

CONFIRMARE

referitoare la includerea echipamentelor FEP ME 1000 DV si FEP ME 755 AMX in lista cu echipamente securitate ICAO/OACI (in lista cu echipamente conventionale cu raze X din AVSECPaedia)

Firma Gilardoni SpA este unul dintre cei mai cunoscuti producatori de echipamente cu raze X conventionale de pe glob, echipamentele produse de catre aceasta firma avand certificari obtinute de la cele mai importante organisme de certificare precum STAC, ENAC, ECAC sau TSA.

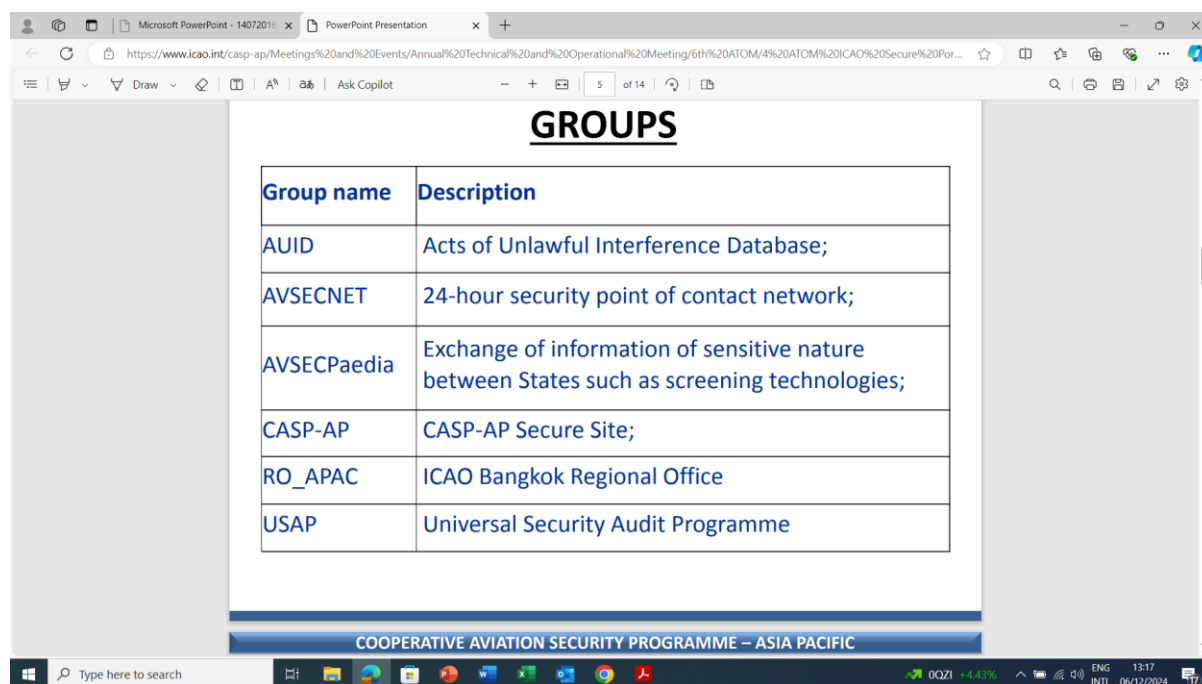

Urmare a prezentei pe aeroporturile internationale a echipamentelor cu raze X produse de catre firma Gilardoni SpA, ICAO/OACI a luat in evidenta in baza sa de date (AVSECPaedia) respectivele echipamente.

In baza celor mentionate mai sus, prin prezentul document **va confirmam** faptul ca echipamente **FEP ME 1000 DV** si **FEP ME 755 AMX** sunt incluse in lista cu echipamente securitate ICAO/OACI (in lista cu echipamente conventionale cu raze X din AVSECPaedia).

OBSERVATIE IMPORTANTA: Intrucat ICAO / OACI nu emite confirmari oficiale despre includerea unor anumite echipamente cu raze X in lista AVSECPaedia (care este un **document CONFIDENTIAL**, ce contine **informatii sensibile** despre echipamentele de securitate folosite in aeroporturi) verificarea confirmarii de mai sus este posibila numai prin **accesarea / logarea la baza de date AVSECPaedia a entitatilor autorizate din statele membre ICAO/OACI, cum ar fi staff-ul aeroporturilor.**

Referitor la caracterul sensibil al datelor din AVSECPaedia, rugam a se vedea in acest sens **paginile 5 si 8** din documentul **ICAO SECURE PORTAL** pe care il gasiti in link-ul:

<https://www.icao.int/casp-ap/Meetings%20and%20Events/Annual%20Technical%20and%20Operational%20Meeting/6th%20ATOM/4%20ATOM%20ICAO%20Secure%20Portal%20FINAL.pdf>

The screenshot shows a PowerPoint slide titled "GROUPS" with a table listing various ICAO/OACI groups. The table has two columns: "Group name" and "Description".

Group name	Description
AUID	Acts of Unlawful Interference Database;
AVSECFNET	24-hour security point of contact network;
AVSECPaedia	Exchange of information of sensitive nature between States such as screening technologies;
CASP-AP	CASP-AP Secure Site;
RO_APAC	ICAO Bangkok Regional Office
USAP	Universal Security Audit Programme

At the bottom of the slide, there is a blue bar with the text "COOPERATIVE AVIATION SECURITY PROGRAMME – ASIA PACIFIC".

The image shows a screenshot of a web browser displaying a PowerPoint presentation. The browser's address bar shows the URL: <https://www.icao.int/casp-ap/Meetings%20and%20Events/Annual%20Technical%20and%20Operational%20Meeting/6th%20ATOM/4%20ATOM%20ICAO%20Secure%20Portal%20FINAL.pdf>. The PowerPoint slide is titled "GROUPS" and contains the following text:

→ **AVSECPaedia** Exchange of information of sensitive nature between States such as screening technologies;

- The AVSECPaedia is a web-based platform developed by ICAO which provides a one-stop source of information to Member States on best practices, guidance and new approaches on screening methods, technologies and equipment that have been tested or deployed around the world.
- The AVSECPaedia facilitates the dissemination of such information and enables States to share security information or practices, particularly relating to screening technology and equipment.

The slide footer reads "COOPERATIVE AVIATION SECURITY PROGRAMME – ASIA PACIFIC". The Windows taskbar at the bottom shows the date as 06/12/2024 and the time as 12:12.

Modalitatea de acces / logare la lista / baza de date AVSECPaedia pe care trebuie sa o utilizeze entitatile autorizate precum staff-ul aeroporturilor din statele membre este descrisa in documentul de mai jos de pe site-ul ICAO/OACI:

<https://www.icao.int/Meetings/jointconferencemalaysia/Panel%201/TRACK%20A%20%E2%80%93%20CONSOLIDATION/Session%206%20-%20AVSECPaedia.pdf>
