Stereo Headset H111

Start talking.

- Works with common calling applications across almost all platforms and operating systems
- Simple plug-and-play connection
- Full stereo sound
- Noise-cancelling microphone
- Microphone can be worn left or right side

Start talking with the Logitech® Stereo Headset H111. It's perfect for making Internet calls, listening to music, watching movies and playing games in full stereo sound. A noise-cancelling microphone reduces annoying background noise, which helps keep your conversations clear. You can wear the flexible microphone on either your left or right side, and rotate it up and out of the way when you're not using it. An adjustable headband gives you just the right fit. And you can use the Stereo Headset H111 on almost all operating systems and platforms thanks to the standard 3.5 mm jack connectivity.
