

## FEATURES

- made of durable, transparent LDPE foil in blue or red colour, allowing the secretion to be observed
- wide bag's inlet protected by polypropylene collar
- collar's circular rim provides a firm grip and makes the bag easier to manoeuvre, reducing the risk of content contamination
- collar is equipped with a special notch enabling closing of the bag and hygienic disposal of vomitus content - "twist and hitch"
- total capacity of the bag: 2000 ml
- precise measuring graduation (from 10 to 100 ml every 10 ml (numerically every 20 ml) and from 100 to 2000 ml every 100 ml) placed on the bag allows accurate estimation of liquid volume
- reading direction of the graduation for small volumes is indicated by a arrowhead
- device name, manufacturer's name and pictorial instruction for use printed directly on the bag
- latex-free
- phthalate-free
- single-use
- non-sterile
- shelf life: 5 years
